MOTIF

Chamba Town

Chamba an ancient town of Himachal Pradesh is the headquarters of district Chamba which was also the capital of the erstwhile state of Chamba. Located at an altitude of 996 metres above the mean sea level the town is situated on the banks of the Ravi River at its confluence with the Sal River. As the historical records date the history of the Chamba region to the Kolian tribes in 2nd century B.C. but the state of Chamba was formally founded about the middle of the 6th century A.D. by Meru Varman. Brahmapura which is considered to be the present Brahmaur village was founded by him and made it a capital of the State. In 920 A.D. Raja Sahil Varman shifted the capital of his kingdom from Brahmaur to this place on the request of his daughter Champavati and named as Chamba after his daughter. Another legend is that Chamba town might have derived its name from the Champa trees which are found in and around the town. Chamba town has numerous heritage monuments like 10th century Champavati temple, Sita Ram Temple, Bansi Gopal Temple, Kharura Mohalla and Hari Rai Temple, the 11th century Sui Mata Temple and Chamunda Devi Temple. Built during 10th century the Lakshmi Narayan group of temples complex is the famous heritage and religious site of the town. Built by Raja Umed Singh between 1747-65 Akhand Chandi Palace overlooking the Chaugan, which has since been converted to a government college, adds to a panoramic view of the town. Bhuri Singh Museum built during 1908 is the main attraction to archaeological lovers visiting the Chamba town. At the last but not the least the Chaugan, which is the heart of the town and the nucleus of all socio- economic and cultural activities of Chamba town, still holds the place of prominence. Chaugan a terraced grass green field measuring about 800 metres in length and 80 metres in width is exceptionally large for a hill station is used as playground for all types of sports and matches, picnics and promenade especially during the mid-summer months. During the annual “Minjar Fair” the entire Chaugan becomes a flea market.

h) Appendix to Town Directory- Towns showing their outgrowth with population	668

Foreword

The District Census Handbook DCHB is an important publication of the Census Organization since 1951. It contains both Census and non-Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and ward of the District. The Primary Census Abstract PCA part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House listing and Housing Census. The non-Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (C.D. Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of Census 2001, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio-gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/Common Service Centre, Private Courier Facility,

Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System (PDS) Shop, Mandis/Regular Market, Weekly Hat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums, respectively. C.D. Block wise data of Village Directory and Village PCA have been presented in DCHB of Census 2011 as presented in earlier Census.

6. The data of DCHB Census 2011 have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in Census 2011.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sh. Balbir Tegta, Director of Census Operations, Himachal Pradesh. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract PCA. The work of preparation of DCHB, Census 2011 has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

New Delhi.

(C. Chandramouli)
Registrar General & Census Commissioner, India
New Delhi

Preface

The Census is the biggest source of comprehensive data on demography, economic activity, literacy and education, housing and household amenities, urbanization, fertility, mortality, Scheduled Caste and Schedule Tribes, language, religion and migration at village, town and ward level. District Census Hand Book (DCHB) is series of such Census publication and is the most important district level publication which provides reliable data at grass root level for the purpose of planning, administrative requirements as well as of academic development in socio-demographic field. The DCHB contains the salient results on the data gathered at the actual enumeration of head-count and in addition contain a wealth of other non-census information in respect of each village and town of the district.

Following the Census tradition, the 2011 series of the District Census Handbooks is also comprised of two parts. Part-A contains Village and Town Directory data which provides information on infrastructural amenities and land use data at village level. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. Now DCHB 2011 will also present the newly added amenities which have been discussed in the foreword of this volume along with the information pertaining to name and location of villages, area, population, number of households, important civic amenities/ facilities available in villages like educational, medical, drinking water, post, telegraph and telephone, commercial and co-operative banks, agricultural & non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town by distance, power supply, newspaper/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part-B contains village and town-wise Primary Census Abstract (PCA) along with Housing amenities data which provides information on area, number of households, sex-wise total population, child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and division of workers into four economic categories i.e. cultivators, agricultural labourers, workers in household industries, other workers and special tables on Housing data in respect of each village and town of the district.

Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages, conditions of housing, assets available with households and demographic profile of population at Sub-District/C.D. Block level which are of much utility for demarcation of areas of surplus and deficit to reorient the planning process.

The District Census Handbook is a joint venture of the Government of Himachal Pradesh and the Census Organization of the Government of India. The design of 2011 District Census Handbooks is evolved centrally by the Registrar General and Census Commissioner, India and accordingly these books have been prepared at Directorate level. The data so supplied by the field level officers have been cross checked with the data obtained from various departments and an attempt had been made to reconcile the discrepancies to make it more reliable. I am grateful to all Heads of Departments of the State Government, officers and staff engaged in the conduct of Census 2011 for their co-operation to accomplish this task.

The compilations of such a huge amount of varied data in a single volume requires proper planning and close monitoring. I owe special thanks to Dr. C. Chandramouli, I.A.S., the Registrar General and Census Commissioner, India for his enlightened guidance and encouragement. I am also thankful to Shri Deepak Rastogi, Additional Registrar General of India, Dr. R.C. Sethi, Ex Additional Registrar General of India, Dr. A.P. Singh, Deputy Registrar General (Map), Shri P.K. Banerjee, Deputy Registrar

General (C&T), Shri A.K. Samal, Additional Director, Shri M.S. Thapa, Additional Director, Dr. Pratibha Kumari, Assistant Registrar General (SS) and Shri A.K. Arora, Joint Director for providing technical guidance and finalising this report.

The Census 2011 Operations in Himachal Pradesh were carried out under the able guidance and the dynamic supervision of Shri Balbir Tegta, I.A.S., the then Director of Census Operations. I owe my deep sense of gratitude to him.

The data presented in the District Census Handbook required a concerted team work of officers and staff members of this Directorate who were involved whole heartedly at various stages of its planning, supervision, field work, and computerization, preparation of manuscript, maps and printing. I express my appreciation for the painstaking and dedicated services rendered by all of them. Special mention is made of Shri R.K. Ram, former Joint Director, Shri Ashish Chauhan, Assistant Director, Shri R.S. Negi, Assistant Director and Shri Ramesh Kumar Sharma, Statistical Investigator Gr.-II (Rtd.), Shri Narender Kumar Sharma, Sr. Compiler, Shri Ratan Kumar Lalmani, Statistical Investigator Gr.-II, Shri Anil Kumar Maurya, Compiler, Shri Ramesh Kumar, Compiler and Smt. Sunita Rani, Sr. Compiler. Primary Census Abstract (PCA) included in this publication was scrutinized by Census Section under the supervision of Shri Narpal Ram, Statistical Investigator Gr.-I, Shri Mohar Singh Chauhan, Statistical Investigator Gr.-I, Shri Ramesh Chand Chandel, Statistical Investigator Gr.-II, Ms. Archana Nahar, Statistical Investigator Gr.-II, Shri Anil Thakur, Sr. Compiler, Shri Rajender Singh Chandel, Sr. Compiler and Shri Bhikham Ram, Compiler. Maps appearing in this publication are prepared by Map Section under the guidance of Smt. Veena Thakur, Research Officer (Map). The whole manuscript of the District Census Handbook is edited and finalised by me. I express my appreciation for the dedicated services rendered by them and all other my colleagues in the Directorate associated with this project.

I hope this volume will readily come to the expectation of the data users.

History and Scope of the District Census Handbook

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of Census and non-Census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both Census and non-Census data of urban as well as rural areas for each district. The Census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non-Census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 Census DCHB provided a descriptive account of the district, administrative statistics, Census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 Census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to Tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (C.D. Block) level presentation of village directory and PCA data instead of the traditional Tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking and (vii) Civic & other amenities in Slums. C.D. Block wise data of Village Directory and Village PCA have been presented in DCHB of Census 2011 as presented in earlier Census. The data of DCHB Census 2011 have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the parts have been published in separate volumes in Census 2011.

BRIEF HISTORY OF THE DISTRICT

Prior to the merger of the princely States after the independence the area comprising the district was known as Chamba State. Chamba State has a very old history of its own. The name of this State is found in the Vansavali (genealogical role of the Rajas). The available epigraphical records and copper plate title deeds also throw much light on the old history of the State. Since the State was sheltered by its snow clad mountain barriers, it escaped the destruction of monuments of old civilization at the hands of the foreign invaders. As the history reveals Chamba State was founded about the middle of the 6th century A.D. Meru Varman is said to have been the founder of the ruling family of the State. He was a Suraj-Vansi Rajput and is said to have migrated from Ayodhya alongwith his family. He is stated to have penetrated into the upper valley through the outer hills and is said to have conquered the territory from the local petty chiefs. Brahampura which is considered to be the present Brahmaur village was founded by him and he made it capital of the State. It is also stated that the original State was very small in size and was confined in the valley of the Ravi from below Barabanghal with its tributaries the Budhil and the Tundahen as far down as Chhatrari. The Meru's rule was only nominal and it is said that after having founded the State he made it over to his son Jaistambh and himself retired by detaching from the worldly affairs Jaistambh was succeeded by Mahastambh.

Subsequent rulers were Adi Varman, Deva Varman, Mandara, Kantara, Pragalbha, Ajya Varman, Mushuna Varman, Hamsa Varman, Sara Varman, Sainya Varman and Sahila Varman.

Sahila Varman who ruled around 920 A.D. was the last among the Brahampura Rajas. He conquered the lower Ravi valley and shifted the capital from Brahampura to the present Chamba town. He was visited by 84 *Yogis* who after being highly pleased by the Raja's hospitality promised him ten sons. In due course the promise was fulfilled and in addition, one daughter was also born who was named Champavati. The Raja accompanied by one of the *Yogis* named Charpatnath, the queen and the princess Champavati after conquering the lower portion of the Ravi valley halted on the plateau on which the present Chamba town is situated. Champavati revealed her liking to the place and asked her father Sahila Varman to found a town at the place and make it the capital of his State. The town was subsequently founded around 930 A.D. and named as Champa after his daughter. Another legend is that Chamba might have derived its name from the the Champa trees which are found in and around the town. Right from the founding of the town in 930 A.D. it has uninterruptedly been the seat of the government. The Raja who ruled the Chamba state after Sahila Varman and had Chamba town as their capital were as under:-

Yugakar Varman (A.D. 940) : Not much is known about this Raja except a copper plate deed bearing his name which is still in existence. This plate is the oldest discovered. He is believed to have erected the temple of Gauri Shankar in Chamba near the Lakshmi Narain temple.

Vidagdha Varman (A.D. 960) : A copper plate deed granted in the 4th year of his reign is available which mentions his father Yugakar and his mother Bhogamati Devi.

Dodaka Varman (A.D. 980) : The name appears as Dogdha in a stone inscription.

Other Rajas who ruled Chamba after Dodaka Varman were Vichitar Varman, Dhairya Varman, Salavahana Varman (1040 A.D.), Soma varman (1060 A.D.), Asata Varman (1080 A.D.), Jasata Varman (1105 A.D.), Dhala Varman (1118 A.D.), Uday Varman (1120 A.D.), Ajita Varman, Daityari Varman, Prithi Varman, Lalita Varman (1143 A.D.), Vijaya Varman (1175 A.D.), Raja Varman, Sara Varman, Kirti Varman, Ajita Varman, Madana Varman, Narakanajar Varman, Asha Varman, Jimut Varman, Vairasi Varman (1330 A.D.), Manikya Varman (1370 A.D.), Bhot Varman (1397 A.D.), Sangram Varman (1442 A.D.), Anand Varman (1475 A.D.), Ganesha Varman and Partap Singh Varman (1559 A.D.).

Partap Singh Varman undertook the task of building and repairing a number of temples including the Lakshmi Narain temple and he defeated the Katoch forces and captured a sizeable territory including Guler. Partap Singh Varman was contemporary with Akbar and Chamba might have become subject and tributary to the Mughal empire. Todar Mal, the Finance Minister of Akbar subdued Chamba and other states of Kangra group and Chamba was compelled to surrender Rihlu and the territory to the east of that province as also the areas of Chari and Gharoh. Except these there was no interference on the part of the Mughal empire in the affairs of the internal administration of the Hill States.

Partap Singh's successors were Vir Vahnu (1586 A.D.), Balabadhra (1589 A.D.), Janardan (1613 A.D.), Prithvi Singh (1641 A.D.), Chatar Singh (1664 A.D.), Udai Singh (1690 A.D.), Ugar Singh (1720 A.D.), Daler Singh (1735 A.D.), Umed Singh (1748 A.D.). During Umed Singh's reign the territory of the state was enlarged to the south of the Dhauladhar up to the border of Mandi. The fort of Pathiyar near Palampur was also garrisoned by his troops and Bir Bangahal was also under his influence. The Khan Chandi portion of the palace was also erected by him and a palace at Nada was also built. This place was named as Rajnagar. He was succeeded by Raj Singh (1764 A.D.) and Jit Singh (1794 A.D.).

Sri Singh (1844 A.D.): It was during his reign that Chamba state, came under the influence of British regime. The state was attached politically to Jalandhar Division. Subsequently it was transferred to Amritsar Division in 1862 and finally to Lahore Division. The Raja was married to a Suket princess and during his minority the economy of the state was completely shattered because of mismanagement and extravagance. The Raja, therefore, asked for the services of an officer from the British Government and Major Blair Reid was appointed Superintendent of the State in January, 1863. Major Reid carried out important and far reaching reforms. Post office, primary school, state hospital and a residency were instituted. Reforms were carried out in the administration of forests. The important places were linked with roads and income from revenue was augmented. Raja Sri died in 1870 and was succeeded by his brother Gopal Singh.

Gopal Singh (1870 A.D.): Raja Gopal Singh like his brother Sri Singh had the assistance of a political officer. The reforms initiated by Raja Sri Singh were pushed on by Gopal Singh. Several new roads were constructed and efforts were made to beautify the town. The primary school at Chamba was raised to middle standard. The people who had earlier been dependent on orthodox methods of treating ailments were more attracted towards the state hospital. He, later on, abdicated in favour of his eldest son Sham Singh and spent the remaining years of his life at Manjir until his death in March, 1895.

Sham Singh (1873 A.D.): He was installed as Raja by General Reynell Taylor the then Commissioner of Amritsar on the 7th October, 1873. Mian Avtar Singh was appointed as his Wazir. Settlement operations of land were carried out. Col. Blair Reid retired in March, 1877 and was succeeded by Mr. R.T. Burney under whose administration the communication system was further improved. Chamba-Brahmaur, Chamba-Chuari Khas and Chamba-Khajiar roads were built. Mr. R.T. Burney was succeeded by Capt. C.H.T. Marshall who geared up the developmental works in the state. Sham Singh Hospital was expanded with facilities for treating in-patients with 40 beds. The hospital was also fully equipped with all necessary medical and surgical appliances. In 1881 a dispensary was opened at Tissa. Leper asylum started by the "Mission to Lepers" in 1876 was taken over by the state in 1881. The palace was renovated and a number of new houses were built. Sheetla bridge over the Ravi damaged by the floods in 1894 was replaced by a suspension bridge of iron at the cost of nearly a lakh of rupees. A network of Post offices in the interior of the state was started. The judicial department adapted to local conditions was reorganized on the British pattern. Police force was increased to maintain law and order. Buildings and roads were maintained by the Public Works Department. Education was fostered by opening new schools and promising pupils were offered scholarships for study within and outside the state. A small military force consisting of 300 infantry and 30 cavalry with 4 guns was formed and barracks were erected in the neighbourhood of the town. The state was also visited by Sir Mackworth

Young, Lt. Governor of Punjab in 1901 and by Lady and Viceroy Curzon in 1900. Because of his prolonged illness Sham Singh abdicated in favour of his brother Mian Bhuri Singh in 1904.

Bhuri Singh (1904-1919 A.D.): Before his installation as Raja, Bhuri Singh had been associated with the administration as Wazir for seven years and he discharged his duties with great ability. The developmental works started during the reign of Sham Singh were carried through by Bhuri Singh. Roads in the vicinity of Chamba town were widened. In 1906 a new Dak Bungalow was built in the town. Apart from this a commodious guest house was constructed in the town and another one in the suburb of Dharog. A public reading room and Library was opened. The Middle school was upgraded to a High School in 1905 and the famous Bhuri Singh Museum was inaugurated in 1908. A power house was installed on river Sal in the vicinity of the town and the town was electrified in 1910 in addition to the completion of water supply. Raja Bhuri Singh died in 1919 and was succeeded by his elder son Ram Singh.

Ram Singh (1919-1935 A.D.): Soon after his accession, the Raja gave a great fillip to the education. As many as fifteen new village schools were opened. Physical education was also introduced. On 1st November, 1921 the state came under the direct control of the Government of India in the Political Department. A large portion of road from Chamba to Nurpur was realigned and completed upto the state border, Chamba-Brahmaur road which was completed upto the twentieth mile was carried on to Kiani with a suspension bridge over the Ravi. Drainage system was provided in the Chamba town to improve sanitation. To overcome water scarcity during summer a big tank was constructed. A new power house was started. Raja Ram Singh died on the 7th December, 1935 at Lahore and was succeeded by Raja Lakshman Singh.

Lakshman Singh (1935-1948 A.D.): At the time of his installation, Raja Lakshman Singh was minor and as such the state remained under council of administration consisting of three members, including a President till the Raja came of age in 1945. Major Toulmin was the first President of the council. During his reign the existing projects were carried through and a cart road joining Chamba with the plains was also completed. On the 8th March, 1948 the state merged with the Indian Union and was assigned the status of a separate district in Himachal Pradesh.

Chamba State was merged to form a district of Himachal Pradesh on the 15th April, 1948. The number of inhabited villages was increased from 66 in 1951 to 1,123 in 1961. Upto 1951 Census the lowest revenue unit was a Pargana. Each Pargana of the past comprised of a number of revenue villages. In 1951, a regular settlement was conducted in the district and Parganas were broken up and each village came to be recognized as a separate revenue village. The settlement was started in Bhattiyat and Chamba Tahsils and later on, in the entire district. Assent reports in respect of each Tahsil were completed by the end of October, 1958.

In 1961 Census, the district had been divided into 3 Tahsils and 2 sub-Tahsils. The district comprised of 1,696 revenue villages. Of these, 572 were uninhabited, 1,123 inhabited villages. One village was merged in Chamba Town. 5 villages were transferred from Chamba Tahsil to Chaurah Tahsil during 1961 Census vide Notification No. R-22-822/57, dated the 29th November, 1957.

As compared to 1961 Census, the jurisdiction of the district had undergone change on the reorganization of Punjab on the linguistic pattern on the 1st November, 1966, as a result 14.3 sq. kms. of area comprising of Dalhousie, M.C. Dalhousie Cantonment Board and Bakloh Cantonment Board became part of the district. The district constituted of four Tahsils and one sub-Tahsil and has in all 1,696 villages (including 570 uninhabited villages), two towns and one urban agglomeration comprising of two towns viz Dalhousie M.C. and Dalhousie C.B.

In 1974-75, 118 villages of Pangi Tahsil were transferred to Lahul Tahsil and subsequently included in the newly formed Udaipur sub-Tahsil of Lahul & Spiti district. Two sub-Tahsils viz. Saluni and Sihunta were created during the decade of 1971-81 vide notification No. GAD (G1)-6(F)-12/77-GAC-1 dated 24th January, 1980 and No. 3-20/73-GAC, dated 29th April, 1980. 258 villages transferred from Chaurah Tahsil to newly formed Saluni sub-Tahsil and 93 villages transferred from Bhattiyat Tahsil to newly formed Sihunta sub-Tahsil. Chuari Khas was declared as a Notified Area Committee during 1981 Census by the State Govt.

No interdistrict jurisdictional changes took place during the decade 1981-91. However, there have been some internal changes in the district after 1981. Two new sub-Tahsils namely Holi and Bhalai were created vide Notification No. 3-20/73-GAC (Part II) dated 27.5.84 and GAB-1A (1)2/87 dated 16.1.90. 140 villages transferred from Brahmaur Tahsil to newly formed Holi sub-Tahsil and 80 villages transferred from Saluni Tahsil to newly formed Bhalai sub-Tahsil. Total number of patwar circles has increased from 146 to 183. In view of the effective development in the tribal areas, single line administration was introduced. In April, 1986 Pangi was put under the charge of an officer of rank of Resident Commissioner and in April, 1988 Brahmaur was put under the charge of Deputy Commissioner, Chamba.

In Census 2001 the total number of villages was 1591 and 5 towns in the district. No jurisdictional changes were found during Census 2011 thus Chamba district is having the same number of villages and towns as was in Census 2001.

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) Physical Features:

Physiographically, the entire district is mountainous with an altitude ranging from 559 metres to 6,162 metres above the mean sea level. The habitation is found only upto 3,000 metres. The district is a part of the Northern Himachal Pradesh Himalaya. It lies between $32^{\circ}10'$ and $33^{\circ}13'$ north latitudes and $75^{\circ}48'$ and $76^{\circ}53'$ east longitudes. The district is bounded on the north and west by Jammu & Kashmir state, on the south-west by Punjab state, on the south and south-east by Kangra district whereas Lahul & Spiti district encloses it from east. According to Surveyor General of India, the total area of the district is 6,522 Sq. Kms. and ranks 2nd in terms of area occupying 11.7 per cent area of the state.

Valleys: There are three big valleys i.e. (i) Beas valley (ii) Ravi valley or Chamba valley and (iii) Chenab or Pangi-Chamba-Lahul valleys. The valleys on the south-west of district are fertile. The Ravi or Chamba valley, as a whole is tolerably open and presents many delightful contrasts. In the lower areas of the valley, vegetation is semi-tropical and at the higher elevation the trees belonging to *pinus longifolia*, oak and chestnut are found and above, there are birch and juniper. In this valley the villages are diminutive. In the villages upto an altitude of 2,100 metres two crops are sown while in the villages above 2,100 metres only one crop is grown.

The region between Pangi and Zaskar ranges comprise the valley of Chenab (Chandra-Bhaga) as it is called in the higher hills but Chenab or Chandra-Bhaga river flows at higher level than the Ravi. This valley is divided into two parts, Gurdhar and Pangi. The scenery is sublime and imposing and nature appears in her wildest and grandest moods. The area is sparsely populated. Winter in Pangi is very severe and snowfall usually begins as early as October and entire valley remains under deep snow till March or April. Communications with the outside world are completely cut off. During these months, the people are mostly confined to their houses.

The tract between the Hathidhar and Dhauladhar falls in the Beas valley and with the addition at small portion of the lower Ravi valley forms the Bhattiyat, Dalhousie Tahsils and Sihunta sub-Tahsil. It is most populous and fertile valley of the district. Its vegetation are semi-tropical and the bamboo, pipal and the mango flourish luxuriantly in the course of proximity of the fir, the barberry and the oak. Generally, two crops are sown in a year.

Hills: There are three well defined snowy ranges of the Himalayas in Chamba district. The one, facing to the plains is called outer Himalaya or Dhauladhar. It separates the basin of the Beas from the Ravi. It begins on the right bank of the Beas and running north to west forming the boundary between Kullu and Mandi. Dhauladhar forms a lofty mountain barrier with peaks from 4,300 metres to 5,200 metres. The passes are from 2,400 metres to 4,600 metres. The lower slopes are covered with forests of oak and pine. The sites are seamed with winter coarces. The lofty peaks rise in stern and rugged grandeur covered by wastes of snow. The inner Himalaya or Zanskar range separates Chamba from Zanskar and further west forms the northern boundary of the Kashmir valley. The mean altitude of this range is about 5,500 metres and some of the peaks rise to about 6,100 metres. The passes are 5,200 metres to 5,500 metres high and are more difficult owing to the size of the permanent glaciers.

There is a low range hill called the Hathidhar which runs parallel to the south of Dhauladhar. The highest point of this range is 1,615 metres above the mean sea level. The Dhar is steeper on its southern side and on its northern it is covered with dense undergrowth forests of Chil and dwarf oaks.

Micro sub-regions of the district: As the entire district is mountainous having an altitude ranging from 559 metres to 6,162 metres above the mean sea level, the habitation is found only upto 3,000 metres. Ravi and Chandra-Bhaga or Chenab are the main rivers which form their own valleys in the district. The

valleys on the south-west of the district are more fertile and the distribution of population is mainly confined to these valleys. The climate is found varying from semi-tropical to semi-arctic. In lower areas, climatic conditions are similar to those of Kangra district and Siwalik areas while in higher altitude the climate is of temperate type.

The geological structure is mostly formed by Jutogh group/Vaikrita group and Central gneiss types besides other groups like Granites (unclassified), Blaini/Infra-Krol formations, Shimla group, Panjal traps and Siwalik formations. It has also shale types of rocks, slate, sand stone, lime stone, conglomerates and quartzites. The types of soils found in this region as classified by the N.B.S.S. & L.U.P. (I.C.A.R.) Nagpur, are Udalfs (20), Ochrepts (70), Ochrepts-Orthents (72), Ochrepts-Orthents-Ustalfs (74) and Udolls (89). Forests have great importance in the economy of the Himachal Pradesh as a whole and Chamba district in particular. In lower areas of the valleys, vegetation is of semi-tropical type and at the higher elevation, the Deodars, Pine/Blue Pine, mixed coniferous and Oak forests are found and above these elevation Moist Alpine scrub or meadows are seen.

On the basis of physiography, climate, soils, vegetation and geology, this district is divided into 5 sub-micro regions, the details of which are given below:-

Greater Himalaya: This region spreads over the extreme north-eastern part of the district and occupies eastern half of Pangti Tahsil. It is surrounded by Jammu & Kashmir from north, by Lahul & Spiti district from east and south, by Chandra valley region from west.

Physiographically, the region is very rugged and mountainous and its major parts remain under snow cover for about 5 to 6 months in the year. The Zaskar range separates the region from Jammu & Kashmir. The region has an altitude varying between 3,844 metres and 6,162 metres above the mean sea level. Ram Dhari, Jariun and Kali Barf (Rebarf) are the prominent glaciers in the region. Summer is cool and winter is severe. Several tributaries like Saichu, Lugal, Mahal and Garotu Nala of Chandra Bhaga or Chenab river originate from this region. A few patches of mixed forests like pine/blue pine are found along the Saichu Nala.

The geological structure of the region is mostly formed by Granites (unclassified) and Jutogh group/Vaikrita group/Central gneiss types. This region has Udalfs (20) and Udolls (89) types of soils cover.

Chandra Valley: The region covers the valley area of Pangti Tahsil lying on both sides of Chandra-Bhaga or Chenab river. It lies between the Greater Himalaya and the Pir Panjal. Jammu and Kashmir encloses it from north-east and Lahul & Spiti district from south direction. It is a close valley formed by Chandra-Bhaga or Chenab river which enters the region from south near Dhar Lunei village and flows towards north. Saichu Nala, Lugal Nala, Mahal Nala and Garotu and Dheda Nala are the tributaries of the Chandra-Bhaga river.

The region has an altitude varying between 3,568 metres and 4,209 metres above the mean sea level and rises steeply from the river banks towards Greater Himalaya and Pir Panjal range. Chandra-Bhaga is a main river of the region. In the region, summers are cool and winters are severe. Due to snowfall from October to March, this valley remains cut off from the outer world and people of this region are mainly confined to their houses during this period. Chandra valley has a thick cover of Pine/Blue Pine and Deodar forests. Geological structure of the region is formed of Jutogh group/Vaikrita group/Central gneiss. Udalfs (20) types of soils are found in the region.

Pir Panjal: This region is situated extending longitudinally from north-west to south-east direction covering the major parts of Chaurah and Brahmaur Tahsils and also small areas of Pangti, Chamba Tahsils

and Holi sub-Tahsil. It makes its boundaries with Jammu & Kashmir in the north and north-west, with the Ravi Basin in the south, with Kangra district in the south-east and the Chandra valley and Lahul & Spiti district in the north-east.

Physiographically, the region has many hill ranges/Dhars and prominent among them are Pangni Dhar, Drabla Dhar, Deorah Dhar, Dodana Dhar, Sanini Dhar, Manimahesh Dhar etc. The region has an altitude varying between 2,698 metres and 5,857 metres above the mean sea level. The maximum height of 5,857 metres is at Bar Kanda in the northern Brahmaur Tahsil. Sach pass (4,313 metres high), the only way to Pangni Tahsil from west, is also located in this region. The higher areas of the region remain covered with snow during most part of the year and are barren. Nikora and Tal glaciers are located in the south-western part of the region. Some tributaries of Ravi river, namely, Tunah Nala and Budhil Nala also originate from this region. The Himalayan Sub-Alpine type of forests mainly of Fir and Birch grow in the region. However, the higher slopes are covered with grass meadows.

The region has the geological structure of Jutogh group/Vaikrita group/Central gneiss and Granites (unclassified). Udalfs (20) soils are found in the northern and eastern parts of the region while southern part has Ochrepts-Orthents (72) type of soils.

Ravi Basin: The Ravi Basin is the biggest sub-micro region in the district. It lies between Pir Panjal range in the north and the Dhauladhar range in the south thereby covering the whole part of Saluni and Bhalai sub-districts, major parts of Chamba, Brahmaur and Holi sub-districts, western part of Chaurah and north-western part of Bhattiyat sub-district. It is surrounded by Jammu & Kashmir from west, by Punjab from south-west and Kangra district encloses it from the east.

This basin is formed by Ravi river. It rises in Bara Bangahal area of Kangra district and flows through Holi, Brahmaur, and Chamba and goes upto Udhans. Along with the other tributaries, namely, Tundah, Siul, Saho and Budhil, it drains whole of the water between the Pir Panjal range and the Dhauladhar range. The valley is most fertile and Ravi river is a lifeline of the region. The region has an altitude varying between 559 metres and 5,556 metres above the mean sea level and the slope rises towards Pir Panjal and Dhauladhar. Vegetation growth is mainly found in the Ravi Basin which is Semi-tropical to Himalayan temperate and Sub-Alpine types with a thick cover of reserved forests. The important species found in this region are Longifolia, Oak, Chestnut, Deodar, kail, Juniper and Birch.

Geologically, major portion of the basin is composed of Jutogh group/Vaikrita group/Central gneiss formations while Blaini/Infra-Krol formations are found in the bed of Ravi river. In the area adjoining Punjab border, the geological structure is also composed of Siwalik, Murree Series, Shimla group and Panjal Traps. Ochrepts-Orthents (72) type of soils cover the major portion of the region while Ochrepts-Orthents-Udalfs (74) types of soils are found in the south-western part of the region.

Dhauladhar: This region is situated in the southern part of district covering whole of Sihunta sub-Tahsil, major portion of Bhattiyat Tahsil (except north-west portion), southern part of Chamba Tahsil and Holi sub-Tahsil and south-western tip of Brahmaur Tahsil. It makes its boundaries with the Ravi Basin in the north-west, north and north-east, Punjab and Kangra district surround it from south-west, south and south-east, respectively.

Physiography of the region reveals that the Dhauladhar in Chamba district forms a mountain barrier with high peaks. Hathidhar is another important lower hill range which runs parallel to Dhauladhar, in its south. A narrow tract formed between Dhauladhar range and Hathidhar is plain and fertile. Talang glacier is also located in south-western part of the region. The region has an altitude varying between 1,188 metres and 4,692 metres above the mean sea level. Bhed khad, Barahl khad, Dramman khad and Khaulik khad are minor khads of this region whereas Chakki khad is an important

khad which rises in the western part of this region and flows towards west. In the lower part of the region, the climatic conditions are similar to Kangra district and Siwalik areas while in the higher portion, it is temperate. During winter, snowfall on the Dhauladhar range is very heavy. This range also receives very high rainfall during monsoon.

The region has formation of Granites (unclassified), Jutogh group/Vaikrita group/Central gneiss, Siwalik, Murree Series, Panjal Traps and Shimla group of geological structure. The region has Ochrepts-Orthents (72) type of soils in the eastern part while Ochrepts-Orthents-Ustalfs (74) types of soils are found in the western part of the region.

Soil: The soil is generally loamy in texture with a little more percentage of clay on the high tops as well as at lower elevations in valleys of Bhattiyat, Dalhousie, Sihunta and Chamba Tahsils. At the higher elevations the soil is well supplied with organic matters. Its extent is low at mid elevation and minimum in the low lying valleys.

River System: There are two main rivers i.e. the Ravi and the Chenab or Chandra-Bhaga in the district.

The Ravi is the main river of the district and drains the whole of Chamba valley between Dhauladhar and Holi ranges. In its upper reaches, the river is called Rauti or Irauti. It rises in the mid-Himalaya and Bara Banghal ranges. This range separates it from the Beas in the upper Kullu. It flows through Bara Bansu, Tretha and Chanota to Ulansa. Budhil and Tundahen are the two main tributaries. After passing Piur, Rakh and Mehla, the river courses to the north-west and approaches Chamba town where the Saho or Sal from the Saho ranges merges with the river. The other largest tributary of the river is Siul which flows west ward and touches Jammu territory at the point where the Seawa, a stream forming the boundary falls into it from north. It then bends to the south-west and skirting the terminal spurs of the Dhauladhar separates Chamba from Jammu and finally leaves the district at Kheri to the plains at Shahpur. During winter the Ravi is generally very low and the water is quite clear. During the summer, the volume of flow increases with the melting of snow in upper reaches. The maximum flow is reached during rainy season. Some fishing activity is also carried out in the river downwards Chamba town.

The Chenab or Chandra-Bhaga as it is called in this part of the country, rises near the top of Bara Larcha Pass in Lahul, by two heads, the Chandra and Bhaga. These two unite at Tandi and form the Chenab, the river of great size and volume and flows immediately to the north-west at mid-Himalaya. At Shaor it enters Chamba and forms the boundary between Chamba and Lahul and follows a westerly course to Tindi after which it turns to the north. At Shaor and Purthi and Kilar, villages are located on the right bank. The valley again becomes narrow as far as Mindhal and Sach. From this point, it is more open. The river flows on a north-westerly direction through picturesque scenery, past Kilar and Dharwas to Ganaur or Sansari nala where, it leaves the territory. Then, it continues its course through Padar, Kishtwar and outer hills in Jammu territory to the plains. Gold in small quantity is found in Chandra-Bhaga and gold washing was carried out at some places on a small scale. The main tributaries of the river are Miyar nala, meeting the Chandra-Bhaga at Udaipur and Saichu Nala joining the river at Sach. On the left bank, the river receives small ice-streams from snowy passes in the Pangli range. These are the Chobia and Kalicho streams at Triloknath, Harser, Drati and Martu streams near Tindi and Cheni and Sach streams near Mindhal.

There are two well known lakes in the district at Manimahesh in Brahmaur sub-district and at Khajiar in Chamba sub-district. Manimahesh is considered sacred and a fair is held there on the occasion of Radha-Asthmi falling in the month of September and the pilgrims from far and near gather there to have a holy dip in the icy-cold water of the lake. It is situated at an altitude of 4,170 metres.

Khajiar is surrounded by a picturesque spot with an emeraled saucer shaped meadow amidst a dence forest which even has a lake with a floating island at its center. This place has soothing and refreshing quietness in its atmosphere. It has a also small temple with a golden spire by the way side and a golf course which adds a perfect holiday setting in the mountain.

Climate: As the district is wholly mountainous, with altitudes ranging from 1,834' to 20,218' above mean sea level, a variety of climate is found from the semi-tropical to the semi-arctic. In the lower part of Bhattiyat Tahsil and Sihunta sub-Tahsil, the climatic conditions are similar to those of Kangra and the Shivalik area. The temperature begins to increase rapidly after the middle of April and this rise continues till the break of rains in July.

In the Ravi valley the climatic conditions vary with altitude. In the lower portion of the valley from the capital downwards the climatic conditions are semi-tropical. The heat is there and the rainy season is well marked, while winter is mild with light snowfall.

In the Chandra-Bhaga valley the climate is temperate in summer and semi-arctic in winter. Summer is exceedingly mild and pleasant. Owing to the scanty rainfall the degree of humidity is always low. The winter is very severe and snowfall starts in October and continues till March and April. The rainy season begins from middle of June and ends by the mid of September with heavy rainfall during this season. Snow may fall as early as the beginning of October. The snowfall on the Dhauladhar and Pangi ranges and Zanskar range is heavy and the severe winters experienced it from the early November to late March.

Climate plays a vital role in the field of life style and economic growth of the state, especially the performance of agriculture, horticulture and tourism sector is closely related to the performance of rain and snowfall during the season.

STATEMENT-A
Average Annual Rainfall for Five Years (In mm)

Sl. No.	Year	Average Rainfall (millimeters)	
		Himachal Pradesh	Chamba
1	2	3	4
1	2007	1,000.5	706.4
2	2008	1,141.0	857.2
3	2009	907.9	1,019.0

Soucre:

(1) Directorate of Land Records

(2) Meteorological Deptt., Govt of India

Statement - A shows the comparative data of average annual rainfall for three years for the district as well as for the Himachal Pradesh. Highest average annual rainfall in the district i.e 1019.0 millimeters was recorded during the year 2009 where as in 2007 it was recorded as 706.4 millimeters. Of the three years 2007 has shown the minimum average rainfall in the district.

STATEMENT-B
Maximum and Minimum Temprature at Nearest Selected Center-2010

(in celsius)			
Month	Maximum	Chamba	Minimum
		Temprature	
1	2	3	
January	15.5		1.1

October	23.9	11.0
November	19.2	7.2
December	11.6	3.5

Source:- Meteorological Deptt., Govt. of India.

Statement - B shows month wise maximum and minimum temperature recorded in Celsius degree during the year 2010. The selected center is Saluni which is situated in the district itself. Wind characteristics depend upon season, as it is hot during the months of May and June and coldest in the months of January, February and December. During the monsoon season the land become fresh and green and small water channels in the hills begin to swell.

Agriculture: Agriculture is the main Occupation of the people of Himachal Pradesh. It has an important place in the economy of the state. It provides direct employment of 70 per cent of the total workers of the state. It also a premier source of state income (GSDP). About 17 per cent of GSDP comes from agriculture and its allied sectors.

STATEMENT - C
Number of Operational Holdings and Area Operated by size class of Holdings during Agriculture Census 2005-06

Year	Marginal (Less Than 1.00 hect.)		Small (1.00 to 2.0 hect.)		Semi - Medium (2.00 to 4.00 hect.)		Medium (4.00 to 10.00 hect.)		Large (10.00 hect. and above)		Total (All Sizes)

Statement - C showing comparative information for number of operational holdings and area operated by size of holdings during agricultural census of 2000-01 and 2005-06. In comparison to 2000-01 agricultural census the statement shows increasing trend during 2005-06. During 2000-01 and 2005-06 agriculture census the total number of holdings were 68,125 and 70,012, respectively. Out of the total holdings majority of the operational holdings were occupied by the marginal farmers having less than 1 hectare of land. In the agricultural census of 2000-01 and 2005-06 marginal farmers were having 49,345 and 51,584 holdings.

STATEMENT - D
Land Utilization

(In '000 Hect.)

Source: Directorate of Land Records, H.P.

Statement-E shows area under different crops in hect. and Statement - F reveals production thereof in metric tonnes. Since the economy of the district basically depends on agriculture hence majority of the workers are engaged in agricultural activities. Despite the hilly topography of the district the agro climatic conditions provide a range of potentialities for growing cash crops like off seasonal vegetables, potatoes, pulses and temperate fruits apart from cereals, millets and oil seeds. Among the cereals wheat, maize, rice and barley are extensively grown. The comparative data of area under different crops and production thereof for the years of 2006-07, 2007-08 and 2008-09 is given above.

STATEMENT - G
Fertilizer Consumption for 2008-09

State/ District	Nitrogenous (N)	Phosphatic (P)	Potassic (K)	Total (N+P+K)
1	2	3	4	5
Himachal Pradesh	35,462	10,703	11,198	57,363
Chamba	1,263	109	83	1,455

Source: Directorate of Agriculture, H. P.

Fertilizer is a vital input to such an extent that constitute a major factor in the increase of agricultural as well horticultural production. The comparative statement for the state and the district for fertilizer consumption in metric tonnes for the year 2008-09 is given above as statement - G which shows the total consumption of 1,455 metric tonnes (M.T.) in district in comparison to 57,363 M.T. for the state.

As stated above the economy of Himachal Pradesh largely depend on agriculture hence government has provided many safegaurds to the farmers of the state. One of the schemes launched by the government is crop insurance scheme. From the Ravi season of 1999-2000 'Rashtriya Krishi Bima Yojna' was launched in the state. At the initial stage only maize, paddy, barley and potato crops were covered under the scheme. But upto the year of 2010-11 other crops like ginger and tomato will also be included under the scheme. From the Ravi season of 2007-08 subsidy from 10 per cent was increased to 50 per cent to all the small and marginal farmers. The project of subsidy is being run by the 'Bharat Krishi Bima Company'. Under the scheme all the loanees and non-loanees farmers shall be covered.

STATEMENT - H
Net Irrigated Area by Source for 2008-09

State / District	Canal	Tanks	Other Wells	Tube Wells	Other	Total
1	2	3	4	5	6	7
Himachal Pradesh	4,046	283	1,877	15,555	86,091	1,07,852
Chamba	-	-	-	-	3,545	3,545

Source: Directorate of Agriculture, H. P.

To increase the crop production the role and importance of irrigation is well established. Multiple cropping and to accelerate the growth in production depends on irrigation. Instead of lift and tanks irrigation district mainly depends on its traditional source of irrigation i. e. Kuhals. During the year 2008-09 the total net irrigated area was 3,545 hectares. The above statement H shows the comparative area under irrigation for the state as well as for the district.

STATEMENT-I
Area & Production of Vegetables for 2008-09

State/ District	Area (In Hect.)	Potato Production (In tonnes)	Area (In Hect.)	Other Vegetables Production (In tonnes)
1	2	3	4	5
Himachal Pradesh	15,983	1,73,681	58,743	10,90,334

Area Under High Yielding Variety Crops for 2008-09

State / District	Wheat	Paddy	Maize
1	2	3	4
Himachal Pradesh	325.22	74.61	280.51
Chamba	15.18	1.90	26.32

Source: Directorate of Agriculture H. P.

Though the holdings are small and cultivation is done by traditional method of farming leading to low production as compare to plains but agro climatic conditions provide a range of potentialities for growing cash as well as commercial crops. Vegetables are mainly grown as cash crops in the district. The forgoing comparative statement I shows area and production and statement J shows the area under high yielding variety crops in the district and state for the year 2008-09.

Source: Directorate of Horticulture, H. P.

Horticulture has become a fast growing occupation in the district. Agro climate condition prevailing in the district offers a great scope for the production of temperate and sub-tropical fruits specially apple, plum,

peach, apricot, pear, almond, walnut and even mango, litchi, guava and other citrus fruits. Though apple is so far the most important fruit crop of the state but in the recent year mango has also emerged as an important fruit crop. Litchi is also gaining importance in certain regions. Besides apple crop mango and litchi are also fetching better market prices. The above statements K and L reveal the area under different fruits and production of fruits thereof for the years of 2007-08 and 2008-09, respectively.

Co-operative Societies:

STATEMENT - M
Primary Agricultural Credit Co-operative Societies

Source: Registrar Co-operative Societies, H.P

Co-operative societies have an important role in socio-economic growth of people of the district. During 2007-08 and 2008-09 number of primary agricultural credit co-operative societies and non-agricultural credit co-operative societies is given in statement-M and N, respectively.

Forest: The forest plays a vital role in shaping the climatic conditions of an area. Besides this it also influence the socio-economic life of the people. The forest provides valuable timber, various kinds of medicinal herbs, raw material to industries. Forests not only provide employment but also play a vital role in conserving the soil and control the climate calendar of the region.

STATEMENT-O
Classification of Forest Area By Legal Status

Year	Reserved Forest	Demarcated Protected Forest	Undemarcated Forest	Unclassified Forest	Other Forest	(In sq. Kms.) Total
1	2	3	4	5	6	7
2007-08	373	3,960	685	-	12	5,030
2008-09	373	3,960	685	-	12	5,030

Source: Forest Department, H.P

Forest in Himachal Pradesh cover an area of 37,033 square kilometers and form about 66.5 per cent of the total geographical area of the state. The district has an area of 5,030 square kilometers under its forest. Statement- O above shows classification of forest area by its legal status.

Fishery: Himachal Pradesh is one of the state of country which has been gifted by Nature with beautiful rivers emanating from glaciers which traverse through hilly terrains. The Ravi is one of the main rivers of the district which receives many streams during its downward journey and harbour the precious gold water i.e. fish fauna.

STATEMENT - P
Fish Production (Prawn Cultivation) in 2008-09

State / District	Catch of fish by non-prof. fisherman	Marginal Fish	Inland Fish	Total	(in M.T.) Value of fish Produced (Rs. In Lacs)
1	2	3	4		5
Himachal Pradesh	-	-	7,798.00	7,798.00	3,988.50
Chamba	-	-	296.04	296.04	148.50

Source: Fisheries Department, H. P.

Statement-P above shows the comparative data for the state as well as district for the year 2008-09 for fish production (Prawn Cultivation). The total fish production in district was 296.04 metric tonnes whose value was Rs.148.50 lacs.

Livestock and animal husbandry: Rearing of livestock is an integral component of rural economy. It is the main wealth next to agriculture of a large chunk of rural population in the state. Livestock thus is an important integral part to the sustainability of economy not only of the district but of Himachal Pradesh also. Dairy production is an integral part of the animal husbandry and forms a part of the earning of small farm holders in the district. The recent trend towards the development of a market oriented economy emphasized the importance of milk production, especially in areas falling in the vicinity of urban consumption centres. This has motivated farmers to replace local non-descript breeds of cows with the cross-breeds cows. Upgradation of indigenous cattle is being carried out by cross breeding with Jersey and Holsten. In buffalo upgradation with Murrah bull is being popularized. Artificial insemination with the latest technology of Deep Frozen Semen is being practiced.

STATEMENT-Q
No. of Livestocks and Poultry in -2007

State/District	Cross Breed		Cattle		Total Cattle	Buffaloes			Sheep	Goats

Source: Directorate of Land Records, H.P.

Statement-Q above depicts the number of livestock and Poultry during animal census of 2007 for the state and as well as for the district.

Industry: Though Himachal Pradesh is a hilly state even then it has made significant achievements in the field of industrialization during the past few years. With the ushering of liberalised economy and consequent delicensing and further notification of especial package of incentives for Himachal Pradesh, the flow of investment in the state has increased manifold resulting in good response for setting up new industrial ventures in the state. Upgrowing industrial environment also provide employment to lacs of people in the state.

STATEMENT-R
Number of Registered Factories and Workers

State / District	Year					
	2007		2008		2009	
	No. of Factories	No. of Worker	No. of Factories	No. of Worker	No. of Factories	No. of Worker
1	2	3	4	5	6	7
Himachal Pradesh	3,060	1,68,544	3,357	1,94,019	3,657	2,18,309
Chamba	72	1,409	73	1,459	73	1,459

Source: Chief Inspector of Industries, H.P.

Statement - R above provides comparative data for number of registered factories and workers for the state and as well as for the district for the years of 2007, 2008 and 2009.

Tourism: Tourism in Himachal Pradesh has been recognized as one of the most important sectors of the economy as it is being realized as a major engine for growth for future. Himachal Pradesh as a whole is endowed with all the basic resources necessary for thriving tourism activity like geographical and cultural diversity, clean, peaceful and beautiful streams, sacred shrines, historic monuments, lush green forests and above all friendly and hospitable people. Tourism industry in Himachal Pradesh has been given very high priority and has developed appropriate infrastructure for its development which include provision of public utility services, road, communication network, airports, transport facilities, water supply and civic amenities etc. The district has also created its impact in tourism sector and attracted number of tourists to its fold.

STATEMENT-S
Number of Registered Hotels/ Guest Houses and Tourist Visited

Year	No. of Hotels/ Guest Houses	Bed Capacity	Tourist Arrival (In Lakh)		
			Domestic	Foreigner	Total
1	2	3	4	5	6
2008	150	3,059	6.44	0.04	6.48
2009	150	3,011	6.86	0.03	6.89

Source: Directorate of Tourism, H.P.

A comparative statement- S shows number of registered hotels/ guest houses and tourists visited during 2008 and 2009.

Transport and Communication: Road transport is the main stay of economic activity in Himachal Pradesh as other means of transport mainly Railways and Airways are negligible. The district fully depends upon road transport. Though private buses also ply in the state but the passenger transport services to the people of Himachal Pradesh within and outside the state are being mainly provided by Himachal Road Transport Corporation.

STATEMENT- T
Number of Motor Vehicles Registered During 2009

State/ District	Buses	Trucks	Motor Cycle / Scooter	Private Cars	Jeeps	Tractors	Tankers/Water Carrier etc.	Departmental Cars	Other	Total
1	2	3	4	5	6	7	8	9	10	11
Himachal Pradesh	886	2,777	33,525	16,489	793	1,060	5	6	3,311	58,852
Chamba	25	208	1,389	789	12	29	1	3	50	2,506

Source: Registration & Licensing Authorities of H. P.

Statement- T above shows the number of motor vehicles registered during 2009 in the state as well as for district.

Trade, Commerce and Banking: The district has number of important and traditional trading centres. Main trading centres in the district are Chamba, Dalhousie, Chuari Khas, Sihunta, Bakloh, Kakira, Holi,

Brahmaur, Surgani, Saluni, Tisa, and Kilar of Pangi. The trade and commerce in the district is by and large confined to the local requirements only. The district import mill made cloth, footwears, utensils, kerosene, LPG, edible oil, sugar, tobacco products, hosiery, electric appliances and articles and building material etc. Almost all the commodities are being imported from the plains of the adjoining state of Punjab namely Pathankot and Amritsar. The main articles of export are fruits mainly apple, walnut and locally made woolen products like blanket, shawls, pattus and shocks etc. Chamba chappal, Chamba rumal and Chamba chukh are the famous gift items of Chamba district.

Banks in the state are playing predominant role to accelerate economic growth in the state economy and sharing the responsibility to enhance the flow of institutional credit in all sectors in accordance with the national priority. Not only national banks but state co-operative banks are also serving the people of the state as well as of the district.

STATEMENT -U
Deposit and Advances, Population Per Bank in - 2009

State / District	No. of Banks	Deposites	Credits	Credit Deposit Ratio	Average Population Per Bank
1	2	3	4	5	6
Himachal Pradesh	980	25,086	10,213	40.71	6,202
Chamba	57	952	320	33.61	8,086

Source: Quarterly statistical Book on Banking-2009

The comparative Statement-U shows deposits and advances and population per bank in 2009 for the state and the district as well.

Electricity and Power: Power is one of the most important input for economic development. The development of agriculture and industries can hardly be accelerated without the availability of power. The use of electricity for domestic purposes has become necessity in modern times. The rural electrification play a significant role in socio-economic development. All the inhabited villages in the district have electricity facility.

In addition to its widely recognized role as a catalyst to economic activity in different sectors of economy, the power sector makes a direct and significant contribution to economy in terms of revenue generation, employment opportunities and enhancing the quality of life.

Himachal Pradesh has been blessed with vast hydro-electric potential in its five rivers basins namely Yamuna, Satluj, Beas, Ravi, Chenab or Chandra-Bhaga. Ravi and a part of Chenab river which flows through the district of Chamba have assessed potential of 2,952 and 2,973 megawatts, respectively. At present the following hydro power projects are functional in the district.

Type of Sector	Name of Project	Basin	Capacity
1	2	3	4
1. State Sector	(a) Sal-II	Ravi	2.00
	(b) Holi	Ravi	3.00
	(c) Bhuri Shingh	Ravi	0.45
	(d) Killar	Chenab	0.30
2. Central/Joint Sector	(a) Chamera-I	Ravi	540.0
	(b) Chamera-II	Ravi	300.0

Gram Panchayat: There was 283 Gram Panchayats in the district by the end of 2009. Each Gram Panchayat consists of one Gram Pradhan, one Up-Pradhan and five members duly elected by voters of that Gram Panchayat. Number of members varies according to the population of Gram Panchayat.

In view of the provisions of the constitutional 73rd amendment Act and Himachal Pradesh Panchayati Raj Act, 1994, the Panchayati Raj institutions have been devolved functions, powers and responsibilities relating to 15 departments of the state government. As such Panchayats are involved in large number of civil works viz; construction of school rooms, paths, irrigation and water supply schemes, culverts etc. and lot of funds is being released to the Panchayats for execution of these works. These developmental works are being executed by the Gram Panchayats with very little technical help from the Junior Engineer of the concerned development block who are not able to supervise each work. In addition, the state Govt. has decided that the Gram Panchayats shall prepare micro plans proposing development interventions that reflect the felt needs in their area by way of improving rural connectivity, planning in connection with education, health and veterinary care facilities, drinking water, sanitation etc. It has also been decided that every Gram Sabha shall hold four general meetings in each year on 1st Sunday of January, April, July and October.

Keeping in view manifold increase in the functions of Gram Panchayats, it has been decided to provide them technical assistance by creating a post of Technical Sahayak for every 2 to 3 Panchayats. The technical assistant will be the employee of the Gram Panchayat who will be paid honorarium from the Sabha funds for which Gram Panchayats have been allowed to charge one per cent contingency for the works executed through them pertaining to any scheme.

The functionaries of the Panchayati Raj Institutions have to discharge various administrative, judicial and financial functions. In order to make them aware about their functions, powers and responsibilities, training has to be imparted to them and as such a proposal for funding the training programme has been sent to Govt. of India. In the meantime the two training institutes of the department have been directed to impart training to newly elected Pradhans of Gram Panchayats.

The funds to the Panchayati Raj Institutions are being provided as per the recommendation of 1st state Financial Commission. With a view to strengthen the financial position of the Panchayati Raj Institutions and to raise resources through taxes and levies, the State Government on 1st November, 1999 have empowered the Gram Panchayats to levy taxes and fees at their own level for which maximum rates of such taxes, fees and duties have been notified by the Government under the provision of Section 100 of the Himachal Pradesh Panchayati Raj Act, 1994.

(ii) Census Concepts:

Building: A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca houses: Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, Stones (duly packed with lime or cement mortar), G.I/metal/ asbestos sheets, Burnt bricks, Cement bricks, Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stone, Slate, G.I/Metal/Asbestos sheets, Concrete. Such houses are treated as Pucca house.

Kutchha houses: Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, Unburnt bricks, bamboos, mud, grass, reeds, thatch, plastic /polythene, loosed packed stone, etc. Such houses are treated as Kutchha house.

Dwelling Room: A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House : A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, these are considered as a separate Census house.

Village: The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un- surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area: The data in the census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. The urban area comprises two types of towns viz. statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows:

(a) Statutory Towns : All places with a municipality, corporation, cantonment board or notified town area committee, etc. are known as statutory towns.

(b) Census towns: All other places satisfying the following three criteria simultaneously are treated as Census Towns.

(i) A minimum population of 5,000;

(ii) At least 75 per cent of male working population engaged in non-agricultural pursuits; and

(iii) A density of population of at least 400 per sq. km. (1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the Census 2001 had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitutes of OGs which are the parts of UAs.

Urban Agglomeration: An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps etc. may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the existing town as their continuous urban spread (i.e., an Out Growth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'urban agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted:

- (i) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and
- (ii) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the Census 2001. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

Out Growth (OG): The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc., educational institutions, post offices, medical facilities, banks etc. and physically contiguous with the core town of the UA.

City: Towns with population of 100,000 and above are called cities.

Household: A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

Institutional Household: A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggar's homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household: Households who do not live in buildings or census houses but live in the open or roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes:

The list of SCs and STs applicable in the State is given hereunder:

List of Scheduled Castes & Scheduled Tribes in Census 2011			
Code	Scheduled Castes	Code	Scheduled Castes
001	Ad Dharmi	036	Lohar
002	Badhi, Nagalu	037	Marija, Marecha
003	Balmiki, Bhanghi, Chuhra, Chura, Chuhre	038	Mazhabi
004	Bandhela	039	Megh
005	Bangali	040	Nat
006	Banjara	041	Od
007	Bansi	042	Pasi
008	Barad	043	Perna
009	Barar, Burar, Berar	044	Phrera, Pherera
010	Batwal	045	Rehar, Rehara
011	Bauria, Bawaria	046	Sanhai
012	Bazigar	047	Sanhal
013	Bhanjra, Bhanjre	048	Sansi, Bhedkut, Manesh
014	Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi, Ravidasi, Ramdasia, Mochi	049	Sansoi
015	Chanal	050	Sapela
016	Chhimbe, Dhobi	051	Sarde, Sarera, Sarare, Siryare, Sarehde
017	Dagi	052	Sikligar
018	Darain	053	Sipi
019	Darai, Daryai	054	Sirkiband
020	Daule, Daole	055	Teli
021	Dhaki, Toori	056	Thathiar, Thathera
022	Dhanak	057	Barwala
023	Dhaogri, Dhuai	490	Generic Castes etc.
024	Dhogri, Dhangri, Saggi		Scheduled Tribes
025	Doom, Doomna, Dumna, Dumne, Mahasha	501	Bhot, Bodh
026	Gagra	502	Gaddi
027	Gandhila, Gandil Gondola	503	Gujjar
028	Hali	504	Jad, Lamba, Khampa
029	Hesi	505	Kanaura, Kinnara
030	Jogi	506	Lahaula
031	Julaha, Julahe, Kabirpanthi, Keer	507	Pangwala
032	Kamoh, Dagoli	508	Swangla
033	Karoack	509	Beta, Beda
034	Khatik	510	Domba, Gara, Zoba
035	Kori, Koli	990	Generic Tribes etc.

Language and Mother tongue: As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate: A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate: Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level: The highest level of education a person has completed.

Work: Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker: A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker: A person who worked for 3 months or less but less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker: A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator: For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like- tea, coffee, rubber, coconut and betel nuts (areca). The workers engaged in Plantation crops are recorded under "other workers".

Agricultural labourer: A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker: Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker: A person, who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking,

mining, construction, political or social work, priest Ts, entertainment artist Ts, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work participation rate: Percentage of Workers (Main + Marginal) to total population.

Population density: Population density is the number of persons inhabited per square kilometer of the area.

Age: Age is measured in terms of the completed number of years.

Sex Ratio: Number of females per 1,000 males in a population.

(iii) Non-Census Concepts:

Definitions of all non-census amenities covered in the village directory and town directory is given hereunder:

Civic status of urban units: Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee / Municipal council, Municipality etc.

Size class of U.A./town: Size-class of U.A./Town is based on the population size of the U.A./City/Town. U.A.s/Towns with 100,000 and above population is classified as Class I U.A.s/ Towns. Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000- 19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area: The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city : The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cutoff point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In Census 2001, cities with 10 million and above population have been treated as Mega cities and the same criterion of population has been adopted in Census 2011.

Concepts used in VD and TD of DCHB:

1. Educational Amenities: The type of different educational facilities available in the village is given in numbers. Government and private educational facilities / institutions are considered for this purpose. If there are composite schools like Middle schools with Primary classes, or Secondary schools with middle classes, these are included in the number of Primary and Middle schools, respectively. For example, if in a village there are two Primary schools and one Middle school with primary classes, the number of Primary schools in the village are given as three and that of Middle school as one even though there may be only three educational institutions. So also in case of Secondary schools. For better understanding, the distinctiveness of different types of schools is depicted hereunder:

- 1.1 Pre-primary (PP):** Now-a-days, the children are sent to schools at a very early stage. Lot of pre-primary schools, private schools in particular, have come up in villages and towns. These may or may not be recognized by the competent authorities. Even many Secondary schools have classes starting from preprimary level. Pre-primary classes include Nursery, K.G., Pre-basic, Play school, etc.
- 1.2 Primary School (P):** Schools providing education from Standard 1 and upward up to and inclusive of Standard V are classified as Primary Schools.
- 1.3 Middle School (M):** Schools providing education from Standard VI and upward up to and inclusive of Standard VIII are classified as Middle Schools. A School with Class 1 to VIII is treated as two units, i.e. one Primary School and one Middle School.
- 1.4 Secondary School (S):** Schools providing education from Standard IX and upwards up to and inclusive of Standard X are classified as Secondary Schools. A composite school with 1 to X standard is treated as three separate units and counted separately under the categories of Primary School, Middle School and Secondary School.
- 1.5 Senior Secondary School (SS):** Schools and colleges that provide education for Standards XI and XII and first and second year of the Pre-University Course fall under this category. There are Senior Secondary Schools with Standard I and upwards up to Standard XII.
- 1.6 Degree College:** (i) **Arts/Science/Commerce:** These are all educational institutions that provide post-PUC level education leading to University degree/diploma in any subject or combination of subjects and also post-graduate levels of education. The college offering courses in Arts, Science or Commerce either separately or in combination are covered under this category.

(ii) **Engineering College (E):** It is a graduate/post-graduate degree college providing Bachelor of Engineering (BE) or Bachelor of Technology (B. Tech.) or post-graduate engineering degrees like M.Tech.

(iii) **Medical Colleges:** These are graduate/post-graduate degree colleges providing MBBS or equivalent degree in alternative medicine like Ayurveda, Unani, Homeopathy etc. or post-graduate medical degrees like M.D or equivalent in the above branches of medicine.
- 1.7 Management College/ Institute (MI):** It offers courses like Diploma in Management, Post-Graduate Diploma in Management, Masters of Business Administration (MBA) and specializations in different disciplines of Management like Marketing, Human Resources Development (HRD) etc.

- 1.8 Polytechnic (Pt.):** An Institution providing certificate/diploma (not equivalent to degree) in any technical subject like engineering, vocational courses like embroidery, fashion designing etc. It may be both Government and Private.
- 1.9 Vocational School/ITI:** It is a vocational training institute imparting trainings in specific fields acquiring necessary skill, which will make the trainees employable or create them opportunities of self-employment. Trainings offered by Industrial Training Institutes (ITI) fall under this category.
- 1.10 Non-formal Education/Training Centre (NFTC):** Non-vocational education centers, established by the Central and State Governments provide educational facilities to the interested persons irrespective of educational qualification, and age. These education centers are open to all.
- 1.11 Special School for Disabled:** There are Government and Government recognized institutions/organizations engaged for providing education to different groups of disabled persons.

2. Medical Facilities:

- 2.1 Hospital-Allopathic and Hospital-Alternative medicine:** A hospital is an Institution, where sick or injured are given medical or surgical care. Bed strength differs from hospital to hospital ranging from 31 to 500 depending upon whether these are sub-district, sub-divisional or district hospitals. If there are hospitals providing facilities under different systems of medicines such as, Allopathy, Ayurveda, Unani and Homeopathy etc., these details are given separately.

(a) Allopathy: The system of medical practice, which treats disease by the use of remedies which produce effects different from those produced by the disease under treatment.

(b) Ayurveda: Ayurveda means ‘Science of life’. The philosophy of Ayurveda is based on the theory of Pancha Mahabhootas (Five elements) of which all the objects and living bodies are composed of. The combination of these five elements is represented in the form of Tridosha: Vata, Pitta and Kapha. These three ‘doshas’ are physiological entities of living beings. Ayurveda developed into eight distinct specialities, i.e., Internal Medicine, Pediatrics, Psychiatry, Eye and ENT, Surgery, Toxicology, Geriatrics and Science of virility. Two types of treatments, Preventive and Curative, are given in Ayurveda.

(c) Unani: Treatment of Unani consists of three components, namely, preventive, promotive and curative. Unani system of medicine has been found to be efficacious in conditions like Rheumatic Arthritis, Jaundice, Filariasis, Eczema, Sinusitis and Bronchial Asthma. For the prevention of the disease and promotion of health, the Unani System emphasizes six essentials: pure air, food and water, physical movement and rest, psychic movement and rest, sleep and wakefulness and retention of useful materials and evacuation of waste materials from the body.

(d) Homoeopathy: Treatment in Homoeopathy, which is holistic in nature, focuses on an individual’s response to a specific environment. Homoeopathic medicines are prepared mainly from natural substances such as plant products, minerals and animal sources. Homoeopathic medicines do not have any toxic, poisonous or side effects. Homoeopathic treatment is economical as well and has a very broad public acceptance.

- 2.2 Community Health Centre (CHC):** Community Health Centres are designed to provide referral health care for cases from PHC and those in need of specialist health care approaching the CHC directly. 4 PHCs are included under each CHC thus catering approximately 80,000 populations in

tribal/hilly areas and 1, 20,000 populations for plain areas. CHC is a 30 bedded hospital providing specialist care in Medicine, Obstetrics and Gynaecology, Surgery and Paediatrics.

- 2.3 Primary Health Centre (PHC):** A Primary Health Centre is the first contact point between a village community and the Government medical officer. A PHC covers a population of 20,000 in hilly, tribal or difficult areas and 30,000 populations in plain areas with 4-6 indoor/observation beds. It acts as a referral unit for 6 sub-centres. It has a medical officer and para medical staff.
- 2.4 Primary Health Sub- Centre (PHS):** A Primary Health Sub-centre is the first contact point between the primary health care system and the community. As per the population norms, one PHS is established for every 5,000 population in plain areas and 3,000 population in hilly/tribal/desert areas. Each PHS has a sanctioned strength of one male and one female health worker.
- 2.5 Maternity and Child Welfare Centre (MCW):** It provides pre-natal and post-natal services for both mother and child. The services include regular check-up of pregnant women, giving folic tablets, counseling, delivery, immunization of children with check-up etc.
- 2.6 TB Clinic (TBC):** The diagnosis and treatment of TB are functions of the general health services and hence it is a part and parcel of Primary Health Care. Specialized units such as the District Tuberculosis Centre (DTC) act as referral centres. TB clinics are established by the Government of India under the National Tuberculosis Control Programme and implemented through a network of DTC. The DTC is the nodal point for TB control activities in the district and it also functions as a specialized referral centre. The functions of sub-district level Tuberculosis Unit (TU) are implementation, monitoring and supervision of TB control activities in its designated geographical areas.
- 2.7 Health Centre:** Clinic where medicine and medical supplies are dispensed. It has no in-patient facility. A clinic (or an outpatient clinic) is a small private or public health facility that is devoted to the care of outpatients, often in a community, in contrast to larger hospitals, which also treat inpatients.
- 2.8 Dispensary:** Place where patients are treated and medicines provided but with no in-patient facility. Immunizations, MCH Services and sometimes pathological tests are carried out here. It may be of allopathic or any alternative medicine.
- 2.9 Veterinary Hospital:** Mostly run by the State Government or local body for treatment and preventive measures against diseases of domestic animals like cows, buffaloes etc in rural areas.
- 2.10 Mobile Health Clinic:** These are Mobile vans well equipped with a range of health services to villages located far away from the CHCs, PHCs or any public health sources. The vans visit villages on designated days to deliver the health care services. The services generally offered are OPD, ante-natal and post-natal, B.P. examination, X-ray, ECG, Immunization, First Aid etc.
- 2.11 Family Welfare Centre:** Check-up and counseling is provided to the pregnant and married women regarding small family norm and devices for having a small family. Temporary and permanent contraceptive devices are provided here.
- 2.12 Nursing Home:** A nursing home is a long –term care facility licensed by the state that offers 24-hour room and board and health care services including basic and skilled nursing care, rehabilitation and a full range of other therapies, treatments and programs to old and sick people.

The difference between a hospital and a nursing home is that a nursing home gives importance to convalescence from a disease while a hospital gives medical treatment for the disease.

2.13 Medicine Shop: A shop which sells drugs and medicines of any system of medicine viz. allopathic, homeopathic, ayurvedic or unani medicines, is considered as a medicine shop. Sometimes some shops and Paan shops also keep ordinary medicines, like Crocin, Burnol etc. These shops are not taken as medicine shops.

3. Drinking water: The following are the main source of drinking water facility (ies) available in the village.

3.1 Tap Water-treated: This source of drinking water refers to a source of drinking water which is provided to the villagers through pipes within their premises or to the villagers through common taps (public taps/community water points) by the Government departments, local bodies, panchayats, public or private estate agencies, etc. after treatment. Such a source is treated as 'Tap water from treated source'.

3.2 Tap Water-un-treated: If the villagers are drawing drinking water through pipes either directly from a well or bore well or after pumping the well or tube well water, or the water is supplied through pipes to the households of the village or through public taps without treatment. Such a source is treated as 'Tap water from un-treated source'.

3.3 Covered Well (CW): A well that is (1) covered on sides from run-off water (i.e., excess water from rain, snowmelt or other sources flows over the land) through a wall lining or casting that is raised above ground level on a platform that diverts spilled water away from the well and (2) covered so that bird droppings and animals cannot fall down the hole. It is considered as covered well.

3.4 Un-covered Well (UW): A well which is (1) un-covered on sides from runoff water, (2) un-covered from bird droppings and animals; or (3) both.

3.5 Hand Pump (HP): Hand pump means where ground water is taken out manually by operating a hand pump.

3.6 Tube well/Borehole (TW): Tube well denotes the ground water source from where ground water is taken out through electrical or diesel pump. Spring, River/Canal, Tank/Pond/Lark are self explanatory.

4. Community Toilet Complex: Community Toilet may be constructed and maintained by Gram Panchayats or Private NGOs like Sulabh Sauchalaya or likes.

5. Rural Sanitary Mart or Sanitary Hardware Outlet (RSM): It is an outlet dealing with the materials, hardware and designs required for the construction of not only sanitary latrines but other sanitary facilities such as compost pit, washing platform and other sanitation and hygiene accessories required for individuals, households and the environment in the rural areas.

6. Community bio-gas or recycle of waste for productive use: Many of the solid wastes having economic values but put for disposal can be recycled for reuse. For example, food, cow dung, leaves, vegetable, paper, wood, plastics, old cloth etc. However, some of the wastes are not recyclable. These are carbon paper, thermo coal etc. When recyclable solid wastes are subjected to decomposition, bio-gas could be produced under favourable conditions. These systems of recycling may be there at the village

level organized by Gram Panchayats with technical support from Governments or non-government organizations.

7. Communication and transport Facilities:

7.1 Post Office (PO): Self-explanatory.

7.2 Sub-Post Office (SPO): Sub-post office includes Extra Departmental Post Offices and those providing franchise postal services and also part time services in lieu of some honorarium. The limited postal services include sale of stamps, receipt of letters and money orders and also distribution of letters.

7.3 Post & Telegraph Office (PTO): Telegraph office is set up by the Government to enable people to send or receive telegrams. If the phonogram facility is available (though the Telegraph office may not be equipped with Morse Code Transmitters), the village is considered to be having telegraph facility.

7.4 Telephones (landlines): If the village is having the Public Call Office (PCO) either run by the Post Office or by individuals or by a private shop, then the village is considered to be having telephone facility.

7.5 Public Call Office (PCO)/Mobile PCO: Self explanatory.

7.6 Mobile Phone Coverage: Mobile phones are now very common particularly in urban areas. Some villages by virtue of being in close proximity to the urban areas also enjoy the benefits of the mobile phone services. Even if a few villagers avail the services of mobile phones, then the village is considered to be having access to mobile phone.

7.7 Internet Cafes/Common Service Centres (CSC): If the village is having the facility of Cyber Cafes or shops owned by private individuals providing the facility of surfing of the internet, then the village is considered to be having access to internet/cyber cafe facility. Government of India formulated the scheme of CSC with the vision of providing all government services in an integrated manner at the door step of the citizen at an affordable cost even in the remotest corners of the country through a combination of it based as well as non-IT based services.

7.8 National Highway (NH): These are main highways running through the length and breadth of the country. Each NH is numbered like NH-1, NH-2 for easy identification.

7.9 State Highway (SH): These are roads of a state linking district headquarters and important cities within a State and connecting them with NHs or Highways of the neighboring States.

7.10 Major District Roads (MDR): These are important roads within a district, serving areas of production and markets and connecting these with each other or with the main Highways.

7.11 Other District Roads (ODR): These are roads serving rural areas of production and providing them with outlet to market centres, taluka headquarters, block development head quarters or other main roads.

7.12 Village Road: The approach to village refers to the state of road etc., leading to the village. This is to see whether the village is approachable both in fair and foul weather, and whether it is inaccessible only for some time in the year.

- 7.13. Black-Topped (Pucca) Road (BTR):** A road provided with a bituminous surfacing.
- 7.14 Gravel (Kuchha) Road (GR):** A road constructed using well compacted crushed rock or gravel material (coarse sand, small stones), which is fairly resilient and does not become slippery when wet.
- 7.15 Water Bound Macadam (WBM):** This is the road layer made of crushed or broken mixture of sand and rock fragments mechanically interlocked by rolling and voids filled with screening and binding material with the assistance of water.
- 7.16 Foot Path (FP):** A trodden path for the use by pedestrians and in some cases bicycles. The Foot Paths are not suitable for vehicular traffic except bicycles in some cases. Most of the interior/forest villages are connected by Foot Paths.
- 8. Banks and Credit Societies:** Banking facility means a place where a person can operate a bank account.
- 8.1 Commercial Bank (CB):** These may be banks wholly owned by the Government of India. or by Indian or Foreign Companies.
- 8.2 Cooperative Banks (Coop. B):** A co-operative bank is a financial entity which belongs to its members, who are at the same time the owners and the customers of their bank. Cooperative banks are often created by persons belonging to the some local or professional community or sharing a common interest. These banks are registered under the Cooperative Societies Act. The cooperative banks are regulated by RBI and are covered by the Banking Regulations Act, 1949.
- 8.3 Agricultural Credit Society (ACS):** Major objectives of the ACS are to supply agricultural credit to meet the requirements of funds for agricultural production, the distribution of essential consumer commodities, the provision of storage and marketing facilities and for light agricultural implements and machinery.
- 8.4 Non-Agricultural Credit Society (NCS):** These societies include consumer cooperative societies and also credit cooperative societies of certain categories of persons like teachers, health workers, etc.
- 9. Miscellaneous Facilities:**
- 9.1 Self-help Group (SHG):** Self-Help Groups are groups of between 10-25 women created by either NGOs or under the SGSY (Swarnjayanti Gram Swarozgar Yojana) for the purposes of meeting local credit needs. They are sometimes called Mahila Mandals in villages.
- 9.2. Public Distribution System (PDS) shop:** The shops through which some essential commodities are sold by the government at subsidized rates. They may also be known as ration shops and control shops.
- 9.3. Mandis/Regular Market:** These are those clusters of shops with or without fixed premises which are open on at least six days a week and opens at least from morning hours to dusk.
- 9.4. Weekly Hat:** These are those clusters of shops with or without fixed premises which are open once a week.

- 9.5. Agricultural Marketing Society:** It is a common platform to analyse the issues among all the individuals and institutions in the field of agricultural marketing.
- 9.6. Nutrition Centre: Integrated Child Development Services (IC.D.S):** The Integrated Child Development Services (IC.D.S) Scheme set up by the Government of India with the objective of providing following package of services to the children under 6 years and pregnant and lactating mothers in villages such as; Immunization, Health Check-up, Referral Services, Pre-school Non-formal Education and Nutrition & Health Education.
- 9.7. Anganwadi Centre:** Each centre under the IC.D.S scheme is run by an Anganwadi Worker. One Anganwadi worker is appointed for specified population of the village. They are basically local women. They are assisted by Anganwadi helper. They provide pre-school non-formal education at the Centre and provide food to the children.
- 9.8. Accredited Social Health Activist (ASHA):** ASHA is a health activist in the community who will create awareness on health and its social determinants and mobilize the community towards local health planning and increased utilization and accountability of the existing health services. She would be a promoter of good health practices. She will also provide a minimum package of curative care as appropriate and feasible for that level and make timely referrals. She will act as a motivator of different types of health related activities. Unlike ANM, she will not be involved in any clinical activities like immunization.
- 9.9. Sports Club/Recreation Centre:** Indoor and out-door games are arranged by the Club and activities like wrestling, Judo Karate etc. are also done there.
- 9.10. Cinema/Video Hall (CV):** If regular cinema houses licensed by Government are available, then the town/village is considered to be having the facility of Cinema Hall. Video hall owners screen films in their own or hired premises.
- 9.11. Public Library:** Books are kept there which can be accessed by the public on loan basis. These may be sponsored by Government or Local Body or Panchayat or any influential person. Free service or nominal charges are made for using the facility.
- 9.12. Public Reading Room:** Here the public may read newspapers and magazines. These may be sponsored by Government or Local Body or Panchayat or any influential person.
- 9.13. Newspaper Supply:** The availability of the Newspaper(s), both in English or vernacular, in the village is considered to having the said facility.
- 10. Availability of Electricity/Power.** If power is actually available, whatever may be the form of its use, it is indicated affirmative. If the village is having electricity for domestic purposes and the residents are using the same for domestic use, then it is considered that domestic power supply is available. If the electricity authority has not given domestic supply to the households on their request and people are using unauthorized electricity either by stealthily or misuse the supply meant for agricultural or industrial purposes, then it is not considered as availability of electricity for domestic purposes. However, if the village goes out of power due to temporary technical problems such as, transformer failures, theft of electrical equipment, etc., it is considered that electricity is available. Supply of electricity is considered available even when there is a temporary ban on new domestic connections. Connections to residential houses, bungalows, clubs, hostels and hospitals run on non-commercial basis, charitable, educational and religious institutions are included in the domestic category.

10.1 Power Supply for domestic use: This category includes electricity used only for domestic consumption.

10.2 Power supply for agricultural use: This category includes all electricity connections given to the farmers for conducting various agricultural activities including irrigation.

10.3 Power supply for commercial use: This category includes electricity connections given for workshops, industries etc. or for any commercial purposes.

10.4 Power supply for all uses: This category includes electricity connection is available for domestic use, agricultural use, and for any commercial purposes.

11. Land Use Pattern: The land use area of the villages is given in hectares. The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the 9 categories as indicated in the Village Directory.

12. System of drainage: Generally, by drainage system, we mean the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in towns, which are not provided with such underground sewerage system, it is mentioned whether it has open drainage system. There may be possibility of the town having both closed as well as open drainage systems.

13. Type of latrines: The data on various types of latrines both public and private together are collected. The three types of latrines considered here are, Pit Latrine, Flush/Pour Flush Latrine and Service Latrine.

- (i) **Pit System:** The latrines are attached to the pit that is dug into the ground for the reception of night soil, are reckoned as pit latrine.
- (ii) **Flush/pour flush:** A flush latrine uses a cistern or holding tank for flushing water and has a water seal, which is a U-shaped pipe, below the seat or squatting pan that prevents the passage of flies and odours. A pour flush latrine uses a water seal, but unlike a flush latrine, a pour flush latrine uses water poured by hand for flushing (no cistern is used).
- (iii) **Service:** Type of latrine from where night soil is removed manually by scavengers. All other types of latrines are covered under “Others” category.

14. Protected Water Supply- Source and capacity of Storage system: There are various sources of water supply and its storage system in the town.

14.1 Service Reservoir: A service reservoir is a water storage container that holds clean water after it has been treated in a water plant, and before it is piped to the end users. These containers are covered, and are designed to keep the water safe from contamination. Their main purpose is to provide a buffer within the water supply system so that water supplies can be maintained across periods of varying demand.

14.2 River Infiltration Gallery: Infiltration Galleries are capable of supplying large quantities of water, and are used where wells are unable to supply water needs, i.e. where an impermeable rock barrier affects well efficiency, or where surface water sources are too shallow for **intake screens**. Infiltration galleries are one or more horizontal screens placed adjacent to (on-shore), or directly underneath (bed-mounted), a surface water source.

14.3 Bore Well Pumping System: A bore well is a well of 6" to 12" in diameter drilled into the earth for retrieving water. The depth of a bore well can vary from 50 feet to 3000 feet. Water is pumped out to surface through electricity/generator.

14.4 Pressure Tank: Tank that is used to ensure consistent water pressure and for storage of water. Usually located in basement of house but sometimes (in older settings) located in well pit.

15. Road lighting (Points): Road lighting means the number of street lights that are maintained in the town.

16. Home Orphanage: Orphanage is the name to describe a residential institution devoted to the care of orphans – children whose parents are deceased or otherwise unable to care for them. Parents, and sometimes grandparents, are legally responsible for supporting children, but in the absence of these or other relatives willing to care for the children, they become a **ward of the state**, and orphanages are a way of providing for their care and housing.

17. Working women's hostel: These may be recognised or non-recognised by any public authority. The data on number of working women's hostels available in the town are collected with number of seats.

18. Old Age Home: There are two types of Old Age Homes in India. One is the "Free" type which cares for the destitute old people who have no one else to care for them. They are given shelter, food, clothing and medical care. The second type is the "Paid" home where care is provided for a fee. Nowadays, such "Retirement" homes have become very popular in India and they are well worth considering.

19. Stadium: A stadium is a place, or venue, for (mostly) outdoor sports, concerts or other events, consisting of a field or stage partly or completely surrounded by a structure designed to allow spectators to stand or sit and view the event.

20. Auditorium/Community Hall: These are the places where meetings, social functions etc. are organised.

(iv) Census 2011 findings – Population, its distribution:

(a) Distribution of population in rural-urban areas: According to the Census 2011, the total population of Chamba district is 519,080 persons comprising 261,320 males and 257,760 females. This population of the district forms 7.56 per cent of the state population and ranks at 7th place among the districts. Out of the total population of the district 93.04 per cent lives in rural areas while 6.96 per cent lives in urban areas. Rural population of the district is distributed among 10 sub-districts and urban population is spread over in 5 towns. The total urban population in the district is 36,108 persons comprising 19,357 males and 16,751 females. The total rural population in this district comes to 482,972 persons and is comprised of 241,963 males and 241,009 females as per Census 2011. This rural population is distributed in 1,110 villages. Out of the total 1,591 villages in the district 1,110 are inhabited villages while 481 villages are uninhabited. The concentration of villages are mainly along the valleys of rivers and streams as well as on undulating slopes while higher altitude areas are mostly devoid of any habitation.

(b) Size class and civic status of towns: The statement below gives the position and number of urban units in size class for Census 2001:

Sl.No.	Size Class	Name and civic status of town	Urban population of town
1	2	3	4
1	VI	Bakloh C.B.	1,805
2	IV	Chamba M.Cl.	19,933
3	VI	Chuari Khas N.P.	3,770
4	V	Dalhousie M.Cl.	7,051
5	VI	Dalhousie C.B.	3,549
Total		5 towns	36,108

Population Growth, Density and Sex ratio:

Population Growth: According to the Census 2001 the total population of the district was 460,887 persons. There has been a net addition of 58,193 persons during 2001-2011. The decadal growth rate of district comes 12.6 per cent. The growth rates for the rural and urban areas of the district are 13.28 and 4.53 per cent, respectively. The growth rate of urban population is very slow in the district due to interior location of the district and lack of industrial development.

Density: The density of population in Chamba district is 80 persons per sq. km. against the state average of 123 persons. At sub-district level, the density of population varies between 237 persons in Dalhousie sub-district and 12 persons in Pangi sub-district. In rural areas, the density of population works out to 74 persons per sq.km. while in urban areas it comes to 1,741 persons.

Sex ratio: There are 986 females for every thousand males in Chamba district. The sex ratio figures for rural and urban areas of the district are 996 and 865, respectively. It is also observed that, the proportion of females in rural areas is higher than that of urban areas. Among the sub-districts, the highest sex ratio of 1,031 has been recorded in Sihunta sub-district and the lowest is recorded in Dalhousie sub-district (921). The urban areas of Dalhousie have lowest sex ratio of 664. Sex ratio in age-group 0-6 comes to 953 in the district, as a whole. In rural areas, it is 955 while in urban areas the sex ratio of child population works out to 924.

Work participation rate: The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to Census 2011, the total workers including main and marginal workers constitute 56.6 per cent of the total population of the district. Of the total workers the share of the main workers is 23.0 per cent and the marginal workers is 33.6 per cent. The remaining 43.4 per cent of population belongs to the category of non-workers.

As per Census 2001 the proportion of male and female participation in the category of total workers is 60.8 and 52.5 per cent, respectively while among the main workers male participation rate in the district is 33.4 per cent and corresponding proportion of females is 12.5 per cent. Male and female marginal workers account for 27.4 and 39.9 per cent, respectively. The proportion of female marginal workers is substantially higher than males, as the females are attending to one or more economic activities in addition to their domestic duties to improve the family income.

It is observed that, in rural as well as in the urban areas of the district, the proportion of male main workers is higher than that of the female main workers.

Disabled Population: Information of physically challenged or disabled population has also been collected during Census 2011. Any person suffering from one or more of the following disabilities has been recorded as a disabled person in the census. The disabilities as recorded in census have been categorized as: (1) In Seeing (2) In hearing (3) In speech (4) In movement (5) Mental Retardation (6)

Mental Illness (7) Any Other (8) Multiple Disability. Chamba has returned 9,500 as total number of disabled persons during Census 2011. Out of the total disabled persons 1,638 persons have reported disability in seeing, 1,895 in hearing, 535 in speech, 1,791 have shown disability in movement, 518 persons have reported as suffering from mental retardation and 294 persons from mental illness. Remaining 1,659 and 1,170 persons have been recorded as suffering from any other disability and multiple disabilities, respectively.

Literacy: A person who can read and write in any language with understanding is taken as literate in census. All children of age below 7 years are treated as illiterates. As per Census 2011 Chamba district reported 323,842 persons as literates constituting 72.2 per cent of the total population. The proportion of male and female literates in the district is 82.6 and 61.7 per cent, respectively. The literacy rate of males is much higher than that of females. The difference of male and female literacy rate is 20.9 points in the district.

The total literacy rates of rural and urban areas are 70.6 and 92.0 per cent, respectively. The proportion of male and female literates in rural areas is 81.5 and 59.7 per cent, respectively. In urban areas this proportion is 95.3 and 88.3 per cent, respectively. The difference between male and female literacy rates in urban areas is by 7 points as against 21.8 points in rural areas. It is thus clear that females are better educated in urban areas than their counterparts in rural areas.

Mother Tongue: During Census 2001 the district has returned 460,887 persons as its total population of which 429,097 (93.10 per cent) persons reported their mother tongue as Hindi followed by 8,571 (1.86 per cent) persons as Dogri. Remaining mother tongues have negligible percentage. Among the rural population of 426,345 persons of the district 400,831 (94.02 per cent) persons has returned Hindi as their mother tongue and 8,223 (1.93 per cent) persons reported their mother tongue as Dogri. Out of urban population of 34,542 persons, 28,266 (81.83 per cent) persons returned their mother tongue as Hindi and 3,201 (9.27 per cent) as Punjabi.

Religion: During Census 2011 out of the total population of 519,080 persons of the district 479,782 (92.4 per cent) persons have reported their religion as Hindu followed by 32,455 (6.3 per cent) persons as Muslim, 2,745 (0.53 per cent) persons as Sikh and 1,740 (0.34 per cent) persons as Buddhist. Remaining Christian 9(1,559), Jain (57), Other Religions (14) and Religion not stated (728) have a thin representation in the district.

Availability of University education in the district: There are five Govt. Degree Colleges in the district situated in Chamba, Chuari, Brahmaur, Tissa and Saluni. Govt. Degree Collage of Chuari Caters to the needs of Bhattiyat, Dalhousie and Sihunta sub-districts. Degree College of Brahmaur also serves sub-district of Holi. Saluni College cater the academic needs of Bhalai sub-district. In addition to Dalhousie sub-district the Govt. Degree Collage at Chamba attracts students from all over the district.

Scheduled Castes and Scheduled Tribes population, 2011: Of the 519,080 total population of the district, 111,690 persons constituting 21.5 per cent of the total population belongs to the Scheduled Castes and 135,500 persons accounting for 26.1 per cent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 21.9 per cent in rural population and 16.8 per cent in urban population of the district. The proportion of Scheduled Tribes is 27.5 and 7.2 per cent in rural and urban areas, respectively. The Scheduled Tribes population in the district is mainly concentrated in Pangi, Sihunta, and Holi and Brahmaur sub-districts.

(v) Brief analysis of PCA data based on inset tables 1 to 35.

Table 1: The growth rate of each sub-district in the Chamba district for total, rural and urban areas and percentage of urban population to total population is given in table. The decadal growth rate of the district is 12.63 per cent during 2001-2011. The growth rate for rural and urban areas of the district is 13.28 and 4.53 per cent, respectively. Out of the total population of the district 93 per cent lives in rural areas while 7 per cent lives in urban areas of the district. The proportion of urban population has slightly declined during the decade from 7.5 per cent in 2001 to 6.96 per cent in 2011 in the district. The highest growth of 15.5 per cent in urban population is recorded in Bhattiyat while negative growth rate is registered in Chamba (-1.9 per cent) sub-district. Urban population is concentrated in Dalhousie, Bhattiyat and Chamba sub-districts while other sub-districts are entirely rural. Chaurah (sub-district) has highest decadal growth rate of 19.1 per cent, while Holi (sub-district) has shown the negative growth rate of 2.9 per cent for the total population.

Table 2: Number and percentage of inhabited villages in specified population size ranges with the related population, 2011 (Rural)

Table 2: It gives C.D. blockwise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at C.D. block level in the district. Out of the 1,110 inhabited villages, 274 (25 per cent) are small sized villages with population below 200 persons. In the size of 200 to 499 persons there are 474 villages having 43.0 per cent villages of the district while in the size class of 500-999 population claims 292 villages with 26 per cent of the total villages in the district. 63 villages (6 per cent) are in the size class of 1,000-1,999 and 7 villages (1 per cent) are in the size class of 2,000-4,999. None of villages in the district fall in the ranges of 5,000 and above population. The biggest village in the district is Kariana having population of 2,790 persons is located in Mehla C.D. block of district.

	(i) Statutory towns of Census 2001 denotified and also did not satisfy the criteria to be treated as census towns.	-
	(ii) Statutory towns of Census 2001 denotified but identified as census towns based on demographic and economic criteria.	-
	(iii) Census towns of Census 2001 are notified as statutory town in Census 2011	-
(c)	Declassified	-
(d)	Wholly merged with other town(s).	-

*Declassified means the census towns of Census 2011 which failed to satisfy the demographic and economic criteria.

Table 3: Table 3 deals with new towns, de-notified, declassified and merged towns in Census 2011. During the decade 2001-2011 no new town has been added or declassified or merged with other town in the district.

TABLE 4 : SEX RATIO OF STATE AND DISTRICT, 1901-2011

Census year	Himachal Pradesh			District Chamba		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	884	899	600	903	933	614
1911	889	905	499	897	935	538
1921	890	908	490	893	920	626
1931	897	915	521	910	938	627
1941	890	907	542	874	908	543
1951	912	932	664	894	899	802
1961	938	961	650	876	906	586
1971	958	976	749	945	952	862
1981	973	989	795	936	938	902
1991	976	990	831	949	953	902
2001	968	989	795	959	967	866
2011	972	986	853	986	996	865

Note : Sex ratio has been defined here as the number of females per 1,000 males.

Table 4: As per Census 2011 sex ratio of 986 has been recorded in the district against the state average of 972. The sex ratio of the district was significantly high as compared to the state average figures from 1901 to 1931 and remained above the state average figures during this period. The subsequent decades show declining trend from 1941 to 2001 and value remained below the state average but the sex ratio has again shown an upward trend in 2011. The sex ratio of the district has come to 986 in comparison to state figure of 972. The lowest sex ratio of 874 was recorded in the district during 1941 against the state average of 890. It is also observed that the sex ratio in rural areas is higher than that of urban areas in both district and state.

Table 5: Sex ratio by Sub-district, 2011

Sl.No.	Name of Sub-district	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	00083-Pangi	970	970	-
2	00084-Chaurah	967	967	-
3	00085-Saluni	981	981	-
4	00086-Bhalai	1,016	1,016	-
5	00087-Dalhousie	921	1,012	664
6	00088-Bhattiyat	994	1,017	849
7	00089-Sihunta	1,031	1,031	-
8	00090-Chamba	1,010	1,011	999
9	00091-Holi	948	948	-
10	00092-Brahmaur	943	943	-
District: 023-Chamba		986	996	865

Table 5: It gives sex ratio for total, rural and urban areas at sub-district level as per Census 2011. There are 986 females for every thousand males in Chamba district. It becomes clear from the table that sex ratio in rural areas is higher than that of urban areas. The sex ratio among rural and urban population is 996 and 865, respectively. The rural sex ratio in sub-districts varies between 943 in Brahmaur sub-district and 1,031 in Sihunta sub-district. The sex ratio in Bhalai, Dalhousie, Bhattiyat, Sihunta and Chamba sub-districts is higher than district rural average (996). In urban areas the highest sex ratio is recorded in Chamba (999) and the lowest is in Dalhousie urban (664).

Table 6: Sex ratio by CD Blocks, 2011

Sl.No.	Name of CD block	Sex ratio
1	2	3
1	0001-Pangi	970
2	0002-Tisa	967
3	0003-Saluni	991
4	0004-Chamba	1,019
5	0005-Bhattiyat	1,020
6	0006-Mehla	1,004
7	0007-Brahmaur	945
Total		996

Table 6: Presents C.D. blockwise sex ratio for rural population in the district. The sex ratio in rural areas of the district comes to 996, as a whole. Among the C.D. blocks the highest sex ratio of 1,020 is found in Bhattiyat C.D. block and is followed by Chamba (1,019) while the lowest of 945 is recorded in Brahmaur C.D. block. The sex ratio of Chamba, Bhattiyat and Mehla C.D. blocks is higher than the district rural average of 996 and in remaining blocks of Pangi, Tisa Saluni and Brahmaur, this value is below the district average.

Table 7: Sex ratio of rural population by ranges, 2011

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2011	Percentage distribution of population
1	2	3	4	5
Less than 700	35	3.15	1,149	0.24
700 - 749	9	0.81	1,782	0.37
750 - 799	21	1.89	5,161	1.07
800 - 849	42	3.78	13,727	2.84

900 - 949	165	14.86	71,427	14.79
950 - 999	203	18.29	1,16,729	24.17
1000 - 1099	360	32.43	1,68,766	34.94
1100+	182	16.40	64,201	13.29
District: Chamba (023)	1,110	100.00	4,82,972	100.00

Sex ratio District (Rural):996

Table 7 : Presents the distribution of villages by 9 sex ratio ranges based on Census 2011. The maximum number of villages i.e. 360 accounting for 32.43 per cent of the total villages having largest population of 34.94 per cent in the district fall in the sex ratio range of 1,000-1,099. It is followed by the sex ratio range of 950-999 which claims 203 villages (18.29 per cent) and 24.17 per cent population. The highest range of 1,100 & above claims 182 villages (16.40 per cent). This range shares 13.29 per cent rural population of the district while in the sex ratio range of 900-949, there are 165 villages (14.86 per cent). In remaining sex ratio ranges of 850-899, 800-849, 750-799, 700-749 and less than 700, the number of villages are 93 (8.38 per cent), 42 (3.78 per cent), 21 (1.89 per cent), 9 (0.81 per cent) and 35 (3.15 per cent), respectively the percentage of population is comparatively low in these ranges.

Table 8: Sex ratio of towns, 2011

Sl.No.	Name of town	Urban status of town	Sex ratio
1	2	3	4
1	800087-Dalhousie (C.B.)	(C.B.)	392
2	800088-Dalhousie (M. Cl.)	(M. Cl.)	845
3	800089-Bakloh (C.B.)	(C.B.)	570
4	800090-Chuari Khas (N.P.)	(N.P.)	1,021
5	800091-Chamba (M. Cl.)	(M. Cl.)	999
Sex ratio (Urban) district:			865

Table 8: It gives the sex ratio of towns. The sex ratio in urban areas of the district comes to 865 per as a whole. Among the 5 towns of the district the sex ratio varies between 392 to 1,021. Chuari Khas NP has the highest sex ratio (1,021), while Dalhousie CB has the lowest sex ratio of 392.

Table 9: Presents sex ratio of population in the age-group of 0-6 years and sex ratio for total, rural and urban areas in respect of each sub-district of the district. Total population in age-group 0-6 is 70,359 persons comprising 36,024 males and 34,335 females. The total sex ratio in this age-group works out to 953 in the district. The proportion of females in rural areas is higher than that of urban areas. The sex ratio in rural and urban areas comes to 955 and 924 in this age-group, respectively. The rural sex ratio in Tahsil/sub-Tahsil sub-district varies between 892 in Brahmaur sub-district and 1,012 in Churah sub-district. The sex ratio of Saluni, Bhalai and Holi sub-districts is higher than district rural average (955). In urban areas, the higher sex ratio is recorded in Bhattiyat urban (1,012) and the lowest is found in Dalhousie urban (816).

Table 10: Sex ratio of population in the age group 0-6 for CD Blocks, 2011

Sex ratio District (Rural):955				

Table 11 : It shows the distribution of villages in 9 sex ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age-group falling in each range of sex ratio in the district.

The maximum number of villages i.e. 337 (30.36 per cent) having largest population (26.48 per cent) in the district (rural) fall in the sex ratio range of 1,100 and above in the age group of 0-6 years. It is followed by the sex ratio range of less than 700 which claims 212 villages (19.10 per cent) and 9.58 per cent population. Next to it, 166 villages (14.95 per cent) are in the range of 1,000-1,099 with 16.50 per cent population. 87 villages (7.84 per cent) having 10.43 per cent population fall in sex ratio range of 800-849. In remaining sex ratio ranges of 700-749, 750-799, 850-899, 900-949 and 950-999 claim less number of villages and these are distributed as 47 (4.23 per cent), 61 (5.50 per cent), 84 (7.57 per cent), 62 (5.59 per cent) and 54 (4.86 per cent), respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that more than fifty per cent of villages i.e. 557 having population (50.9 per cent) fall in the higher sex ratio ranges of 950 to 999 and above.

Table 12: Sex ratio of population in the age group 0-6 of towns, 2011

Table 13: Depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at Tahsil/sub-Tahsil level in rural and urban areas of the district. Of the 519,080 total population of the district, 21.52 per cent of the total population belongs to the Scheduled Castes and 26.1 per cent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 21.87 per cent in rural population and 16.77 per cent in urban population of the district. The highest percentage of total Scheduled Castes population is recorded in Chaurah sub-district (29.13 per cent) while the lowest is found in Pangi tahsil/sub-district (6.6 per cent). The proportion of Scheduled Tribes population is 27.52 and 7.18 per cent in rural and urban areas, respectively. Scheduled Tribes population in the district is mainly concentrated in sub-districts of Pangi (90.18 per cent), Brahmaur (84.66), Holi (77.61 per cent) and Sihunta (38.32 per cent). The lowest percentage of Scheduled Tribes is recorded in Bhalai sub-district (1.88 per cent) and followed by Chaurah sub-district (8.37 per cent).

Table 14: Number and percentage of Scheduled Castes and Scheduled Tribes (rural) population in CD Blocks, 2011

Sl.No.	Name of C.D. Block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7

Table 14: Shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 21.87 per cent of rural population of the district belongs to Scheduled Castes and 27.52 per cent to Scheduled Tribes. At C.D. block level, Scheduled Castes population varies between 6.6 per cent in Pangi and 29.99 per cent in Chamba. The other C.D. block containing the highest percentage of Scheduled Castes is Tisa (28.77) and Saluni (27.45). The highest proportion of 90.18 per cent Scheduled Tribes population is counted in Pangi C.D. block and is followed by Brahmaur C.D. block (82.12). The lowest percentage of Scheduled Tribes is recorded in Saluni (6.64) followed by Tisa C.D. block (8.56). The Scheduled Tribes population in the district is mainly concentrated in Pangi and Brahmaur C.D. blocks.

Table 15: It reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 335 villages accounting for 30.18 per cent of total 1,110 inhabited villages in the district do not have any Scheduled Castes population. In 115 (10.36 per cent) and 80 (7.21 per cent) villages the proportion of Scheduled Castes population is less than 5.0 and 5-10 per cent, respectively. In 178 (16.04 per cent) villages, it varies between 11-20 per cent while the next range of 21-30 per cent accounts for 131 villages constituting 11.80 per cent of the total villages. The range of 31-40 and 41-50 per cent contains 94 and 68 villages, respectively. Both these ranges together come to 14.60 per cent of the total villages of the district. 76 villages fall in the range of 51-75 and 33 villages fall in the range of 76 per cent and above contain 21.30 and 7.07 per cent of Scheduled Castes population. The maximum of the 21.31 per cent of the Scheduled Castes population is covered by range of 51-75 per cent.

Table 16: Indicates the distribution of villages by percentage ranges of Scheduled Tribes population to total population in the villages. There are 371 (33.42 per cent) villages where no Scheduled Tribes population exists. 218 villages are such where proportion of Scheduled Tribes population is above 75 per cent accounting for 48.90 per cent of the total Scheduled Tribes population of the district. In 86 villages the proportion of Scheduled Tribes population ranges between 51-75 per cent accounting for 20.83 per cent of the total Scheduled Tribes population of the district. Remaining 30.26 per cent of the total Scheduled Tribes population of the district is spread over in the per cent ranges of less than 5 (134 villages), 5-10 (60 villages), 11-20 (89 villages), 21-30 (66 villages), 31-40 (53 villages) and 41-50 (33 villages).

Table 17: Shows distribution of Scheduled Castes and Scheduled Tribes population in each town of the district. 16.77 per cent of urban population of the district belongs to Scheduled Castes and 7.18 per cent to Scheduled Tribes. At town level, Scheduled Castes population varies between 7.04 per cent in Dalhousie CB and 21.48 per cent in Chamba M Cl. The other towns where the percentage of Scheduled Castes is low are Chuari Khas NP (15.52 per cent) Bakloh CB (11.97) and Dalhousie M Cl (10.24 per cent). The highest 13.21 per cent of Scheduled Tribes population is found in Chuari Khas NP and is followed by Dalhousie M Cl 12.37 per cent. The lowest proportion of 1.05 per cent Scheduled Tribes is recorded in Bakloh CB. The other town containing the lower percentage of Scheduled Tribes population are Dalhousie CB having 2.99 and Chamba M Cl with 5.51 per cent.

Table 18: Sex ratio among Scheduled Castes and Scheduled Tribes (rural) in CD Blocks, 2011

Sl.No.	Name of C.D. block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio

6	0006-Mehla	995	1,016
7	0007-Brahmaur	944	964
Total		988	996

Table 18: Indicates sex ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The Scheduled Castes sex ratio is 988 for district (rural) is higher by two points in comparison to the sex ratio of the district as a whole. Among the C.D.blocks, the highest sex ratio of 1,029 is found in Pangi C.D. block and lowest of 944 is recorded in Brahmaur C.D. block. Sex ratio of Scheduled Tribes population in rural Chamba district is ten points above parity line reflecting excess of females over the males at district level. The sex ratio in 2 C.D. blocks namely, Bhattiyat (1,042) and Mehla (1,016) is above the parity line while in remaining 5 C.D. blocks it is below the line of equality. The lowest value of sex ratio of 933 is recorded in Saluni C.D. block while it is 993 in Pangi, 982 in Chamba, 964 in Brahmaur and 952 in Tisa C.D. block.

Table 19: Sex ratio among Scheduled Castes and Scheduled Tribes in towns, 2011

5	800091-Chamba (M.Cl.)	1,024	975
District (Urban): 023-Chamba		1,012	978

Table 19: It indicates sex ratio among Scheduled Castes and Scheduled Tribes in each town of the district. The Scheduled Castes sex ratio is 1,012 for district (urban). Among the towns, the highest sex ratio of 1,024 is found in Chamba M Cl and lowest of 894 is recorded in Dalhousie CB. In other towns, sex ratio among Scheduled Castes varies between 989 in Dalhousie (M Cl) and 1,019 in Bakloh CB. Sex ratio of Scheduled Tribes population in district (urban) is 978. Among the towns, the highest sex ratio of 1,128 has been recorded in Chuari Khas NP which is followed by 1,111 females in Bakloh CB and lowest of 896 is recorded in Dalhousie M Cl. Remaining towns of Dalhousie CB and Chamba M Cl have a sex ratio of 1,038 and 975, respectively.

Table 20: District and sub-district wise literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in table-20. The literacy rates are worked out by excluding population of 0-6 years. As per Census 2011, the proportion of literates to total population excluding 0-6 years comes to 72.17 per cent in the district. This proportion in rural area is 70.6 per cent against 92.05 per cent in urban areas. In the district the literacy rates of males (82.59 per cent) is much higher than that of females (61.67 per cent). Among the sub-districts, Dalhousie sub-district tops with 81.37 per cent literates followed by Sihunta sub-district (76.71 per cent). Chaurah sub-district with 60.44 per cent literates stands at the bottom in the district. Out of 10 sub-districts, the literacy rates of 6 sub-districts are higher than that of district average. It is observed that in urban areas of district the literacy rates are higher than the rural areas. The gap between male and female literacy is very high which comes to 20.92 per cent in the district, as a whole. The situation at sub-district level is not much different. However this gap in urban literacy is low which comes to 7.6 points against the rural areas, where the gap between male and female literacy is 21.78 points.

Total		70.60	81.51	59.73	21.78	

Table 21: Reveals number of literates, illiterates and the literacy rates in rural areas at C.D. block level in the district. 70.6 per cent of the total rural population excluding the age-group of 0-6 years literates in the district. The corresponding proportion of male and female literates comes to 81.51 and 59.73 per cent, respectively which shows very wide gap of 21.78 per cent in male and female literacy. At C.D. block level, Bhattiyat C.D. block has the highest rural literacy rate of 76.09 per cent while 85.85 per cent males and 66.67 per cent females are literates in this block. The lowest literacy rate in rural areas is noted in Tisa C.D. block (60.44 per cent). There are wide variations in male and female literacy in all the C.D. blocks of the district. The maximum difference of 25.19 points is found in Saluni C.D. block.

Table 22: Gives the distribution of villages by literacy rate ranges in the district. There is no literate in 3 villages of the district and population of these villages is only 24 persons. 10 villages (0.9 per cent) have all the literate population of 58 persons. 401 villages accounting for 36.13 per cent of the total villages are in the literacy range of 71-80 per cent and 370 villages (33.33 per cent) fall in the literacy range of 61-70 per cent. 140 (12.61 per cent) villages fall in the range of 51-60 per cent. The lowest literacy rate of 1 to 50 per cent is observed in 63 (5.67 per cent) villages of the district. The higher literacy ranges of 71 to

100 per cent covers 534 villages (48.11 per cent). The range of 61-80 has the maximum number of 771 villages forming 69.46 per cent of the total inhabited villages.

Table 24: It relates to number and percentage of Scheduled Castes literates and illiterates at C.D. block level. During Census 2011, the literacy percentage has come to 68.45 per cent, as a whole, for the district. Among males 78.96 and females 57.82 per cent are literate. Chamba C.D. block has shown highest percentage of 76.69 per cent literates followed by Bhattiyat (72.95 per cent) and lowest found in Tisa (58.93 per cent). Male literacy is highest in Chamba (87.08 per cent) C.D. block and in case of female literacy Chamba block is also at first rank with 66.42 per cent. Gap between male and female literacy is highest in Saluni C.D. block (24.24 per cent) where as in the district the gap is 21.14 per cent.

District Scheduled Castes Literacy rate:				
	68.45			

Table 25: Gives the distribution of villages by literacy rate ranges for Scheduled Castes population in the district. There is no literate among Scheduled Castes in 5 villages (0.65 per cent) of the district and Scheduled Castes population of these villages is only 11 persons. 32 villages (4.13 per cent) have all the literate Scheduled Castes population and the population of these villages is only 0.1 per cent of total Scheduled Castes in the district. The largest number of 230 (29.68 per cent) villages having 33.04 per cent population fall in the literacy range of 71-80 per cent, followed by 219 (28.26 per cent) villages in 61-70 per cent, 126 (16.26 per cent) villages in 51-60 per cent. The lower literacy rate of 1 to 40 per cent is observed in 20 (2.59 per cent) villages of the district accounting for 1.1 per cent Scheduled Castes population. The higher literacy ranges of 71 to 100 per cent cover 346 (44.65 per cent) villages containing 46.84 per cent of total Scheduled Castes. The range of 41-70 has the maximum number of 404 or 52.16 per cent of the total inhabited villages and 52.05 per cent of Scheduled Castes population.

Table 26: Number of Scheduled Castes literates and illiterates, literacy rate by sex in towns, 2011

Table 30: It gives the number and percentage of main workers, marginal workers and non-workers by sex at sub-district level in the district as per Census 2011. The proportion of the total workers works out 56.65 per cent of the total population in the district. The total workers are comprised of 23.05 per cent of main workers and 33.60 per cent of marginal workers and the remaining 43.35 per cent are non-workers. Among the main workers, males participation rate in the district is 33.41 per cent and of females it is 12.54 per cent. Male and female marginal workers account for 27.35 and 39.93 per cent, respectively. The percentage of females marginal workers is higher than males. Total workers (main and marginal workers) among sub-districts vary from 72.14 per cent in Brahmaur tahsil to 45.36 per cent in Dalhousie sub-district.

Table 31: This table shows C.D. blockwise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 482,972 total rural population of the district, 22.35 per cent has been categorised as main workers and the marginal workers constitute 35.80 per cent and the remaining 41.85 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 32.18 per cent males and 12.48 per cent females are in the category of main workers. Male and female marginal workers account for 29.13 and 42.50 per cent, respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at C.D. block

level. The percentage of total rural workers of the district comes to 58.15 per cent. At the C.D. block level, Brahmaur has highest proportion of total workers forming 67.04 per cent of the total population. It is closely followed by Saluni (65.19 per cent), Mehla (60.99 per cent), Pangi (57.52 per cent), Tisa (55.43 per cent) and Chamba (53.66 per cent). The lowest percentage of 52.66 per cent is recorded in Bhattiyat C.D. block.

		Males	10,456	54.02	8,901	45.98
		Females	2,724	16.26	14,027	83.74

Table 32: It shows town-wise number and percentage of main workers, marginal workers and non-workers among urban population of the district. Of the 36,108 total urban population of the district, 32.37 per cent has been categorised as main workers and the marginal workers constitute 4.13 per cent while remaining 63.50 per cent fall in the category of non-workers.

The sex-wise break up at the district level shows that 48.84 per cent males and 13.34 per cent females are in the category of main workers. Male and female marginal workers account for 5.18 and 2.92 per cent, respectively. The percentage of female marginal workers is lower than male marginal workers. Similar

trend is visible in all the towns except Bakloh CB which has shown a reverse trend. In Bakloh CB female marginal workers (2.60 per cent) is higher than male marginal workers (1.13 per cent).

The percentage of total urban workers (main and marginal workers) of the district comes to 36.50 per cent. Male and female workers account for 54.02 and 16.26 per cent, respectively. At the town level, Dalhousie CB has highest proportion of total workers forming 61.71 per cent of the total population. It is followed by Bakloh CB (50.86 per cent), Chamba M Cl (34.26 per cent) and Chuari Khas NP (32.04 per cent). The lowest percentage of 28.85 per cent is recorded in Dalhousie M Cl. As regards the total work participation rate of males, the highest percentage of 82.39 male workers is recorded in Dalhousie CB and the lowest proportion of 42.34 per cent male workers is registered in Dalhousie M Cl. The proportion of female total workers is low in all towns of the district.

Table 33: It can be seen from the table 33, that the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 66.88 per cent of the total workers (main+marginal) whereas remaining 33.12 per cent of total workers of the district are divided among the agricultural labourers (3.13 per cent), household industry workers (1.54 per cent) and other workers (28.45 per cent) in this district.

The distribution of workers by four categories of economic activity at sub-district shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 36.35 per cent in Dalhousie sub-district and 80.56 per cent in Saluni sub-district. These variations within the district may be due to cropping and land holding patterns. The percentage of female cultivators is 81.45 per cent which is very high as compared to 54.48 per cent of male cultivators in the district. The percentage of agricultural labourers and household industry workers is very low in the district as stated above. The workers in other activities occupy the second position next to agriculture in the district as well as in each sub-district level. The highest proportion of 61.54 per cent of other workers is recorded in Dalhousie sub-district while the lowest proportion of 17.43 per cent is found in Saluni sub-district.

Table 34: It presents C.D. block-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main+marginal) constitute 58.15 per cent of total population. Among these workers, cultivators constitute 69.91 per cent, 3.23 per cent agricultural labourers, 1.57 per cent household industry workers and 25.3 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercial viable. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 1.57 per cent workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females (82.99 per cent) is higher than males (58.23 per cent) in the rural areas of the district. The females play a main role in rural economy of the district. The proportion of cultivators and other workers differ considerably from one C.D. block to other. The proportion of cultivators varies between 60.55 per cent in Pangi C.D. block to 76.64 per cent in Tisa C.D. block. Similarly for other workers, the lowest proportion is 20.36 per cent in Tisa C.D. block while 33.4 per cent is the highest in Bhattiyat C.D. block. The percentage of agricultural labourers and household industry workers together is quite low i.e. only 4.8 per cent in the district. The percentage of agricultural labourers is highest in Pangi (8.97) C.D. block and is lowest in Tisa (1.92 per cent) block. Similarly, household industry workers vary in C.D. blocks between 0.48 per cent in Saluni and 3.05 per cent in Brahmaur C.D. block.

Table 35: Table 35 presents town-wise distribution of workers by sex in four categories of economic activity. In the urban areas of the district total workers (main+marginal) constitute 36.50 per cent of total population. Among these workers, cultivators are 2.37 per cent and agricultural labourers 0.99 per cent, household industry workers claim 0.94 per cent while the proportion of other workers is 95.7 per cent. In urban areas of the district, the percentage of other workers is much higher than other economic activity. The proportion of cultivators varies between 0.09 per cent in Dalhousie CB to 18.87 per cent in Chuari Khas NP while Bakloh CB has no cultivating household. Similarly for other workers, the lowest proportion is 80.71 per cent in Chuari Khas NP while 100.00 per cent is the highest in Bakloh CB. The percentage of agricultural labourers and household industry workers together is quite low i.e. 1.93 per cent only in the district. The agricultural labourers have been recorded in Dalhousie M Cl (2.16 per cent), Chamba M Cl (1.24 per cent) and Chuari Khas NP (0.17 per cent). Household industry workers vary in towns between 0.25 per cent in Chuari Khas NP and 1.39 per cent in Chamba MCl.

Note:-

* Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

** Telephone includes Telephone,PCO and Mobile.

Table 36 : Deals with the C.D. block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport and communications, banks, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,110 inhabited villages in the district there are 873 villages or 78.64 per cent which have been provided with the education facilities of one type or the other within the village. Similarly 327 villages in the district constituting 29.46 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 1,110 or cent per cent villages. As regards, post office facility which includes facilities like post office, telegraph office and post & telegraph office, 322 villages constituting 29.01 per cent of villages have been provided with post office facility within the village. 911 or 82.07 per cent villages have been provided with the telephone facility, 580 or 52.25 per cent with transport and communication facility which includes bus service, rail facility and navigable waterway. There are 72 or 6.49 per cent villages with bank facility and 86 or 7.75 per cent with agricultural credit societies. Similarly there are 483 or 43.51 per cent villages which have been linked with the pucca road. Total 1,110 or cent per cent villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at C.D. block level has been found with slight variation. Mehla C.D. block has the highest 92.31 per cent villages where educational facility is available and lowest 66.95 per cent is found in Saluni C.D.block. Medical facility is highest in Brahmaur (51.04 per cent) and lowest (20.25 per cent) in Tisa C.D. block. Facility of improved drinking water is available to cent-per-cent villages of all the 7 C.D. blocks of the district. As far as the availability of the facility of post office is concerned, the highest percentage of 48.33 is recorded in Pangi C.D. block while the lowest proportion of 21.74 per cent is noticed in Bhattiyat C.D.block. Telephone facility is

highest in Bhattiyat (95.65 per cent) while only 17(28.33 per cent) villages of Pangi C.D. block enjoy this facility. Transport and communications is less developed in Pangi where only 33.33 per cent villages are covered by this facility whereas 65.77 per cent villages of Chamba C.D. block are availing this facility. In the field of power supply all the villages of the district enjoy this facility.

Table 37: Number and percentage of rural population served by different amenities, 2011

Note:-

* Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

** Telephone includes Telephone,PCO and Mobile.

Table 37: It depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 482,972 persons in the district, 443,222 or 91.77 per cent have educational facility of one or the other type. Similarly 215,478 or 44.62 per cent population has medical facilities while 482,972 or cent per cent rural population of the district has got improved drinking water facility. Post office facilities are available to 200,747 or 41.56 per cent population. Telephone facility is available to 420,177 or 87 per cent. Transport communications facility is available to 307,497 or 63.67 per cent. Bank facility is available to 55,909 or 11.58 per cent. 54768 or 11.34 per cent have been provided with the facility of agricultural credit societies. 257,751 or 53.37 per cent have been provided with the facility of approach by pucca road. Power supply is available to 482,972 or cent per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at C.D. block level.

Table 38: Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available, 2011

Village not having the amenity of	Distance range of place from the villages where the amenity is available

Bus includes private and public

Table 38: Presents distribution of villages not having certain amenities within the village at district level. The people of such villages have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 261 villages do not have primary school within their jurisdiction and out of these villages; children of 214 villages have to travel less than 5 kms. for their schooling. Out of 1,110 inhabited villages as many as 696 are deprived of middle school and 1,103 of degree college. Of these 507 avail the facility of middle school at a distance of less than 5 kms., 165 at a distance 5-10 kms. and the remaining 24 at a distance of 10+ kms. In respect of degree college the students of 49 villages avail this facility at a distance of less than 5 kms., 117 between 5 to 10 kms. and rest of 937 villages at a distance of 10+ kms.

Similarly there are 1,093 villages in the district which have been devoid of Hospital facility and 1,060 villages which are deprived of PHC facilities. Of these 109 villages have the facility of hospital available within 5 kms. while in respect of 176 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number of 808 villages have this facility at a distance of 10+ kms. As regards PHC, 242 avail this facility at a distance of less than 5 kms., 372 at a distance of 5-10 kms. and the remaining 446 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 788 villages do not have this facility in the village itself. Of these majority 467 have this facility at a distance of less than 5 kms., another 246 villages avail it at a distance of 5-10 kms. In the remaining 75 villages, habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 199 villages in the district which are without telephone facility. Of these, 55 avail this facility at a distance of less than 5 kms., 74 at a distance of 5-10 kms. and remaining 70 have to traverse a distance of 10+ kms.

For Bus service, out of 536 villages which do not have this facility, 262 villages avail this facility at a distance of less than 5 kms., 196 at a distance between 5-10 kms. and 78 at a distance of 10+ kms.

In the entire district, 1,057 villages are deprived of Commercial Bank and 1,067 of Co-operative Bank. Of these 1,057 villages which are deprived of Commercial Banks, 123 villages avail this facility at a distance of less than 5 kms., 246 between 5-10 kms. and the remaining 688 at a distance of 10+ kms. Regarding Co-operative Banks, out of 1,067 villages, 137 villages avail this facility at a distance of less than 5 kms., 225 at a distance of 5-10 kms. and remaining 705 at a distance of 10+ kms. 1,024 villages do

not have agricultural credit societies. This facility to 132 villages is available at a distance of less than 5 kms., 204 at a distance of 5-10 kms. and the remaining 688 at a distance of 10+ kms.

Table 39: Distribution of villages according to the distance from the nearest statutory town and availability of different amenities, 2011

Distance Range from the nearest Statutory Town (In Kilometres)	Number\ Percentage	Number of Inhabited Villages in Each Range	Type of amenity available

Table 39: It deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1,110 inhabited villages in the district, there are 44 villages which have nearest towns up to a distance of 5 kms. Of these, only 38 villages forming 86.36 per cent of the total villages, are having the educational facilities of one type or the other and 17 villages constituting 38.64 per cent, have the medical facilities within the village, 14 villages forming 31.82 per cent have the facility of post office within the village and 44 or cent per cent villages have the facility of telephone. 25 villages constituting 56.82 per cent have been linked by transport service. 7 villages comprising 15.91 per cent have been provided bank facilities, while 10 villages constituting only 22.73 per cent have been provided agricultural credit societies. 26 villages comprising 59.09 per cent have been provided with pucca road. There are 193 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these, 147 villages constituting 76.17 per cent have been provided with the educational facilities. 56 villages comprising 29.02 per cent have been provided with medical facilities. 46 villages constituting 23.83 per cent enjoy the post office facility. 182 villages comprising 94.3 per cent have been provided the telephone facility. 105 villages constituting 54.4 per cent have been linked with transport communications. 14 villages comprising 7.25 per cent have bank facility. 9 villages constituting 4.66 per cent are having agricultural credit societies, while 93 villages or 48.19 per cent are approachable by pucca road. 444 villages fall in the distance range of 16-50 kms. Of these, 80.63 per cent villages have educational facility, 32.66 per cent with medical, 27.7 per cent with post office, 87.16 per cent with telephone and transport & communications available to 57.43 per cent villages. Banks

and agricultural credit societies facilities are available to 6.98 per cent villages each. The facility of pucca road is available to 57.43 per cent villages.

There are 429 villages in the district which are situated beyond 50 kms. from the nearest town and out of these, 330 or 76.92 per cent enjoy the education facility in the village itself whereas 109 villages comprising 25.41 per cent have been provided with medical facility of one type or the other. 139 such villages comprising 32.4 per cent have the post office facility. 298 villages comprising 69.46 per cent have been provided with telephone facility. 195 villages constituting 45.45 per cent have been linked by bus service whereas 20 villages comprising 4.66 per cent have been provided with the bank facilities. Only 36 villages comprising 8.39 per cent are having agricultural credit societies while remaining 109 villages comprising 25.41 per cent have been linked by pucca roads. There is no village in the district whose distance range from the nearest statutory town is unspecified.

Table 40: Distribution of villages according to population range and amenities available, 2011

Note:-

* Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, railway facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

** Telephone includes Telephone, PCO and Mobile.

Table 40: It deals with the distribution of villages by population ranges and amenities available therein. In Chamba district, out of a total 1,110 inhabited villages, overwhelming 748 have a population of less than 500 persons. Of these, 513 villages (68.58 per cent) have education facility, 132 (17.65 per cent) have medical facility, all the 748 (cent per cent) villages have improved drinking water facility. 146 villages (19.52 per cent) have post office facility. 587 (78.48 per cent) have telephone facility. 320 (42.48 per cent) have been linked by bus service. 27 (3.61 per cent) have Bank facility. 42 villages (5.61 per cent) have been provided with the agricultural credit societies, 267 villages (35.7 per cent) have been linked with pucca road and again all the 748 or cent per cent villages have been provided with electricity.

Out of 292 villages, which fall in the population range of 500-999 persons, 290 villages (99.32 per cent) have been provided with the education facility, 145 (49.66 per cent) with medical facility, 292 (cent per cent) villages have improved drinking water facility. 134 villages (44.89 per cent) have been provided with post office facilities, 259 villages (88.7 per cent) with telephone facility, 203 villages (69.52 per cent) with transport facilities, 27 villages (9.25 per cent) with bank facility, 31 villages (10.62 per cent) with agricultural credit societies and 168 villages (57.53 per cent) have approach by pucca road. 292 or cent per cent villages in this range have electricity.

63 villages fall in population range of 1,000-1,999 persons. All of these villages have education, improved drinking water and power supply facilities. Whereas 43 villages (68.25 per cent) enjoy the medical facility, 37 villages (58.73 per cent) have post office facility, 59 villages (93.65 per cent) have telephone facility, 50 villages (79.37 per cent) have transport communications facilities, 14 villages (22.22 per cent) have bank facilities, 11 villages (17.46 per cent) have agricultural credit societies and 42 villages (66.67 per cent) have approach by pucca road.

There are 7 villages in the district which are covered under 2,000-4,999 population range. In this range, all the villages enjoy the facility of education, medical, improved drinking water, transport communications and power supply. 5 villages (71.43 per cent) have post office facility, 6 villages (85.71 per cent) have telephone facility, 4 villages (57.14 per cent) have bank facility and 2 villages (28.57 per cent) are having agricultural credit societies. 6 villages (85.71 per cent) have a approach by pucca road. There is no village in the district having a population of 5,000 persons or above.

Table 41: Distribution of villages according to land use, 2011

Sl.No.	Name of C.D. Block	Number of inhabited villages	Total area (in Hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	0001-Pangi	60	31,080.22	6.75	46.03
2	0002-Tisa	158	36,218.74	15.10	3.38
3	0003-Saluni	233	44,856.82	15.25	0.79
4	0004-Chamba	111	30,457.67	22.03	2.24
5	0005-Bhattiyat	322	57,043.54	16.18	27.04
6	0006-Mehla	130	37,824.21	19.24	5.85
7	0007-Bahrmaur	96	35,013.30	13.10	3.33
Total		1,110	2,72,494.50	15.49	10.49

Note: Culativable area= irrigated area + unirrigated area

Table 41: It presents C.D. blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available in inhabited villages of the district. Cultivated area includes irrigated as well as un-irrigated area. It further elaborates the proportion of cultivable area under irrigation. There are total 1,110 inhabited villages in the district having a total area of 272,494.50 hectares. Of this, 15.49 per cent is cultivable and 10.49 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue records maintained by the concerned sub-district offices for each village in the State.

A look at the land use pattern at C.D. block level shows that Pangri block with 60 villages have a total area of 31,080.22 hectares, of this, 6.75 per cent of land is cultivable and of the aforesaid area, 46.03 per cent is irrigated. In Tisa block, all the 158 villages have a total land area of 36,218.74 hectares, of this, 15.10 per cent of land is cultivable and of the aforesaid area, 3.38 per cent is irrigated. In Saluni block, all the 223 villages have a total area of 44,856.82 hectares, of this, cultivable area is 15.25 per cent and 0.79 per cent is irrigated. In Chamba block, all the 111 villages have a total area of 30,457.67 hectares. Of this, cultivable area is 22.03 per cent. Of cultivable area, 2.24 per cent is irrigated. Bhattiyat block with 322 villages have a total land area of 57,043.54 hectares, of this, 16.18 per cent is cultivable area and out of this cultivable area, 27.04 per cent is irrigated. Mehla block with 130 villages has a total land area of 37,824.21 hectares. Of this, 19.24 per cent is cultivated area, out of which 5.85 per cent is irrigated. Brahmaur block with a total 96 villages have an area of 35,013.30 hectares. Of this, 13.10 per cent is cultivable area of which 3.33 per cent is irrigated.

Table 42: Schools/ colleges per 10,000 population in towns, 2011

Sl. No.	Name of the town	Type of educational institution (Approx. numbers)				
		Primary	Middle	Secondary / matriculation	Senior secondary	College*
1	2	3	4	5	6	7
1	800087-Dalhousie (C.B.)	6	3	3	-	-
2	800088-Dalhousie (M.Cl.)	14	9	7	7	-
3	800089-Bakloh (C.B.)	28	11	6	6	-
4	800090-Chuari Khas (N.P.)	8	13	11	8	3
5	800091-Chamba (M.Cl.)	5	3	3	2	1
District: Chamba (023)		8	6	4	4	1

Note- * College includes

Arts/ Science/ Commerce College (Degree Level and above)

Table 42: It relates to schools/colleges per 10,000 population in towns. In urban areas of Chamba district, the average number of primary school per 10,000 population comes to 8, middle 6, secondary/matriculation and senior secondary schools 4 each and the ratio of colleges is only 1 college per 10,000 population. Among the towns, the ratio of primary schools is highest in Bakloh CB (28) and lowest in Chamba M Cl whereas the proportion of middle, secondary/matriculation, senior secondary school and college against 10,000 population is as high as 13, 11, 8 and 3, respectively in Chuari Khas NP.

Table 43: Number of beds in medical institutions in towns, 2011

Sl. No.	Name of the town	Number of beds in medical institutions per 10,000 population (Approx. numbers)
1	2	3
1	800087-Dalhousie (C.B.)	6
2	800088-Dalhousie (M.Cl.)	104
3	800089-Bakloh (C.B.)	11
4	800090-Chuari Khas (N.P.)	143
5	800091-Chamba (M.Cl.)	173
District: Chamba (023)		132

Table 43: It depicts the number of beds available in medical institutions per 10,000 population in each town of Chamba district. On an average, there are 132 beds per 10,000 population in urban areas of the district. Whereas it is the highest 173 in Chamba M Cl followed by Chuari Khas NP (143) and Dalhousie M Cl (104) while lowest value of 6 beds is recorded in Dalhousie CB and is closely followed by Bakloh CB 11 beds per 10,000 population.

Table 44: Proportion of slum population in towns, 2011

Sr.No.	Name of the town having slum	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
-	-	-	-	-

Table 44 : It represents the proportion of slum population in towns in Census 2011. Urban areas of Chamba district have not reported any slum area.

Table 45: Most important commodity manufactured in towns, 2011

Sl. No.	Name of the town	Name of three most important commodities manufactured
1	2	3
1	800087-Dalhousie (C.B.)	Bakery Product
2	800088-Dalhousie (M.Cl.)	Woolen Shawls, Wooden Furniture
3	800089-Bakloh (C.B.)	Bakery Item
4	800090-Chuari Khas (N.P.)	Earthen Ware, Bamboo Ware, Grass Shoes And Ropes
5	800091-Chamba (M.Cl.)	Chamba Chappal, Shawal Pattu, Chamba Rumal, Painting

Table 45 : It indicates most important articles manufactured and exported out of each town in the district. The district is well known for “Chamba Shawls”, “Chamba Chappals” and “Chamba Rumals” Dalhousie M Cl mainly manufacture Woolen Shawls and Wooden Furniture. Bakery products are produced in Dalhousie CB and Bakloh CB. Earthen ware, Bamboo ware, Grass Shoes and Ropes are manufactured in Chuari Khas NP whereas Chamba Chappal, Shawl, Pattu, Chamba Rumal and Paintings are the main items which are manufactured in Chamba M Cl and these are mainly exported to other places within and out side the district and state.

(vii) Major Social and Cultural events, Natural and Administrative Developments and Significant activities during the decade

Fairs and Festivals: Chamba district is full of fairs and festivals, some of which are given below:

1 Minjar Fair: Of all the fairs of Chamba district, Minjar is the most popular. There are many beliefs about its origin. There is a legend that many centuries ago, Ravi was flowing through the Chamba town where presently Chaugan is situated. There is a temple of Champawati on the right side of the river and that of Hari Rai on the other side. A Mahatma who was staying by Champawati temple used to visit Hari Rai temple by swimming the river. Raja Sahil Varman and people of Chamba town requested the Mahatma to make some arrangement so that all could visit the sacred temple of Hari Rai. The Mahatma asked the people to come to the temple of Champawati where a Yajna was performed with the help of Brahmins for seven days. A cord of seven different colours was prepared and it was given the name of Minjar. On completion of the Yajna, the river changed its course. This miracle was believed to be brought by the Minjar i.e. the cord spun by the Brahmins. The king thus declared the day to be celebrated as the Minjar day and since then Minjar Fair is held every year at Chamba to commemorate this divine event. According to another legend, the fair is held for worship of Varuna, the God of waters.

Minjar fair is a splendid carnival held in the month of Sravana every year. The fair starts on the second Sunday of Sravana with the distribution of Minjar. During the regime of erstwhile State, Raja used to participate in the fair. Till recently a male buffalo used to be pushed into the river. In 1955 or so, a Minjar flag was introduced by the Municipal Committee. It is hoisted by the Deputy Commissioner in the Chaugan on the morning of inaugural day indicating the beginning of the fair. Minjar is distributed and the tournaments start from that day. On the third Sunday, there is a large gathering.

The people sing folk songs associated to their respective areas. Of all the songs sung during the fair, Kunjari is the most charming. Being a very old folk song, it is traditional and has a typical tune. Shopkeepers from adjoining states come to the place to sell their goods and people also purchase many articles of their requirement for the year as a whole. Various types of exhibitions are also arranged by the Government departments to exhibit the progress made in various fields. Various cultural shows are also organised for the entertainment of the people.

2 Sui Fair of Chamba : Sui fair is as old as the time when Chamba became the capital of the princely state. For the capital there was no proper supply of water. Raja Sahil Varman had made a water source from Sarota stream round the Shah-Madar hill but the water did not enter the channel and it was ascribed to 9 super natural causes. The Brahmins who were consulted pronounced that water would pass if the Rani or her son was sacrificed. There is another tradition that the Raja had a dream in which he was directed to offer his son as sacrifice. But the Rani insisted to sacrifice her own life. A grave was dug near Balota village and she was buried alive. When the grave was filled up water began to flow and has been flowing ever since. The Rani is venerated for her sacrifice and is worshipped as 'Sui Mata ' The fair is held on the last three days of April every year. Last day of the fair is known as Sukrat i.e. 'Sukh-khi-Raat'. On the evening of the closing day, Sukrat is sung. The fair is colourful and its charm is enhanced by the songs sung not only at the fair but in all the houses of the local residents.

3 Mani Mahesh Fair: Mani Mahesh is situated about 35 kms. from Brahmaur. Lord Shiva is believed to reside there. Shiva had granted a boon to Brahmini Devi that every pilgrim must worship her before proceeding to Mani Mahesh. The oracles of Keling and Mani Mahesh are consulted as to whether their pilgrimage would be successful and accepted by Shiva. Pilgrims collect at Brahmaur and start for the yatra. They reach Mani Mahesh lake after covering the distance in two stages. The pilgrims have to be at the lake on the morning of Radha Ashtami which falls 15 days after Krishna Janam Ashtami in the month of August/September. Every devotee must take a dip into lake in the early hours of the morning which is considered as sacred. A dip in the lake is taken only after taking a dip first in Gauri Kund which is situated at one km. before Mani Mahesh lake. In the past only women used to take a dip in this kund but now all avail this. Besides this, two dips in the spring at Hudsar and Dhanchhoh are also essential. The pilgrimage to Mani Mahesh is considered as sacred. Some of the pilgrims go bare footed. The pilgrims go on shouting 'Mani Mahesh-ki-Jai'. People return to Brahmaur on the 5th or 6th day. On their way back, people bring two plants growing in the area. These are called Ghugi and Banand.

4 Nag Fair: This fair is held in Banikhet in the month of Asadha (June) for two days. It is held in honour of Nag devta., whose temple is situated in the village. People come and make offerings to the Nag Devta and wrestling matches are held.

5 Khajiar Jatar: Khajiar village is about 24 kms. from Chamba. A Jatar is held here on the fourth night of Jaistha (May) and continues till the next morning. The fair is managed by temple committee of Laxmi Narayan Temple of Chamba. The fair starts at 10 P.M. with the Kirtan of Khasi Nag and continues till 3 A.M. The people make offerings of ghee, wheat flour, coconuts etc. to the Nag.

6 Saluni Jatar: This Jatar is held on Ist Jaistha (May) every year at Saluni. On this day, Nag Devta is worshipped with incense and wheat bread is offered to him. A goat or ram is sacrificed. After offering the bread to the Nag Devta, it is distributed among the people present in Jatar.

7 Phool Jatar: This Jatar begins in the month of Asvina (October) each year for four days at Kupha. This is the most popular fair of Pangi area. Men and women mix freely and there are great rejoicings. This Jatar is the last fair of the year and after this, the region has heavy snowfall.

8 Bhanjraru Chhinj: This fair is held on 14th Asadha (June) at Bhanjraru for a day. It is held in the name of Lakhdatta. His worship is done by the people in their homes. The people believe that by worshipping the Lakhdatta, cows and buffaloes give more milk. Ghee is hoarded in his name. Wrestling matches are held and prizes are distributed.

9 Baar: This festival is held on the last Tuesday of Pausa (January). Kalimai is worshipped and local dishes are eaten in the evening.

10 Sheel: This festival is observed in Pangi on the day of Amavash of Phalguna or Chaitra. With this festival starts the spring and fear of snow is vanished. The people take ghee and chapatis in the morning. In the evening various dishes are prepared as customary. These dishes are taken on the next festival i.e. Pareed. Goddess Lakshmi is worshipped.

11 Chamba Dussehra: This is organized by the local people and Ram Leela Committee and has become one of the important fairs of the district.

12 Summer Festival Dalhousie: This is organized by the administration with the help of local people and Municipal Committee, Dalhousie to attract tourists from the different parts of the country. During summer tourists influx to Dalhousie is at its peak.

13 Swami Hari Giri Fair: This fair is organized in the month of June in the Swami Hari Giri temple at Kakira near Bakloh for which local holiday is declared by the District Administration.

14 Urs: Urs is celebrated twice a year at Dargah Peer Zamal Shah, Rajpura- first on 10th Muharram and second on Milad-ul-Nabi (12 Rabi-ue-awal). Quawalis are organized during night in which people from all walks of life irrespective of their religion participate.

(viii) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Chamba valley, perhaps the loveliest of valleys of Himachal Pradesh, is noted for the magnificence of its scenery-sparkling streams, lakes, meadows and lush green forests of deodar. A place of high mountain ranges, Chamba district is rich in wildlife and is the home of rare animals like snow leopard, ibex, brown bear, leopard and musk deer. A splendid artistic heritage of the district includes temples exhibiting fine architecture of ancient times, beautiful miniature paintings and exquisite embroidered Chamba 'rumals'. Chamba's scenic beauty makes it an ideal holiday retreat for the tourists.

Chamba: Chamba is the headquarters of the district and was also the capital of the erstwhile state. The town is situated at an altitude of 996 metres above the mean sea level on the bank of river Ravi. Founded in 920 AD by Raja Sahil Varman, the town still has a medieval feel about it. Isolated by the high mountains in its beautiful valley, Chamba has developed over the centuries its rich style of Pahari art and architecture. Much of this heritage has been preserved and Chamba is known today for the splendour of its temple. The famous temples of Chamba town are as Under :-

Rani Suhi Temple: A white temple of Rani Suhi is situated in the eastward of Chamba town. According to a legend, there was no proper water supply in the town and Raja Sahil Varman was worried about this problem and he tried to bring the water from the back of the hill, but not even a single drop of water trickled out of the installed pipe line due to unexplicable reasons. Thereafter the Brahmins were consulted. According to them, water could be brought in the town only on the condition of sacrifice of the life of any one of the royal family i.e. either of Raja or Rani or their sons. The Rani volunteered for her sacrifice. The Rani was buried alive, then the water began to flow. Afterwards in memory of her devotion, Raja erected a small shrine. Annually a mela is held from 15th Chaitra to 1st Baisakh at this small shrine of the Rani where the people present their offerings of flowers and sing songs in the praise of Rani.

Lakshmi Narayan Temple: The Lakshmi Narayan temple is a prominent temple in the complex of Chamba town. In the premises of this temple, there are three Vishnu and three Shiva temples. According to a legend popular in the area, Raja Sahil Varman sent his nine sons in Vindhya mountain to bring a block of marble for carving out a statue of Vishnu. The block was brought. But on cutting the slab it was found that it contained a frog and as such it was considered unsuitable for the purpose. Therefore this block was used for making some small idols. The young princes were again sent to bring another block

but they were killed in an encounter with the robbers on their way back. Then Raja Sahil Varman sent his eldest son Yugakar, who killed the robbers with the help of some Sanjossi Gosain and returned with the block of marble by which the image of Vishnu was made.

The temple is 65 feet high. It is a fine group of ancient stone temples with tall vimanas, dedicated to both Shiva and Vishnu, dating from 8 AD. The richly carved Lakshmi Narayan temple is the oldest structure in this group.

Hari Rai Temple: The Hari Rai temple located near the Chaugan dates back to 11th century and is noted for its exquisite bronze image of Chaturmurti - the four armed Vishnu. This ancient temple is a beautiful sample of stone carving. It was erected by Asata Varman.

Chamunda Temple: This temple, dedicated to goddess Chamunda, is noted for its fine wood carving. It is situated in the east of Chamba town at a distance of about 1 Km. on a high hill from where one can see a panoramic view of Chamba town and river Ravi.

Other evidence of Chamba's rich past are to be found in the Bhuri Singh Museum, with its collection of exquisite miniatures from the Kangra, Basholi and Chamba schools of paintings as well as murals and artifacts from the Rang Mahal Palace.

Chaugan: Chaugan a grassy meadow forms the heart of the town - the centre of its cultural activities. Each year in July/August, the Minjar fair is held here when gods and goddesses are brought from their mountain homes with the sound of drums and music, to pay homage to Lord Raghuvira. During the week-long harvest fair, the Chaugan comes alive as villagers dressed in colourful costumes celebrate with song, music and sport.

Besides the above mentioned temples, there are also some other temples and places of interest for the tourists around Chamba town some of these are :-

Katasan Devi Temple: A popular place of pilgrimage, the temple has a beautiful view of Chamba valley. It is located at a distance of 30 kms. from Chamba town.

Jhamwa: Located at a distance of 10 kms. from Chamba town, Jhamwa is known for its beautiful apple orchards, surrounded by dense forests.

Sarol: Sarol is an interesting place for picnics at a distance of 11 kms. from Chamba town. Besides its lovely landscaped gardens it has an apiary and a sheep breeding centre.

Saho: Situated on a high plateau, Saho is famous for the temple of Lord Chandrashekhar- Lord Shiva with his moon crow. The temple is located on the bank of river Sal at a distance of 20 kms. from Chamba town.

Saluni: Located at a distance of 56 Kms. from Chamba town, Saluni presents breathtaking views of the snow-capped mountain ranges.

Bhandal Valley: Beautiful Bhandal Valley is known for its rich wildlife. It is located at a distance of 22 Kms. from Saluni.

Brahmaur: It is the headquarters of Brahmaur Tahsil. Brahmaur is 65 kms. from Chamba along with an attractive hillroad that follows the river Ravi for much of its route. Brahmaur is the base for the famous Manimahesh Yatra and for various marvelous treks in the region. Capital of Chamba State for over 400 years, Brahmaur dates back to the rule of King Meru Varman (680 AD - 700 AD). It is located at an

altitude of 2,195 metres from mean sea level. Brahmaur is a little fascinating village surrounded by high ranges, its ancient temples endow it with the aura of a hallowed place. The region is also home of the semi-nomadic Gaddis - the shepherds of the area. Life in Brahmaur centres around the temple square the Chaurasia, which owes its name to the 84 shrines built within its periphery. The beautiful shikara of Manimahesh temple dominates the square. A life size image of Nandi in polished brass stands before it. Places of tourist's interest around Brahmaur are :

Manimahesh: It is an important place of pilgrimage located at a distance of 35 kms. from Brahmaur. The towering, solitary peak of Manimahesh Kailash (5,656 metres) mirrored in the still waters of a little lake in its foot steps, presents an awe inspiring stark grandeur. People from Himachal Pradesh and adjoining states visit Manimahesh in the month of August/September for the main pilgrimage yatra.

Chhatrari: Located at a distance of 40 Kms. from Brahmaur, at Chhatrari, there is a temple of Shakti Devi. It is considered of great archaeological importance.

Kugti: The last inhabited village of Brahmaur, Kugti has a little forest rest house, overlooking splendid forests of conifer and the famous temple of Keylong Wazir is located at a distance of 2 Kms. from Kugti.

Dalhousie: Dalhousie established in 1858 by the British Governor General Lord Dalhousie, is today a small hill station that still retains much of its charm. It is situated at a distance of 56 kms. from Chamba town at an altitude of 2,039 metres from mean sea level. Its marvelous forests of deodar and oak overlook vistas of wooded hills, water falls, springs and rivulets. There are also magnificent views of Chamba valley and the mighty Dhauladhar range with its awe-inspiring snow covered peaks filling an entire horizon. Dalhousie still has a touch of the 'Raj' about it and its colonial style buildings and houses bring back the flavour of earlier era. A veneer of Tibetan culture has added a touch of the exotic to this serene resort and along road-sides is huge rock carved in low relief and painted in Tibetan style. Around Dalhousie there are a number of places of tourist's interest:-

Kalatope: At a distance of 8.5 kms. from Dalhousie, Kalatope is known for its little wild life sanctuary and scenic splendour.

Khajjar: A picturesque spot with an emerald saucer shaped meadow set amidst a dense deodar forest, it has a lake at its centre with a floating island, a forest rest house, a little temple with a golden spire and a golf course. Khajjar is located at a distance of 22 kms. from Dalhousie.

Bara Pathar: Set amidst thick forests is the small temple of Bhulwani Mata, in the village of Ahla on the way to Kalatope. A fair is celebrated in July to venerate the goddess. Bara Pathar is located at a distance of 4 kms. from Dalhousie.

Pangi Valley: Located at a distance of 137 kms. north-east of Chamba is the wild and beautiful Pangi Valley. The valley is noted for its beautiful people and their colourful folk dances. Extremely remote Kilar is the sub-divisional headquarters of Pangi sub-division. From Kilar, located in the deep gorge of the Chenab, there are exciting treks to Keylong, Mandi and to Kishtwar in Jammu & Kashmir.

Tisa: It is the headquarters of Chaurah Tahsil and is about 69 kms. from Chamba. There is a temple of Chamunda Devi in the village. The Devi has eight arms and rides on lion. Tisagarh Jatar is held here every year in the month of August/September for four days. Bhanjraru, a nearby village has grown into official colony.

Besides the above mentioned places of historical and tourist interest, there are a number of other small but locally well known temples and places of tourist interest in the district like - Dain Kund, Banikhet, Ghatsani, Chuari Khas Jot, Taragarh, Jummhar, Mani Masrood, Kidi, Kihar, Ranikot, Tilmil, Pani, Surgani, Brahmani Devi, Lamba Dal, Trilochan Mahadev, Hidimba and Jalpa temple of Mehla, Banni Bhagwati Kelong temple of Kugti, Shah Majar Ka Takia etc.

(ix) Major Characteristics of the District:

Chamba district is full of interest to Archaeologists, Sociologists, Anthropologists and Scholars. Agriculture, Horticulture and Animal Husbandry plays an important role in the economic condition of the majority of population in the district. Chamba is famous for the magnificence of its scenery, sparkling streams, lakes, meadows and lush green forest of deodar. The district is rich in wildlife. A splendid artistic heritage of the district includes fine temple architecture, beautiful miniature paintings and exquisite embroidered Chamba rumals. Chamba's scenic beauty makes it an ideal holiday retreat for tourists. Chamba district is full of fairs and festivals. Another attraction is the Bhuri Singh Museum, which is a rich-store of Chamba's cultural heritage and house an excellent collection of paintings. Manimahesh lake is the famous religious place in the district. Dalhousie, Chamba, Khajiar are important tourist places. Chamba is known for Chamba footwears. All the important places are linked with motorable road. The commonly spoken language is Chambeali and western Pahari. In urban areas, Hindi, Urdu and Punjabi are commonly spoken by all. Of all the fairs of Chamba district, Minjar fair is the most popular. Several dishes are prepared during the festival season. Maize and wheat are the staple food of the people. In the construction of the houses, timber and dressed stones are used in great quantity due to its easy availability.

People: The population of Chamba district is predominantly Hindus and next come the Mohammadans followed by the Sikhs. The Jains and the Christians constitute a negligible proportion of the district population. Some portion of the original inhabitants has come from the plains of Punjab. Among the Hindus, mention may be made of Rajputs, Kanets, and Brahmins etc. Many of the Rajputs are most probably the descendants of the invaders from the plains. Numerically they constitute a small community. Rajputs occupied a prominent position in the state before its integration with Himachal Pradesh in 1948. They are known as Mian's, Thakur's, Jagirdar's, Rathi's and Rana's. Brahmins mostly migrated to the area in the early period of the history as priests and religious devotees. The Gaddi Brahmins profess that their ancestors came from Delhi to Brahmaur during the time of Raja Ajay Varman A.D. 780-800. Rajputs and Kanets though originally two distinct communities, but, with the passage of time have become one through common customs, habits and marital relations. Besides, Scheduled Castes which are mainly Koli's, Dumna's, Lohar's, Badhi's are also found all over the district. In addition, the Scheduled Tribes mainly consisting of Gujjar's and Gaddi's are also found in the district.

Gaddi: The Gaddis are a separate community. The term Gaddi is a generic name. Brahmins, Rajputs, Khattris, Thakurs and Rathis are covered under this term. They are found mostly in Brahmaur, Pangi Tahsils, Holi and Sihunta sub-Tahsils of the district. It is believed that Gaddi community originally belonged to the plains. Due to religious atrocities during the regime of Aurangzeb, the Mughal Emperor, they migrated to Brahmaur. There is a local saying "Ujjaria Lahore te basiya Brahmaur" which means that Brahmaur was populated by persons who ran away from Lahore.

Gujjars: A limited number of Gujjar families residing in the district are permanent inhabitants and are found in Chaurah, Chamba and Bhattiyat Tahsils and Saluni sub-Tahsil. Some of the Gujjars also migrated to the district who come during summer to graze their cattle on high pastures and move down to the plains before winter. Their main occupation is rearing of cattle. The marriages are restricted within their own community and they are mostly uneducated.

Pangwalas: They also fall under the category of Scheduled Tribes. They generally live within Pangri Tahsil in the parganas of Kilar, Sach and Dharwas and are mainly engaged in agricultural activities. Bhots, another Scheduled Tribes community, are also found in Pangri Tahsil and are mainly residing in the upper reaches of the Tahsil.

Language: The language commonly spoken in the district is western Pahari in 5 distinct dialects. Of these, Chambeali is spoken in Chamba town and its neighbourhood over a considerable area extending to the whole of Chamba Tahsil. Gaddi or Brahmauri is being spoken in the upper Ravi valley comprising of Brahmaur Tahsil. Bhattiyali is the dialect of Bhattiyat Tahsil and Sihunta sub-Tahsil and Chaurahi is being spoken in Chaurah Tahsil and Saluni sub-Tahsil and some villages of Chamba Tahsil. Pangwali is being spoken in the Pangri Tahsil except a few villages where the inhabitants are Bhots, who speak a language which is overwhelmingly akin to Tibetans. Chambeali, in modified form, is the only dialect used in writing, but, is less in use now. During the state period, all the official business with the parganas used to be conducted in Tankri script using Chambeali. But with the spread of modern education, techniques and electronic gadgets, the use of Tankri has totally been extinguished. English and Hindi has become the official as well as business language. Use of computers, lap-tops and inter-net services is spreading rapidly. In the urban areas, Hindi, Urdu and Punjabi is commonly spoken by all. The persons displaced from Parachinar now in Pakistan speak Pashto which is confined to their own community. During the regime of Rajas the Tankri script which is believed to have been derived from the Sharada script was much in use. For a number of years, Urdu in the Arabic script was the court language in Chamba. But after the independence English and Hindi have become the official languages.

Housing and Furniture: In the urban areas of Chamba and Dalhousie, most of the houses are of common design, made of dressed stones and wood. In the construction of the houses, timber is used in great quantity due to its easy availability. The houses are generally two to three storeyed buildings with separate kitchen and cowshed. The design of the houses is not uniform. The design of the house depends upon the location of site. In the rural areas, majority of the houses are single storeyed, but in the high hills some of them are two/three storeyed. In single storeyed houses, roofs are generally flat, made of shingles on which clay is spread and is pressed hard. The walls of the houses are generally built of stone and wood. Timber mainly comprising of Tauni and Kail and occasionally Deodar is also used. Doors are made of kail. In most of the houses provision of ventilation and light is very limited. Generally, the shape of the houses is square or rectangular. With the opening of roads and availability of raw material, the construction of houses has also undergone a tremendous change. Concrete buildings are replacing the traditional style of construction. In comparison of old fashioned houses people prefer to build their houses in modern style of architecture. Now well to-do families have started the construction of houses where provision of light and ventilation is properly made. In addition, facilities of separate kitchen, bath and toilet is also ensured.

Slowly and steadily modern furniture is making in-roads to many houses in the rural areas. Though charpai, mats of paddy straws, kharchas and asans are still common items of household furniture in the interior but at the time of replacement of the old one preference goes for modern furniture. Two or three wooden boxes or steel trunks are commonly found in each house for keeping valuable articles and clothes. These items of furniture are being replaced and the use of table, chair and modern cots are being found in the houses of persons particularly belonging to the service class or economically better placed families. Household utensils which were mainly of brass and bronze firstly replaced by aluminium utensils and afterwards steel ware replaced almost all the traditional utensils. With the availability of electricity facilities in the rural areas as well as shortage of fuel wood the use of heaters for heating as well as for cooking purposes is becoming popular. L.P.G. is also used extensively for cooking purposes in urban and rural areas of the district. Radios and transistors which were found with a few people 20 years back are now, with the introduction of FM facility, most commonly seen in the villages. With the strengthening of communication network almost every household now has possessed television set.

Mobile phone has become handy to majority of the members of the households. Computers and laptops are still confined to major urban centres.

Food & Dress: Maize and wheat are the staple food of the people. They also take rice occasionally. It is also being commonly used in Chamba and Bhattiyat Tahsils, where it is grown in abundance. In Brahmaur and Pangi Tahsils, Cheena and inferior types of millets are used. Villagers take butter, milk and are very fond of curry. Mustard oil is used for the preparation of vegetables but on ceremonial occasions ghee is used. In Pangi and Brahmaur Tahsils which remain under snow for about 6 months, people consume liquor locally distilled. Many women also drink though not in the public as a rule. The common man can not afford but include meat in his diet except on special occasions. With the passage of time Desi Ghee is being replaced by hydrogenated vegetable oils and use of tea is also becoming popular. The food is generally taken four times a day i.e. Nawari which corresponds to the breakfast and consiS Ts of chapatti taken with sag or chhach. Kalwar is akin to lunch and consiS Ts of maize or wheat chapattis taken with vegetable or lassi. Arehni which is taken in the afternoon resembles with kalwar. Biali corresponds to the dinner and consiS Ts of rice or wheat/maize chapattis taken with dal or vegetable. With the opening of free market packed food items, latest varieties of readymade clothes and garments and footwears are easily available in urban as well as predominant rural markets of the district.

Mostly woollen garments are worn. Cotton turban, home spun and locally woven patti pyjama and coat is the typical dress of the Chamba people. A change in the traditional dress has been noticed both in the rural and urban areas. 'Patti pyjamas' and coats are being replaced by trousers and bushirts. Women wear 'kurta' or Panjabi 'kameez' and 'salwar'. They put on nylon or other synthetic cloth 'dupatta' called 'chadru'. In the areas of Brahmaur, Chaurah Tahsils and Saluni sub-Tahsil, people mostly wear woollen coats. Men use the chola and the 'dora'. The common head dress of the Chaurah and Pangi women is 'joji'. Cotton or synthetic colourful shirts and woollen 'pattu' tied with a cotton piece around the waist are the important items of dress for Chaurah women. In Pangi Tahsil, women put on black woollen 'churidar pyjama cholan', 'kameri', a full size shirt, 'joji' or 'chadru'. On festive occasions people put on new clothes and are heavily loaded with ornaments.

Contribution of the District: Tourism is the single largest important industry in Himachal Pradesh and Chamba is one of the districts which by and large attract tourists from varied places of the country as well as of foreign lands. Chamba with its sparkling streams, meadows and lush green forests of deodar, is considered as one of the most beautiful valleys in Himachal Pradesh. Chamba has allowed over centuries to develop its own rich style of Pahari art and architecture, metal craft, wood and stone carving. Its folk dances (Dandaras and Ghurai), its folk songs, miniature paintings, embroidered Rumal, its Chukh (a chilly pickle) and its Chappals (footwear) all contain special appeal. Chamba is also known for splendour of its temples and its exquisite handicrafts. It is a common sight to see the Tribal Gaddi people sitting beside log-fires with friends and relatives in winter evening around Chowgan of Chamba town which take one back into vintage era. An iota of its cultural heritage is displayed in Bhuri Singh Museum for the sake of help and information to tourist. Chamba has also made its name in the list of hydro power producing districts of the state.

Chamba has also produced many distinguished personalities who have brought laurels to the state with the excellent performance in their respective fields. In the field of sports, district too has made significant contribution by producing national and international players. Sh. Virender Singh Thapa is an eminent boxer who participated in Olympic games of 1980, Asian and Common Wealth Games. He won gold medal in boxing in Asiad Games held in 1980. Another sports personality is Sh. Rajiv Nair who immensely contributed for development of the cricket in the State and participated in many league matches in India and outside the country. Number of craftspersons has received National Awards in the field of handicrafts. Smt. Maheshi Devi, Smt. Kamla Nayyar and Smt. Lalita Waqil have achieved a National Award in the field of embroidery work (Chamba Rumal), S/Sh. Parkash Chand, Sohan Singh

and Hakam Singh in the field of metal craft, Sh. Vijay Sharma in the field of painting and Sh. Mohamud Latif Malik in the field of wood carving.

(x) Scope of Village Directory and Town Directory:

Village Directory: The Village Directory is one of the traditional compilations of the census and provides

the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details. It is being compiled for both inhabited and un-inhabited villages. Facilities whether provided by the government or private institutions are presented in the village directory. This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction. The format of village directory has 121 columns. The Appendices to village directory and Inset Tables based on village directory data are also prepared and presented for inhabited villages.

Every village whether inhabited or un-inhabited has been assigned a location code number. During Census 2001 permanent location code number (PLCN) were assigned to each village. Under the system of PLCN eight digits number starting from the first village of the first Tahsil of the first district of the state ending at the last village of the last Tahsil of the last district were assigned to each village. But in Census 2011 PLCN has been replaced by Meta Data and Data Standard (MDDS) system. Under MDDS the location code number, name and area of the village is being given universally in village directory and village PCA. Now the villages of the state of Himachal Pradesh will be starting with R.F.Luj the first village of the first Tahsil of the first district of the state which has assigned 006673 six digits number MDDS code and ending with Dhar Chaling Gaarh the last village of last Tahsil of the last district of the state with 027373 MDDS code number.

In addition to name of village, location code number, area, total population and number of households the information regarding availability of different infrastructural amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, recreation and cultural facilities, communication, power, etc. in each village have been given in the village directory and in case where the amenities are not available in the village, the distance range code viz; 'a' for <5 Kms., 'b' for 5-10 Kms. and 'c' for 10+ Kms. of the nearest place where the facility is available has also been provided.

Town Directory: The Town Directory is presented for each town in the district covering different aspects of urban life. Seven statements (I to VII) have been included for presentation of this data. Statement-I contain the information for Status and Growth of the town, Statement –II presents the Physical Aspects and Location, Statement –III gives the information for Civic and other Amenities, Statement-IV Medical Facility, Statement-V narrates Educational, Recreational and Cultural Facilities, Statement-VI depicts the information for Industry and Banking whereas Statement –VII shows Civic and other Amenities in Slums for 2009. It covers all the towns in the district statutorily notified as well as non-municipal towns. All the towns in the district are arranged in alphabetical order. The data collected in these statements have largely been furnished by the municipal bodies. For non-municipal towns, the cantonment executive officers supplied the information

Village and Town Directory

Brief Note on Village and Town Directory

Village Directory Census 2011:

The Village Directory is being compiled for both inhabited and un-inhabited villages. In the village directory both private and government facilities/institutions have been given. In case of un-inhabited /depopulated villages, the location code number, name and area of the village is being given universally in Village Directory and Village PCA. The columns relating to the amenities and land use pattern, etc. being left blank and it will be noted against the name of the village that it is un-inhabited/depopulated. The Appendices to Village Directory and Inset Tables based on village Directory data are also prepared for inhabited villages.

In the Village Directory format for Census 2011 there are 121 columns and the details thereon are as follows:

Column 1: Serial Number: Self-explanatory. All the villages within the C.D. block are presented serially in the ascending order of their location code number.

Columns 2: Name of village: Self-explanatory. The name of the villages is shown against this column. This also includes the forest and uninhabited villages.

Column 3: Location Code Number of village. The location code number of the villages is shown against this column.

Column 4: Area of the Village: The area of the villages has been given in hectares.

Column 5: Total Population: The total population of the village as per Census 2011 has been given against this column.

Column 6: Number of Households: The number of households as per Census 2011 has been given in this column.

Amenities: The availability of different infrastructural amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, recreation and cultural facilities, communication, power, etc. in each village have been given in the Village Directory. Wherever the amenities are not available in the village, the distance range code viz; 'a' for <5 Kms, 'b' for 5-10 Kms and 'c' for 10+ Kms of the nearest where facility is available is given. Column wise details are given below:

Columns No. 7–20 Educational Facilities: All the different educational facilities available in the village have been given under these columns. Nursery/LKG//UKG classes are included in Pre-Primary Schools, Classes up to class V included in Primary School; Classes from VI to VIII are included in the Middle school. Classes from IX and X included in Secondary School. Classes from XI and XII are included in Senior Secondary School. In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively. The information on the entire educational institutes is given under these columns.

Columns No. 21 to 38 -Medical Facilities: All the different medical facilities available in the village have been given under these columns.

Columns No. 39 to 46 -Drinking Water: The information on availability of various types of the drinking water facility within the village has been given under these columns.

Columns No. 47 to 50 – Availability of Toilet and others:The information on availability of toilet and Bio-Gas etc. available in the village has been given under these columns.

Columns No. 51 to 67 Communication (Post & Telegraph and transport):The information on communication and Post Office, Sub-Post Office, & Telegraph Office, Village PIN Code number, Phone-Landlines, Mobile Phone, Private Courier Facility, Internet Café, etc; available in the village has been given under these columns. The information on all various transport facilities whether public/private transport like Bus, Railway Station, or Navigable waterways, Taxi , Van, Tractors etc. available in the village has also been given under these columns.

Columns No.68 to 79 – Village connected to High ways, Village Roads, Banks and Credit Societies: The information on all roads connected to village has been given under these columns. These include National Highway, State Highway, District Roads and other district roads connected to the village, Pucca roads, Kutchcha Roads, Water Bounded Macadam Roads, Navigable Water Ways and Foot Paths has been given under these columns. Further, the information on availability of banks, ATM and Agricultural Credit societies in the village has been given under these columns.

Column No. 80 to 96 Miscellaneous Facilities: The information on various miscellaneous facilities available in the village has been given under these columns. These includes Self -Help Group, Public Distribution Shop (PDS), Mandi /Regular Market, Weekly Haat, Agricultural Marketing Society, Nutrition Centre(IC.D.S),Anganwadi Centre, ASHA, Community Centre, Sports Fields, Sports Club/Recreation Centre, Cinema/Video Halls, Public Library, Public Reading Room, News Paper Supply, Assembly Polling Station, Birth and Death Registration Office.

Columns No. 97 to 100 Electricity: Availability of Power Supply in the village, whatever may be the form of its use has been given in these columns. These include Electricity for Domestic Use, Electricity for Agriculture Use Electricity for Commercial Use, and Electricity for all purpose Domestic Uses.

Column No. 101 and 102 Nearest Town:The name of the nearest town along with the distance range code has been in these columns.

Land use and Irrigation: The land use pattern in the Village Directory conform to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the following 9 categories.

(i)-Column No. 103 -Forests: This includes all lands classed as forest under any legal enactment dealing with forests or administered as forests, whether state-owned or private, and whether wooded or maintained as potential forest land. The area of crops raised in the forest and grazing lands or areas open for grazing within the forests remain included under the forest area.

(ii)-Column No. 104- Area under non-agricultural use:This includes all lands occupied by buildings, roads and railways or under water, e.g. rivers and canals and other lands put to uses other than agriculture.

(iii)-Columns No. 105- Barren and un-culturable land:This includes all barren and unculturable land like mountains, deserts, etc. Land which cannot be brought under cultivation except at an exorbitant cost should be classed as unculturable whether such land is in isolated blocks or within cultivated holdings.

(iv)-Column No. 106- Permanent Pastures and other Grazing Lands:This includes all grazing lands whether they are permanent pastures and meadows or not. Village common grazing land is included under this head.

(v)-Column No. 107- Land under Miscellaneous Tree Crops, etc.: This includes all cultivable land which is not included in 'Net area sown' but is put to some agricultural uses. Lands under Causing trees, thatching grasses, bamboo bushes and other groves for fuel, etc. which are not included under 'Orchards' are classed under this category.

(vi)-Column No. 108- Culturable Waste Land: This includes lands available for cultivation, whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years or more in succession for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category at the end of the five years.

(vii)-Column No. 109- Fallow Lands other than Current Fallows: This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years.

(viii)-Column No. 110- Current Fallows: This represents cropped area, which is kept fallow during the current year. For example, if any seeding area is not cropped against the same year it may be treated as current fallow.

(ix)-Column No. 111- Net Area Sown: This represents the total area sown with crops and orchards. Area sown more than once; in the same year is counted only once.

Column No. 112- Total Irrigated Land Area: It includes all land which is cultivable and irrigated by any source of irrigation. The total irrigated area of the village has been given under this column.

Column No. 113- Total Un-Irrigated land Area: Un-Irrigated area includes all land which is cultivable but not irrigated by any source of irrigation. The total un-irrigated land area of the village has been given under this column.

Column No. 114 to 118 Area Irrigated by source: The area irrigated by various source of irrigation in the village have been given under these columns. The different source of irrigation facilities available in the village are as follows:

(i)-Canals(C)-Govt. or Pvt., (ii)-Wells/Tube-wells (W/TW), (iii)-Tanks/Lake(T/L), (iv)-Waterfall,(WF) and (v)-Others(O).

Columns No.119 to 121-Three most important commodities manufactured:The names of three most important commodities manufactured in the village are indicated in this column.

C.D.Block level totals of the Village Directory:

At the end of entries for the Village Directory of each C.D. Block, the totals of different columns are being given wherever possible. However, in case of some of the columns, it may not be possible to work out the C.D. Block level totals, in such cases the particular of relevant columns are being left blank against C.D.Block level.

Appendices to Village Directory: The Village Directory also includes the following appendices:

Appendix –I: Summary showing total number of villages having Educational, Medical and other amenities in villages – C.D. Block level.

Appendix-I A: Villages by number of Primary Schools.

Appendix-I B: Villages by Primary, Middle and Secondary Schools.

Appendix-I C: Villages with different sources of drinking water facilities available.

Appendix-II: Villages with 5,000 and above population which do not have one or more amenities available.

Appendix-III: Land utilization data in respect of Census towns.

Appendix-IV: C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V: Summary showing number of Villages not having Scheduled Castes population.

Appendix-VI: Summary showing number of Villages not having Scheduled Tribes population.

Appendix-VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix-VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Note explaining the abbreviations used in Town Directory Census 2011:-

Statement-I : Status and Growth History:

Column 1: Serial Number:- Self explanatory

Column 2: Class, Name and civic status of town:- The Class is presented according to population of the towns in Census 2011 as follows:

Population	Class	Population	Class
100,000 and above	I	10,000 – 19,999	IV
50,000 – 99,999	II	5,000 – 9,999	V
20,000 – 49,999	III	Below - 5,000	VI

The following abbreviations are used to denote the Civic Status of the town.

Civic Status	Codes	Civic Status	Codes
i-Municipal Corporation	M.Corp.	xii – Notified Town Area	NTA
ii-Municipal Committee	MC	xiii – Industrial Notified Area	INA
iii-Municipal Council	M Cl	xiv – Industrial Township	ITS
iv-City Municipal Council	CMC	xv – Township	TS
v-Town Municipal Council	TMC	xvi – Town Panchayat	TP
vi- Municipal Board	MB	xvii – Nagar Panchayat	NP
Vii –Municipality	M	xviii – Town Committee/ Town Area Committee	TC
viii-Cantonment Board/Cantonment	CB	xix – Small Town Committee	ST
ix- Notified Area	NA	xx – Estate Office	EO
x –Notified Town	NT	xxi –Gram Panchayat	GP
xi-Notified Area Committee/ Notified Area Council	NAC	xxii – Census Town	CT

Columns 3-25: These columns are self-explanatory

Statement-II Physical Aspects and Location of town, 2009:

Columns 1-2 Serial number and Name of town: Self explanatory

Columns 3to5 - Physical Aspects: In these columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Columns 6 to 12: Name and road distance of the town (in kms.) from the State headquarters, District headquarters, Sub-divisional/Taluk/Tahsil/ Police station/Development Block/Island HQ., Nearest city with population of one lakh and more, Nearest city with population of five lakh and more, Railway station and Bus route is recorded in these columns, respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Statement- III Civic and other Amenities, 2009:

Columns 1 - 2 Serial number and Name of town: Self explanatory

Column 3 – Road length (in km.): The information about the road length (in km.) within the limit of the town is recorded in this column.

Columns 4 to 7- System of drainage: The system of drainage available in the town is indicated in these columns by the following codes:

<u>System of drainage</u>	<u>Codes</u>
Open drains	OD
Closed drains	C.D.
Both drains	BD

Columns 8 to 11-Number of latrines: The number of various types of latrines available in the town is indicated in these columns.

Columns No. 12 & 13 – Protected water supply: The information on source of water supply and system of water storage with capacity available in the town are given in these columns in the following codes:

Column 12 (Source of water supply):

Tap water	T
Tube-well water	TW
Tank Water	TK
Well water	W

Column 13 (System of water storage):-

Over Head Tank	OHT
Service Reservoir	SR
River Infiltration Gallery	RIG
Bore Well Pumping System	BWP
Pressure Tank	PT

The information on 2 major source of water supply is given in column 12 and the system of water storage with capacity against each in kilo-litres (in bracket) is presented in column 13.

Columns 14 Fire Fighting Service: In case the fire fighting service is available in the referent town, 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Columns 15 to 19- Electrification (Number of connections): Different types of electric connections have been shown in these columns, i.e., Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement- IV: Medical Facilities, 2009:

Columns 1 - 2 Serial number and Name of town: Self explanatory

Columns 3 to 13 :The number of various medical institutions such as Hospitals, Dispensaries, Health Center, Family Welfare Center, Maternity and Child Welfare Center, Maternity Homes, T.B. Hospital/clinic, Nursing Homes, Charitable Hospital/Nursing Home, Mobile Health Clinic and Others as available in the town, are indicated in these columns (along with number of beds in brackets).

If a medical facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Column 14 - Veterinary Hospital:The Number of Veterinary Hospitals available in the town is given in this column.

Column 15 - Medicine Shop:The number of Medicine shops available in the town is given in this column.

Statement-V: Educational, Recreational and Cultural Facilities, 2009:

Columns 1 - 2 Serial number and Name of town: Self explanatory

Columns 3 to 15 Educational Facilities: The information on number of Primary school, Middle school, Secondary school, Senior Secondary school, Arts/Science/ Commerce colleges (of degree level and above), Medical colleges, Engineering colleges, Management Institute/Colleges, Polytechnics, Recognized Shorthand, Typewriting and vocational training Institutions, Non-formal Education Center (Sarva Shiksha Abhiyan Center), Special School for disabled and Others available in the town, are indicated in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Columns 16 to 23 – Number of Social, Recreational and Culture Facilities : The information on No. of Home Orphanage, Working women's hostels (with No. of seats in bracket), No. of Old Age Home, Stadium, Cinema Theatre, Auditorium/Community halls, Public libraries and Reading rooms available in the town are given under these column.

Statement-VI: Industry and Banking 2009:

Columns 1 - 2 Serial number and Name of town: Self explanatory

Columns 3 to 5 - Names of three most important commodities manufactured:The names of three most important commodities manufactured in the town are given under these columns.

Columns 6 to 8 - Number of banks: The number of banks available in the referent town both Commercial and Co-operative banks are recorded against these columns.

Columns 9 & 10 – Number of Agricultural and Non Agricultural Credit Societies: The number of Agricultural and Non Agricultural Credit Societies available in the referent town are given in these columns.

Statement-VII: Civic and other Amenities in Slums, 2009:

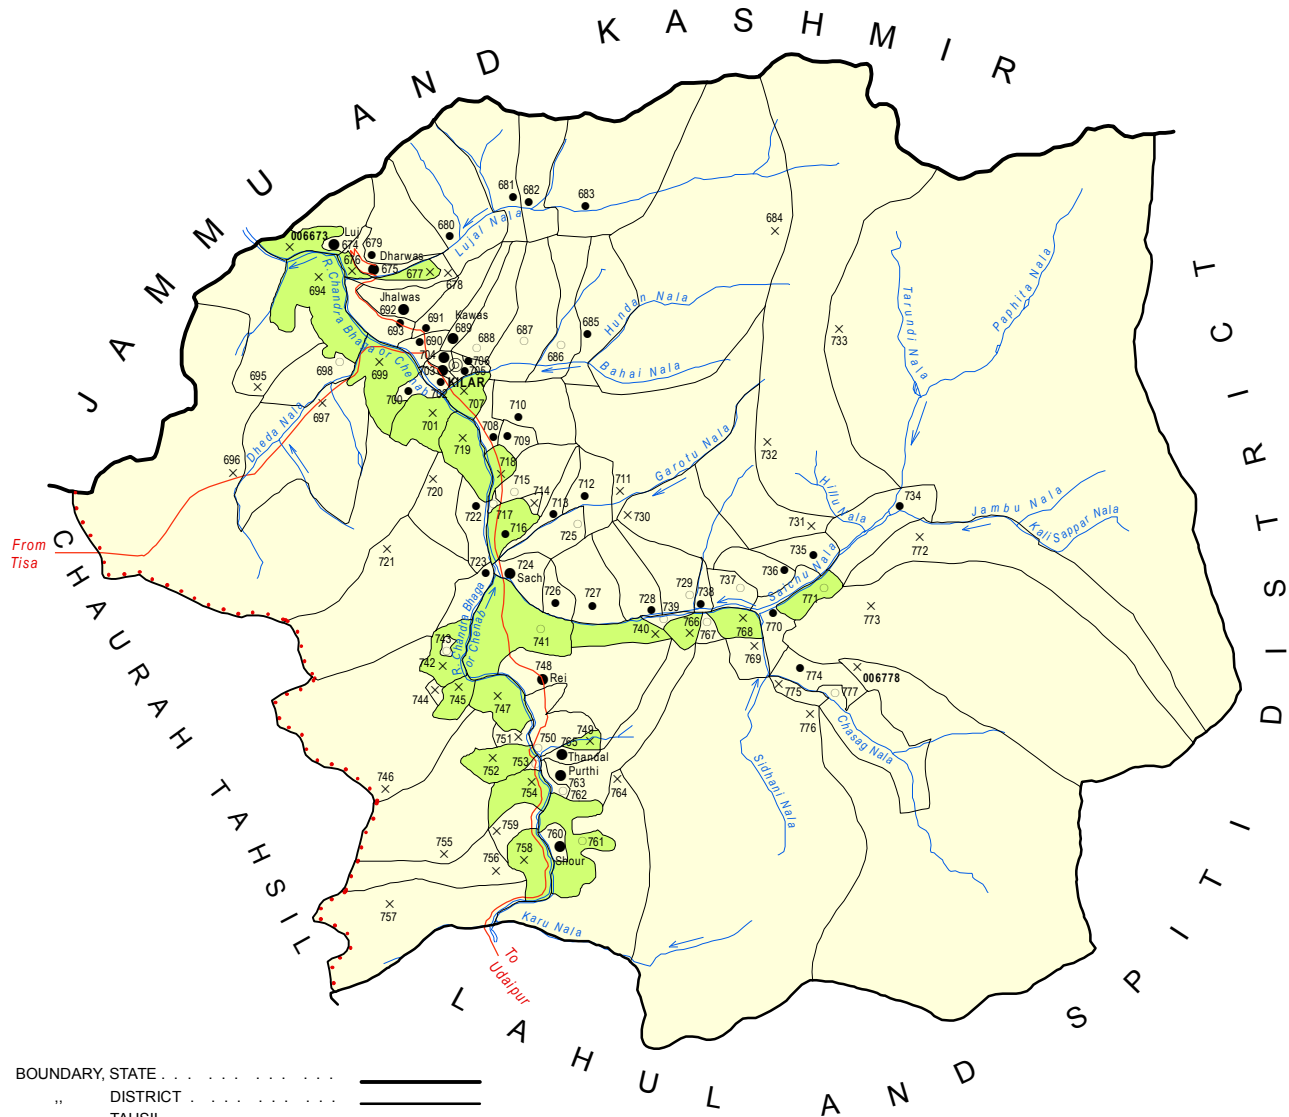

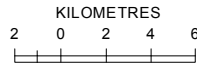

This statement VII provides information on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

SECTION-I VILLAGE DIRECTORY

(a) **List of villages merged in towns and outgrowth at Census 2011:**

During the decade of 2001-2011 no village was merged in any town and no outgrowth was reported in Chamba district.

(c) Appendices to village directory

Appendix-I

Appendix I of the Village Directory depicts C.D. block-wise abstract of educational, medical, drinking water, post & telegraph, transport, banks, credit societies, recreation facility, miscellaneous and power supply available in the 1,110 total inhabited villages. Out of total 1,110 inhabited villages in the district, 139 villages have the facility of pre-primary school, 849 villages have primary schools, 414 villages have middle school, 185 secondary school and 109 villages have senior secondary schools. There are 10 villages in the district having college facility providing education of graduate and above level. One village each has non-formal training centre and special school for disabled persons. 2 villages have polytechnic, 3 have vocational training school/ITI. Of the total inhabited villages, 237 villages are such which do not have any type of educational institution and students of these villages have to go out of their village to avail the service. The highest number of villages without any educational institution is located in Bhattiyat (81) C.D. block and is followed by Saluni (77), Tisa (40), Pangi (11), Mehla (10) and Chamba and Brahmaur C.D. block has 9 each where no education facilities exist.

As regards the medical facilities are concerned there are 12 hospitals (allopathic) in the district of which 4 are in Saluni C.D. block, 3 are in Tisa, 2 in Bhattiyat and one each in Pangi, Mehla and Brahmaur C.D. block. Chamba C.D. block is deprived of this facility. So far as the facility of hospital (alternative medicine) is concerned 2 villages each in Saluni and Mehla and one village each in Pangi, Chamba and Brahmaur C.D. block have this facility. Chamba district has 50 primary health centre, 59 primary health sub-centre, 42 maternity and child welfare centre and 3 TB clinics. Out of 176 dispensaries in the district Bhattiyat C.D. block has the highest number of 39 villages followed by Saluni (31), Brahmaur (30), Mehla (24), Chamba (23), Tisa (18) and Pangi with 11 villages is at the bottom, whereas 120 veterinary hospital are divided in to 29 villages of Brahmaur C.D. block, 27 Bhattiyat, 21 Mehla, 13 each villages of Saluni and Chamba block, 10 of Pangi and 7 villages of Tisa C.D. block. In all 24 villages have family welfare centre, 58 villages have medical practitioner with MBBS degree and 41 villages have medical practitioner with other degree whereas 84 shops cater the needs of medicine in the district. There are 789 villages in Chamba district which do not have any type of medical facility available to them. Of these 789 villages 236 villages fall in Bhattiyat C.D. block followed by 180 in Saluni, 130 Tisa, 82 Mehla, 69 Chamba, 47 in Brahmaur C.D. block and with 45 villages Pangi C.D. block is at the bottom of the list. Most important source of drinking water is tap and out of total 1,110 inhabited villages tap water is available to 1,107 villages. Other important source of drinking water is springs which also provide the drinking water to 258 villages. There is no such village in the district which does not possess any type of drinking water facility.

Post office and sub-post office facility is available to 269 and 206 villages respectively, post and telegraph offices facility to 29 villages and phone (land lines) facility is available to 481 villages besides mobile phone coverage to 863 villages. 483 villages have pucca road and 574 inhabited villages have bus service in the villages. As regard banking services, it is available with in 72 villages and the facility of ATM is available in 86 villages. Public distribution system (PDS) shops are located in 387 villages. Cent per cent villages of the district enjoy the facility of power supply. There are 86 villages which have agricultural credit societies in the village itself. Only 2 village have cinema/video hall and 285 villages have the availability of news paper.

Appendix- IA

Appendix- IA deals with C.D. block-wise villages by number of primary schools. There are 261 villages in the district which are devoid of any primary school facility. Highest number of 88 villages fall in Bhattiyat C.D. block followed by 82 villages in Saluni, 41 in Tisa, 21 in Pangi, 10 each in Chamba and Mehla and lastly 9 villages in Brahmaur C.D. block. 681 villages in the district have one primary school each in the village. In the case of villages with 2 schools each, there are 135 villages fall in this

category of schools whereas 24 villages fall in the category of having three schools each. There are only 9 village having four + primary schools in the village. Chamba and Mehla blocks have 8 villages each whereas Brahmaur C.D. block has 4 villages having three primary schools each. In the category of villages having two primary schools each Chamba and Bhattiyat C.D. blocks have the highest number of 35 villages each followed by Mehla 27, Brahmaur 24, Saluni 4 and Tisa 6.

Appendix I-B

Appendix I-B depicts information regarding availability of different types of educational institutions. There are 248 villages in the district which do not have any type of school facilities. 447 villages are having atleast one primary school and no middle school. 402 villages are having atleast one primary school along with one middle school. Similarly 179 villages are having atleast one middle school and one secondary school.

Appendix I-C

Appendix I-C deals with the villages with different sources of drinking water facilities. There are 806 villages in the entire district which have single source of water i.e. tap and 301 villages in the district are having more than one source from amongst tap, well, tubewell and handpump. Out of the 7 blocks in the district only one village of Tisa block has reported only handpump as a source of drinking water.

Appendix II

Appendix II deals with the villages having 5,000 & above population which do not have one or more amenities in the district. Since the district has no village with population of 5,000 and above, hence the data have not been compiled.

Appendix III

Appendix III deals with land utilization data in respect of Census towns. There is no census town in the district during Census 2011.

Appendix IV

Appendix IV of the Village Directory gives C.D. blockwise list of inhabited villages where no amenity other than the drinking water facility is available in the villages. In the entire district there is no such village which have no amenity other than the drinking water.

Appendix V

Appendix V of the Village Directory shows the number of villages not having Scheduled Castes population. Out of 1,591 villages in the district, 481 villages are uninhabited and rest of 1,110 villages are inhabited. Out of 1,110 inhabited villages, 335 are such which do not have any Scheduled Castes Population and 775 inhabited villages are such which have some Scheduled Castes population in the district. Bhattiyat C.D. block has largest number 117 villages without any Scheduled Castes population while in other C.D. blocks this number of village varies between 20 in Chamba and 47 villages in Brahmaur C.D. blocks.

Appendix VI

Appendix VI shows number of villages not having Scheduled Tribes population. Out of 1,110 inhabited villages there are 371 villages which are not having any Scheduled Tribes population and the remaining 739 inhabited villages are such which are having some Scheduled Tribes population. Saluni block has the highest number of 143 villages which do not have Scheduled Tribes population followed by 115 villages in Bhattiyat, 68 in Tisa, 21 Chamba, 20 in Mehla and 2 villages each in Pangi and Brahmaur C.D. blocks.

ppendix VII-A

Appendix VII-A depicts list of villages according to the proportion of Scheduled Castes to total population by ranges of such villages where Scheduled Castes population has been recorded in Census 2011. These percentage ranges are as less than 5, 5-10, 11-20, 21-30, 31-40, 41-50 and 51-75 per cent of total population of villages.

Appendix VII-B

Appendix VII-B depicts list of villages according to the proportion of Scheduled Tribes to total population by percentage ranges in the villages where Scheduled Tribes population has been recorded such as less than -5, 5-10, 11-20, 21-30, 31-40, 41-50 and 51-75 per cent.

Appendix VIII

Appendix VIII shows the number of villages under each Gram Pachayat (C.D. blockwise). This appendix could not be generated because in Himachal Pradesh a few villages fall in more than one Gram Panchayat.

SECTION- II TOWN DIRECTORY

A brief analysis of statements of Town Directory:

Statements I to VII of the Town Directory deal with the various aspects of the urban areas in the district. The information available in them is being reproduced hereunder.

Statement I

It shows the status and growth history of the town in the district. In Chamba district there are five towns. Of these, two towns have the status of Municipal Council (M CI); two towns are Cantonment Board (CB) and one having a status of Nagar Panchayat (NP). Of the 5 towns in the district, 3 towns of Bakloh CB, Chuari Khas NP and Dalhousie CB belong to class-VI towns, Chamba M CI is a class-IV and Dalhousie M CI is a class-V town. As regards town-wise growth during 1901-2001, Chamba town continued to grow gradually except the decade of 1901-1911 when its population declined by 8.0 per cent and highest increase of 37.2 per cent was recorded during 1961-71. During the current decade of 2001-2011, the population of Chamba has declined from 20,327 to 19,933 persons showing the decrease of 1.5 per cent and class of this town changed from class-III to class-IV. Bakloh CB continued to be a CB during 1901-2011 except 1951 when it was declassified and its population too has negative growth from 1911 to 1931 and again from 1961 to 1981. The highest increase of 25.4 per cent was recorded in 1931-1941 and a sharp decline of 32.3 per cent during 1961-1971. Even current decade of 2001-2011 has recorded negative growth of 0.3 per cent. Chuari Khas NP was declared as statutory town only in 1981 when its population was only 1,680 persons and since then its population has grown at high rate. The growth rate of this town is 25 per cent during 2001-2011. Dalhousie M CI was small town in 1901 with a population of 1,316 persons which rose to 7,051 persons in Census 2011. However, its population registered negative growth during 1921-1931, 1941-51 and 1971-81 but subsequent decade of 1981-91 shows staggering growth of 133.5 per cent and its classification also changed from VI to V class town. Dalhousie CB came into existence during 1931 and its population was only 852 persons which rose to 1,964 persons in Census 2001. During 2011 Census Dalhousie CB has shown a rapid growth of 80.7 per cent reflecting a population of 3,549 persons. This cantonment board also faced declassification in 1951 and subsequent decade of 1961-71 shows sharp decline in its population from 2,699 in 1961 to 827 persons in 1971 Census.

Females were excess over the males in Bakloh CB in 1991 Census but sex ratio started declining sharply after Census 2001. In 1991 the sex ratio of Bakloh CB was reported as 1,193 which declined to 805 in 2001 and 570 females per 1,000 males in 2011. Similarly sex ratio in Dalhousie CB was 1,086 females in 1991 which declined to 777 females in 2001 and 392 in Census 2011. The deficiency of females in remaining towns of Dalhousie M CI, Chuari Khas NP and Chamba M CI is gradually decreasing. The sex ratio of Chuari Khas NP is 1,021 which is above the parity line during Census 2011 and of Chamba M CI with sex ratio of 999 females is very near to touch the parity line. Among these towns Dalhousie municipal council is worst suffer where sex ratio remained below 800 females per 1,000 males during 1991-2001 and 845 in Census 2011. The density of population in Chamba town comes to 4,604 persons per sq. km. which is the highest and Bakloh CB has the lowest density of population of 694 persons per sq. Km. among the 5 towns of the district during.

Statement II

This statement reveals the physical aspects and location of each town from state, District and Sub-district headquarters. It also narrates the nearest city with a population of one lakh and more and five lakh and more along with the information about railway station and bus route. The nearest city with one lakh or above population is Pathankot which falls in Punjab state but nearer to all towns of district. The distance ranges between 53 to 122 kms. from the towns of this district. Similarly the nearest city with population of 5 lakh and above is Amritsar in Punjab state which falls within a distance of 110 to 150 kms. The towns are not linked with railway line. The nearest railway facility for Bakloh (CB) and Chuari Khas (NP) is at Jasoor and for other three towns this facility is available at Pathankot (Pb). Each town in the district is linked by different bus routes of near by states and state/district

headquarters. All towns are very far from state headquarters and Chamba town has longest distance of 430 kms.

Statement III

It relates to civic and other amenities available in towns in 2009. Out of the five towns of the district Chuari Khas NP has an open surface drains, Dalhousie CB and Bakloh CB have closed drainage whereas the towns of Dalhousie M CI and Chamba M CI have both open and closed drainage system. The local bodies are maintaining water born latrines in all the five towns in the district. Highest number of 3,513 is reported in Chamba M CI followed by 1,709 in Dalhousie M CI. Chuari Khas NP, Dalhousie CB and Bakloh CB have 372, 367, and 118 water born latrines, respectively. All the towns have the facility of protected water supply. As far as availability of fire fighting system is concerned the towns of Dalhousie CB, Dalhousie M CI, Bakloh CB and Chuari Khas has to depend on Chamba M CI as it the only town equipped with this facility. In the field of electricity Dalhousie CB has 390 domestic, one industrial, 90 commercial connections and 246 road lighting points. Dalhousie M CI has 2,128 domestic, 29 industrial, 700 commercial connections and 780 road lighting points. Bakloh CB has 312 domestic, 93 commercial connections and 86 road lighting points. Chuari Khas NP has 1,050 domestic, 364 industrial, 34 commercial connections and 227 road lighting points whereas Chamba M CI 8,353 domestic, 107 industrial, 1,887 commercial connections and 1,372 road lighting points besides 4 other type of connections.

Statement IV

This statement deals with the medical facilities available in the towns and in case this facility is not available in the town, nearest place distance from the town where facility is available has also been given. All the five towns of the district have the facility of allopathic hospital. Chamba M CI and Dalhousie M CI have two hospitals each with the facility of 290 and 70 beds, respectively. Dalhousie CB, Bakloh CB with two beds each and Chuari Khas NP with 50 beds have one each hospital. Only two towns Chuari Khas with one bed and Chamba with 54 beds have TB Clinic. Medicine shops are available in all the five towns of the district.

Statement V

It depicts the number of educational facilities available in the towns and in case where facility is not available the name of nearest place and its distance from the town where facility is available has also been given. All the five towns of the district have the facility of primary, middle and secondary schools whereas the facility of senior secondary school is concerned it is available in four towns. Dalhousie CB where this is not available has to depend on Dalhousie M CI. Higher education of degree level is available at Chamba M CI and Chuari Khas NP. Special school for disabled is available in Chuari Khas NP, stadium in Chamba M CI and cinema theatre in Dalhousie M CI only.

Statement VI

It deals with industry and banking facilities in the town in 2009. The most important items of manufactured are Chamba 'Chappal' woolen shawls, pattus, Chamba 'Rumal' grass shoes and ropes besides earthen and bamboo wares. These items are also exported out of the towns. Except Dalhousie CB nationalised and co-operative banking facilities are available in rest of the 4 towns of the district. Chamba and Chuari Khas have one agriculture credit societies each. Non-agriculture credit societies facilities are available in Chamba having nine credit societies and Chuari Khas one.

Statement VII

It deals with the amenities available in the slum areas of the town. Since, the towns of the district have no recognised or notified slums. Hence, no information is recorded in this statement.
