MOTIF

Mandi Town

The name "Mandi" (and the former name "Mandav Nagar") has its roots from Great Sage Rishi 'Mandav' who prayed in this area, and the rocks turned black due to the severity of his penance. Alternatively, the name may have been derived from the common word *mandi* which means "market" in Hindi. It may possibly be connected with the Sanskrit root *mandaptika*, meaning "an open hall or shed," District of Mandi was formed with the merger of two princely states, Mandi State and Suket State, on 15 April 1948, when the State of Himachal Pradesh was established. Until the mid 20th century, Mandi was on the trade route between Yarkant County and Ladakh to Hoshiarpur and the Indian plains, served as commercial hub and trade centre. Other attraction point in the city is Sunken Garden, which is situated on the banks of the Beas River, was earlier a garbage dump and a rundown place during the reign of Raja Sidh Sen of Mandi. It is the same site where Raja Sidh Sen killed his son-in-law Raja Prithi of Bhangal. It was initially a lake and was later transformed into a garden by Raja Joginder Sen. This garden also has a clock tower.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System (PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sh. Balbir Tegta, Director of Census Operations Himachal Pradesh. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

Preface

The Census is the biggest source of comprehensive data on demography, economic activity, literacy and education, housing and household amenities, urbanization, fertility, mortality, Scheduled Caste and Schedule Tribes, language, religion and migration at village, town and ward level. District Census Hand Book (DCHB) is series of such Census publication and is the most important district level publication which provides reliable data at grass root level for the purpose of planning, administrative requirements as well as of academic development in socio-demographic field. The DCHB contains the salient results on the data gathered at the actual enumeration of head-count and in addition contain a wealth of other non-census information in respect of each village and town of the district.

Following the Census tradition, the 2011 series of the District Census Handbooks is also comprised of two parts. Part-A contains Village and Town Directory data which provides information on infrastructural amenities and land use data at village level. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. Now DCHB 2011 will also present the newly added amenities which have been discussed in the foreword of this volume along with the information pertaining to name and location of villages, area, population, number of households, important civic amenities/ facilities available in villages like educational, medical, drinking water, post, telegraph and telephone, commercial and co-operative banks, agricultural & non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town by distance, power supply, news paper/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part-B contains village and town-wise Primary Census Abstract (PCA) along with Housing amenities data which provides information on area, number of households, sex-wise total population, child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries, other workers and special tables on Housing data in respect of each village and town of the district.

Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages, conditions of housing, assets available with households and demographic profile of population at Sub-District/C.D. Block level which are of much utility for demarcation of areas of surplus and deficit to reorient the planning process.

The District Census Handbook is a joint venture of the Government of Himachal Pradesh and the Census organisation of the Government of India. The design of 2011 District Census Handbooks is evolved centrally by the Registrar

General and Census Commissioner, India and accordingly these books have been prepared at Directorate level. The data so supplied by the field level officers have been cross checked with the data obtained from various departments and an attempt had been made to reconcile the discrepancies to make it more reliable. I am grateful to all Heads of Departments of the State Government, officers and staff engaged in the conduct of 2011 Census for their co-operation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. I owe special thanks to Dr. C. Chandramouli, I.A.S., the Registrar General and Census Commissioner, India for his enlightened guidance and encouragement. I am also thankful to Shri Deepak Rastogi, Additional Registrar General of India, Dr. A.P. Singh, Deputy Registrar General (Map), Shri P.K. Banerjee, Deputy Registrar General (C & T), Shri A.K. Samal, Additional Director, Shri M.S. Thapa, Additional Director, Dr. Pratibha Kumari, Assistant Registrar General (SS) and Shri A.K. Arora, Joint Director for providing technical guidance and finalising this report.

The 2011 Census Operations in Himachal Pradesh were carried out under the able guidance and the dynamic supervision of Shri Balbir Tegta, I.A.S., the then Director of Census Operations. I owe my deep sense of gratitude to him.

The data presented in the District Census Handbook required a concerted team work of officers and staff members of this Directorate who were involved whole heartedly at various stages of its planning, supervision, field work, and computerization, preparation of manuscript, maps and printing. I express my appreciation for the painstaking and dedicated services rendered by all of them. Special mention is made of Shri R.K. Ram, former Joint Director, Shri Ashish Chauhan, Assistant Director, Shri R.S. Negi, Assistant Director and Shri Ramesh Kumar Sharma, Statistical Investigator Gr.-II (Rtd.), Shri Narender Kumar Sharma, Sr. Compiler, Shri Ratan Kumar Lalmani, Statistical Investigator Gr.-II, Shri Anil Kumar Maurya, Compiler, Shri Ramesh Kumar, Compiler and Smt. Sunita Rani Compiler. Primary Census Abstract (PCA) included in this publication was scrutinized by Census Section under the supervision of Shri Narpat Ram, Statistical Investigator Gr.-I, Shri Mohar Singh Chauhan, Statistical Investigator Gr.-I, Shri Ramesh Chand Chandel, Statistical Investigator Gr.-II, Kumari Archana Nahar, Statistical Investigator Gr.-II, Shri Anil Thakur, Sr. Compiler, Shri Rajender Singh Chandel, Sr. Compiler and Shri Bhikam Ram, Compiler. Maps appearing in this publication are prepared by Map Section under the guidance of Smt. Veena Thakur, Research Officer. The whole manuscript of the District Census Handbook is edited and finalised by me. I express my appreciation for the dedicated services rendered by them and all other my colleagues in the Directorate associated with this project.

I hope this volume will readily comes to the expectation of the data users.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity'

manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the district

Mandi district was formed by the amalgamation of the erstwhile princely states of Mandi and Suket on the formation of Himachal Pradesh on 15th April, 1948. Dr. J. Hutchinson and Dr. Vogel have accounted in the political history of the states that like most of the other hill states, Mandi takes its name from its capital which is situated on the left bank of the Beas. Mandi is a Hindi word, meaning market and it may possibly be connected with the Sanskrit word 'mandapika' meaning an open hall or shed and might have been derived from Sanskrit root 'mand' meaning to adorn or distribute. If a conjecture as to origin of the name may be offered, it probably took its rise from fact that in ancient times, as at the present day, the place was a centre of trade on the main route from Yarkand and Ladakh to Hoshiarpur and the plains. Another belief is that Mandi was named after a Rishi Mandvya. He is reported to have performed Tapasya on a rock called "Koleera" which is on the bank of river Beas near Padal. The earliest mention of the Mandi is on the inscription at Triloknath temple in old Mandi, which is dated in the year 2264 of the Kaliyuga era and the Saka year 1442 corresponding to AD 1520. Mandi is known by the name of Zahor among the Tibetan. It has an interesting association with the great Buddhist teacher and missionary, Padma Sambhava (AD 750-800), for it was from Zahor or Mandi that he went at the request of the Tibetan King Srongltd btzen, to preach the doctrines of Buddhism in Tibet. Pandit Hira Nand Shastri states that in his lamaist representations, Padma sambhava appears in the ancient Mandi garb and the special head dress worn by him is still called Zahorma.

The early history of Mandi district is similar to that of other parts of the hills. The whole tract was under the control of numerous petty barons bearing the title of Rana or Thakur, the Rana being Kshatriya and Thakurs of some lower castes and the vernacular history gives a graphic account of their subjection by the early Rajas. As in the case of many of other Hill States, Sir Alexander Cunningham was the first to institute enquiries in to the history of Mandi and Suket royal families and the results of his researches are to be found in the Report of the Archaeological Survey-2. A very little material of a historical character in addition to the Vanshavali or genealogical roll of the Rajas is available.

The chiefs of Mandi, Suket, Keonthal and Kashtwar are said to be from a common ancestor of the Chandravanshi line of Rajputs of Sen dynasty of Bengal and they claim their descent from the Pandavas of Mahabhart. Bahu Sen, the younger brother of Sahu Sen, a chief of Suket established an independent territory for himself and was recognized as a Rana or local chief. Karanchena Sen was the tenth descendant from Bahu Sen and his Rani was the daughter of Rana of Seokot. Being an ambitious ruler he subdued the Ranas of Bans, Neru and Baggi, Thachi and forced them to pay tributes to him. The subdued Ranas appealed to the Kullu chief and requested for his help. In the struggle, Karanchena Sen fell and his wife had to flee for her life. In her flight she gave birth to a male child in the jungle and the Rani alongwith the

child were taken to the Rana of Seokot. Her son subsequently acquired the name of Ban Sen and the Rana of Seokot being without a male issue adopted him as his successor. Thus, Ban Sen became the chief of Seokot. Ban Sen began to enlarge his territory and built his residence at Bhiu on the right bank of the Beas about 3 kms. from the present Mandi town. He died about 1300 AD. He was succeeded by his son Kalyan Sen who built a palace at Batahuli on the right bank of the river Beas which remained capital of Mandi state till the present Mandi town was established. He was succeeded by Hira Sen and the consolidation of the territory was completed under Ajber Sen, the nineteenth in descendant from Bahu Sen about 1500AD. He was considered as an able and benevolent ruler. He founded the present Mandi town and shifted his capital to this place. The temple of Bhutnath in the heart of the town was constructed during his reign and that of Triloknath by the inspiration of his queen Surat Rani or Sultana Devi. The Ranas of Kamlah and Kalar were subjugated by him and Chhattar Sen, his son built a fort in Kalar called Lakargarh. Most of the Ranas of the adjoining areas accepted the supremacy of Mandi and were subjected to pay tributaries in cash and kind. He was succeeded by Chhattar Sen followed by Sahib Sen. With the initiative of Rani of Sahib Sen, the ferry on the Beas between Batahuli and Mandi and drinking water fountains were constructed along the main roads. Sahib Sen invaded the Rana of Drang and acquired the salt mines. It is said that the area known as Seraj Kullu became the part of Mandi when Raja Jagat Singh of Kullu with the assistance of Mandi defeated the Raja of Laksari.

Narayan Sen was a son of Sahib Sen and succeeded him in 1575AD. Further extension of territory were made during his reign and Ranas of Ner, Pandoh and Chuhar were subdued and seven garhs illaguas of Chuhar and five of Pandoh were annexed to the State. He built the fort of Naraingarh and annexed a large portion of Suket by fixing the boundary at Balh and Lohara. He was succeeded by Keshav Sen in 1595 AD. Mandi came under the influence of Mughals during the reign of Keshav Sen but the Mughals did not interfere in the internal matters of the state. The Mughal emperor was acknowledged by payment of annual tribute and furnishing a contingent for military expeditions. The 'satli pillars' of Mandi Rajas and their families locally known as Barsetas still stand on the left bank of Suketi Nallah. He was succeeded by his son Hira Sen in 1623 AD who further extended the territorial limits of the state. He was succeeded by Surya Sen or Suraj Sen in 1637 AD. He was an ambitious chief, but his efforts to extend his territory did not materialize and rather brought disaster to the state. The Mughal supremacy had been fully established and Mandi like other hill states became a tributary to the Mughal Empire. During his time, the state suffered territorial losses to Kullu and Guler chiefs and state was sacked. He was succeeded by his younger brother Shyam Sen who had annexed Lohara illaqa to Mandi and struggled to gain the possession of much of the territory, which had been lost to the various rulers during the time of Suraj Sen. Suraj Sen was succeeded by Gaur Sen in 1679. With the assistance of the ruler of Bilaspur, he conquered and annexed the areas of Dhayara, Bira and Patri from Suket. He was succeeded by Sidh Sen in 1684 who was known for his valour. He annexed good number of territories to the state from Banaghal, Suket and

Kullu. The revenue system introduced by him remains enforce in the state till the regular settlement in 1917. He also introduced the system of advancing state loans to the private persons. The areas of Nachan, Hatli, and Lad were acquired from Suket by conquest in 1688 and he also captured the forts of Danesargarh and Sarakpur. Shivpur was also recovered and Raipur and Madhopur belonging to Suket were annexed. He was succeeded by Shamsen Sen, the son of Shiv Jawala Sen. The successive rulers of Mandi were Surma Sen, Ishwari Sen, Zalam Sen, Balbir Sen and Bijay Sen.

William Moorcroft was the first European to visit Mandi in March, 1820 during the reign of Ishwari Sen. Raja Balbir sen was twenty two years of age at the time of his succession and two months afterwards Mandi was visited by Mr Vigne in 1839 AD in the course of his journey through the hills. In June, 1840 Sikh expedition under General Ventura was sent to Mandi and General sent a demand for immediate payment of certain arrears of tribute which formed the ostensible excuse for the expedition. This demand was at once complied with before the first Sikh war. Balbir sen had been in secret communication with Mr Erskine, Superintendent of Hill states with a view to securing British protection and though compelled to send a contingent of 300 men to Sikh army for the campaign on the Satluj, yet his sympathies were with the British. Immediately after the battle of Sobraon, he and the Raja of Suket sent confidential agent named Sibb Pandit to Mr Erskine, tendering their allegiance to British Government and requesting an interview. This was readily granted and on 21st February, 1846 the two chiefs visited Mr Erskine at Bilaspur and gave in their allegiance in person. But the Raja did not wait for the conclusion of the war before attempting to free his country. He boldly attacked the Sikh garrison in the state and captured all the forts except kamlah which did not surrender till the war was over. On 9th March 1846, a treaty was concluded between the British and the Sikh whereby among other provisions, the whole of the Doab between the Satluj and Beas was ceded in perpetuity to Government. Mandi and Suket being within the ceded territory came directly under British Control and were placed in charge of the Commissioner of Jalandhar. Lord Lowrence, then Commissioner of Jalandhar and Political Agent of the hill states visited Mandi on his way to Kullu in the autumn of 1846 and advised the Raja to build roads in the state. Mr Barnes, the first Deputy Commissioner of Kangra also settled the boundaries between Mandi, Suket and Kangra.

Raja Balbir sen died on 26th January, 1851 leaving three sons, Bijai Sen, Pardhan Singh and Man Singh. Bijai Sen was only four years old. Wazir Gosaon was in office till 1859 when Raja Bijai Sen attained the age of thirteen and he was married to the grand daughter of the Raja of Dalarpur and soon afterwards to a niece of the Raja of Guler. During the time of Bijai Sen, Lord Elgin, the first Viceroy of India made a tour in the hills and on his way from Kullu he halted at Badhwani, Jhatingri and Drang falling in the Mandi state. Raja accompanied by queen mother had an interview with the Viceroy at Darang. In 1864, the government granted the Raja a Salute of 11 guns. The Raja made a grant of one lacs rupees for public utility services in the state when he acquired the power of a ruler. A school, hospital and post office were opened in Mandi and mule road from Baijnath to Sultanpur in Kullu over the

Bubu pass and sarais and traveller's bungalows along the lines of the road from Kangra valley through Mandi towards Kullu and Shimla were constructed. The boundaries between Mandi and Suket on the Hatli side was also finally settled by the Commissioner of Jalandhar, in 1877. The Victoria suspension bridge over the Beas river at Mandi was constructed in 1881. A new road from Mandi to Kullu via Duchi Pass with a suspension bridge over the river Uhl was commissioned in addition to a cart road from Baijnath to Mandi and a road from Mandi to Secundra. During his time, guidelines for the functioning of the courts were issued and implemented. The jurisdiction of Civil and Criminal courts were clearly defined and classified. The rules for the hearing of the appeals and revisions were modified and the period of limitation was also fixed. In addition, the rights of the agriculturists in their forests were clearly defined and the rules were framed to regulate them. The iron suspension bridge over the Suketi Nallah near Mandi was opened during his time. Bijai Sen left no direct heir and in 1897 Bhiwani Sen was recognized as his heir and he succeeded him in 1903 and died in 1912 without leaving no direct heir to succeed him. In order to devise a uniform pattern of land revenue and a satisfactory solution of the question of the "Begar", an Indian Civil Service officer Mr C.C. Garbette was at the request of the Raja lent to the Darbar as settlement officer in 1911. Mr Garbatte was obliged to go on sick leave in the following October and was relieved by Mr G. Walker I.C.S. These change were followed soon after the death of Raja Bhiwani Sen. After some delay, Mian Joginder Sen the nearest natural male relative of the deceased Raja was selected by Government and was formally installed as Raja Joginder Sen by Sir Louis Dane, K.C.S.I. Lieutenant Governor of the Punjab on 28th April, 1913. Joginder Sen was invested with full powers of a ruling chief in February 1925. During the period of his minority, Mandi remained under the management of British officer and number of departments were overhauled and recognized. A regular settlement was carried out between 1911-1917. The forests were placed under efficient control by carrying out a forest settlement and a working plan for the future exploitation of the state forests under Mr H. L.Wright an officer of Indian Forest Department from May 1914 to November 1917. In Novembr, 1921 the political control of the state was transferred from the Punjab government to the Government of India in the political department. During the time of Joginder Sen, the Mandi Hydro Electric Scheme was inaugurated in 1927. After independence, the state was merged in the newly formed state of Himachal Pradesh.

Sir A. Cunningham was the first to draw attention to the 'Vanshavali' of the ruling family of Suket in his paper on the history of Mandi in the Reports of the Archaeological survey. According to him, the foundation of Suket was laid at an early period (AD765). More recently a vernacular history of the state has been published by Munshi Hardiyal singh of Kangra, who acted for some time, as first Tahsildar and later as Superintendent of the State. It is called Tawarikh-I-Riyasat-Hai-Kohistan-Punjab. There are also references to Suket in the records of Mandi and Kullu as well as other states, which help to elucidate events. Suket does not seem to be referred to in the Raja Tarangini and only once in AD 1388 by any of the Mohammedan historians. Like Mandi state, the early history of Suket is also associated with the rulers of Sen dynasty.

According to the available records, Vira or Bir Singh (Bir Sen) on his migration from Bengal alongwith his forces crossed the river Satluj at Juiri fery in 765 AD and started the conquest of the area and he settled at Kunnudhar. He attacked the area of Kothidehr, and seized the area of Nanj, Salalu, Belu and Thanamagra and built forts at Kaun and Magra. The Thakurs of Kandikot and Saruhi surrendered before Bir Sen and he built a fort at Pangana. He conquered the fort of Birkot on the borders of Kumharsain. After the conquest of Seraj area of Kullu, Bir Sen captured Pandoh and Nachni alongwith the various forts etc. After subduing the northern part of the state, he turned westward towards Balh illaquis and advanced as far as Secundra-Ki-dhar. The Rana of Hatli was defeated by him and the boundary with Kangra was fixed by constructing a fort on the Sir Khund. Bir Sen was succeeded by his son Dhir Sen whose reign was short. In 1240 AD, Madan sen, one of the successors of Bir sen was a strong ruler and he extended the areas of the state. Under Madan Sen's regime, Suket reached the highest of its prosperity and power. He shifted the capital of state from Pangna to Lohara in the plains of Balh. The decline of the state was started with his death. In 1663 AD, Jeet Sen was installed Raja. It is said that Jeet Sen lost every battle he fought. During his regime, Mandi annexed Balh area as far as Suketi Nallah. Jeet Sen died childless and he was succeeded by Garur Sen. He founded Sundarnagar on the small plain three Kilometres south of Naggar and his wife constructed the Suraj Kund temple. Bikram Sen became the Raja of Suket in 1748 AD and his reign was covered by a period of great political importance in Punjab. Ahmed Shah Durani invaded Punjab in 1747 and in 1752 it was ceded to him by Ahmad Shah of Delhi. During this period, Suket became independent like other hill states, as there was turmoil in the area. During this period, Sikhs had also risen to power and Jassa Singh Ramgarhia invaded Kangra hills and established his sovereignty over several hill States. Probably Suket was also engulfed. He was succeeded by his son Ranjit Singh in 1762. He tried to recover Nachan from Mandi. He had great reliance in his wazir Narpal and his period was considered that of peace and prosperity in Suket. The law was strictly upheld. Ranjit Singh died in 1769 of accidental poisoning.

Vikram Sen was installed the Raja of Suket in 1791. He helped Raja Sansar Chand of Kangra in attacking Mandi. The capital of the state was established at Baned now called Sundarnagar about three Kilometres south of Suket which was founded by Garur Sen. Suket or Naggar was called Purana Naggar but lost importance as new town namely Bhojpur sprang up half way between Baned and Suket. The Hill chiefs of Kangra jointly sent an invitation through the Raja of Bilaspur to Amar Singh Thapa, Gorkha Commander for invading Kangra. Sansar Chand's forces were defeated at Mehalmori and the fort of Kangra was captured by the Gorkhas. Raja Ishwari Sen of Mandi held by Sansar Chand in captivity was also released by the Gorkhas. Bikram Sen was made prisoner for about six months when he visited Bilaspur. He was compelled to surrender six forts seized from Mandi including Hatli and Balh. He managed his release in the night by leaving his Hukabardar in his place and reached his territory on foot. The Gorkhas were unable to retain their hold on Kangra and in 1809 with the help of Maharaja Ranjit Singh, Sansar Chand expelled them to the east of the Satluj but the famous Kangra fort was gulped

by the Sikhs. Thus the supremacy over the hill States passed into the hands of the Sikhs and Suket also became their tributary. During this period, Pali and Dudar forts were constructed. During Bikram Sen's period William Moor Croft visited Suket in 1820 on his travel to Kullu and Ladakh and probably was the first European to visit Suket. Bikram Sen was considered to be a strict administrator and he punished thieves, robbers and traffickers in women with utmost rigour.

Uggar Sen became the Raja of Suket in 1838. Mr. Vigne, the traveller visited Suket during his time in 1839 on his way back from the inner mountains. According to him Suket-Mandi valley was eight or ten miles in length and three or four miles in breadth richly cultivated and having numerous villages surrounded by various forests on hilltops. Sikh forces were sent around 1840 to the hill States with a view to seize the Raja of Suket, Mandi and Kullu before making an attack on the central Tibet. On reaching the Sikh army, Uggar sen gave in his submission and he was treated by them with consideration. In 1845, Uggar Sen refused to oblige the Sikhs when they asked for contingent against the Britishers who had invaded the territory. Uggar sen joined hand with Balbir Sen of Mandi and had a meeting with Mr Erskine, the Superintendent of Shimla Hill States at Bilaspur tendering their allegiance to the British Government and requested for an interview. On conclusion of the treaty of March 9, 1846 between the British Government and Sikh darbar, the whole of Doab between the Satluj and Beas were ceded in perpetuity to the former. Mandi and Suket falling within the ceded territory came directly under the British control and were placed under the charge of Commissioner of Jalandhar in October, 1846 and 'Sanad' was granted to Uggar Sen defining his rights and obligations and confirming his possession. The right of adoption was also granted to the State on failure of direct heirs. Uggar Sen built the Shiva temple at Amla-Bimla and in 1876 died due to paralysis. He was well respected by his people for his liberal view, courtesy and courage. He was well versed in Sanskrit and was also fond of music and well acquainted with the science of medicines.

Rudar Sen, son of Uggar Sen succeeded him in 1876 who was installed the Raja of Suket by the Commissioner of Jalandhar. Rudar Sen imposed 'Dhal' on the land instead of tax on each house. His rules were considered very oppressive and land revenue was increased in addition to the various levies imposed on the Zamindars which created resentment among the people. He was deposed in 1879 and finally he settled at Hoshiarpur till his death in 1887. Rudar Sen was succeeded by Arimardan Sen who was just fifteen years of age at the time of installation. He died at Dharmasala soon after his succession and was succeeded by his younger brother Dusht Nikandan Sen. Being minor the administration remained in the hands of the Superintendent until the Raja received full power. The land assessment was reduced in 1888 and two systems of land assessment were introduced and also carried out many improvements in the State. He opened a dispensary at Baned and a school at Bhojpur. A post office was opened in 1900 and a telegraph office in 1906. Economy measures were taken by abolishing the unnecessary posts and efforts were made for clearing out the debts and bringing out sound financial

conditions. The work on various important public utility buildings was also undertaken. A bridge on Satluj at Juiri was also completed in 1889 and the roads were maintained in good condition. The sepoy lines and a new jail building were constructed in addition to office complex and granaries. He was succeeded by his son Bhim Sen in 1908. During his regime, a fully equipped hospital was constructed at Baned and rest houses at Baned, Seri and Dehar were also constructed. The road from Suket to Mandi was made motorable. The Raja rendered valuable services during the first World War and the title of Knighthood was conferred on him. Bhim Sen died in 1919 and was succeeded by his younger brother Lakshman Sen as the late Raja had no issue. Land revenue settlement were carried out during the time of Raja Lakshman Sen and the department of judiciary and other government departments were recognized. Schools for boys and girls were also opened. Club building, orphanage and Chief Court were also constructed during his time. The political control of the State was transferred to the Government of India from the government of Punjab on 1st November 1921. The State was merged with Himachal Pradesh on 15th April 1948 and a separate district of Mandi came into existence by merging Mandi and Suket States.

People : The whole population with trifling exceptions in district is inhabited by Hindu. The original inhabitants of this area are Rajputs, Brahmins, Khatri and Kanets. Other section of the people consists of Kumhar, Lohars and Thawins, Nais, Mirasis, Chuhars, Kolis, Bohras, Rathis, Gujjars, Chanals and Dumne. Brief description of some of the important communities is given hereunder:-

Dress : The clothing for men consist of shirt and pajama. The turban has now replaced by a type of Gandhian cap and Kulvi Caps. More often people now go bare headed. The women folks wear long shirt and pajama or salwar kamiz. The head is covered with the coloured dupatta or chunni. Wearing of bushirt, T-shirts, sweaters and trousers by the men and sari and blouse by women has become popular among the economically well off class. The people use woollen clothes prepared from homespun wool which is locally woven during winter. The villagers are attired in their best when they attend any fair or festival. The coloured piece of cloth called Dhatu for covering the head is worn by the women in Karsog tahsil. Bali, Kanganu, Chak and Pazeab are the ornaments worn by the women of all sections. While the women of economically better families generally wear gold rings in their nose, silver or gold rings in their ears, bangles of brass or glass or gold in their wrists and silver necklace around the neck. They put surma or antimony in the eyes and bindi in the forehead at marriages and festivals. Married women used coloured dupattas white widows generally use white dupatta. The Punjabi kamiz and salwar are now more commonly used and cheap rayons or nylone are used for dupatta.

Religion : A majority of the population of the district possesses Hinduism. The Muslims, Sikhs and Buddhists are in minority. The religion of the district falls naturally into three groups. The religion of the lower hills appears to represent a fusion between the cults of the Himalayas proper and the beliefs of the later

Rajput invaders. Over this admixture, a veneer of orthodox Hinduism has been super imposed. All the ceremonies, rites and rituals are performed according to religion. The religious assignments in several respects are most interesting, both because of their variety and throw the light on the influence of the Brahmins on these rites and rituals. The endowment of the village gods presents the features commonly found in the hills. The diety is the malguzar as well as the assignee and his tenants either pay rent into his treasury or cultivate the land on condition of service. The majority of gods are landholders and several of them hold assignments of considerable value granted either in recognition of their importance or as a reward for a supposed miracle. The grants in favour of orthodox temples are in the hands of Pujaris. The management of the other important temples is in the charge of trustees and institutional organization, which administers the endowments of religion and charity. There is no doubt that the majority of the village gods in the district as throughout the western Himalayas belong to serpent groups and Narain is a tittle for Snake God. The temple image almost invariably consist of a 'pind' or 'linga' of stone and this probably represents the primitive idol. Now a days, the most important outward and visible symbol of the god is his rath, a term which may be translated as ark, palanquin or litter.

Language : A majority of the people in the district speak the local Mandiali dialect. According to the classification of languages made by the Linguistic Survey of India, the dialects under the Mandiali group have been classified as one of the several dialects under Western Pahari. Western Pahari has been classified as sub-group under Pahari group, inner sub-branch of Indo-Aryan branch and Aryan sub-family under the broader the Indo-European family of languages. Under the sub-group, Western Pahari is included a number of dialects spoken in the hilly area stretched from Bhadarwah and Chamba on the North-West to Sirmaur on the South-East. (Census of India-1961. Vol 1 India, Part II C (ii) Language Tables p. CL xx and Una) . Besides Pahari, Hindi is also in common use in the district. In the lower portions of the district such as in Mandi, Balh, Sundarnagar, Jogindarnagar and Sarkaghat people speak proper Mandiali while in the hilly areas like Seraj, Karsog, Sanor, Badar, Utersal and Chuhar, the variation of Mandiali spoken by the hill people is known as Mandiali Pahari. Mandyali used to be written formerly in Tankri or Tang Kray script, but presently devnagri script is commonly being used.

The district lying between Shimla and Kangra proper with Kullu for their Eastern boundary, they form part of the central linguistic wedge between Chamba and Shimla. It is noticeable that North of Kangra and South Suket certain linguistic peculiarities are found which are not observed in the central area. The main Mandiali dialect is rather widely spread. It is found with very little change over all the Western and Northern portions of the district. The centre of North Mandiali may be taken to be Jhatingri half way between Sultanpur and Palampur. In the South-East portion of the district, called Mandi Seraj, the dialect spoken is still Mandiali but it shows resemblances to inner Seraj, the dialect of the Northern half of the Seraj tahsil of Kullu. Although the dialect shows many traces of the influence of Punjabi, it keeps clear of that influence in the plural of nouns, which is in the oblique generally the same as the singular except in the vocative case.

Administrative set-up

The district is located in the micro-region of Central Himachal Pradesh covering the districts of Kangra, Hamirpur, Una, Mandi and Kullu Districts which falls in Himachal Pradesh Himalaya sub-region of the northern mountains region. District has not undergone any jurisdictional change at district level during the decade 2001–2011.

The district is divided into seven sub-divisions of Mandi, Chachyot, Jogindarnagar, Padhar, Sarkaghat, Sundarnagar and Karsog and 17 tahsils/sub-tahsils. Further district is divided into ten Community Development Blocks for the developmental purposes. The Deputy Commissioner is head of district administration and is assisted by one Additional Deputy Commissioner, One Additional District Magistrate (ADM) and one Asstt. Commissioner in discharging administrative, regulatory and other functions. The other district officers are District and Session Judge, Chief Judicial Magistrate, Superintendent of Police, Chief Executive Officer of Zila Parishad. Chief Medical Officer and Senior officers of the state Government look after the developmental and regulatory functions in the district. All departments of the state Govt. such as public works department, agriculture, horticulture, irrigation & public health, forests, education, animal husbandary and fisheries etc. have district level officers. Sub-Divisional Magistrate is the head of sub-division while Block Development Officer is the head of Community Development Block. At the tahsil/sub-tahsil level, the Tahsildar/Naib-tahsildar and other officers look after their respective jurisdiction for developmental and regulatory functions.

The following statement indicates the number of villages and towns in each tahsil during the decade.

Jurisdictional changes showing number of villages and towns etc. during 2001–2011

Name of district/tahsil/sub-tahsil	Number of villages as per		Number of towns		Remarks
	2001 Census	2011 Census	2001 Census	2011 Census	
1	3	3	5	5	6

Chachyot	209	209	-	-	
Nihri	274	274	-	-	
Karsog	534	534	-	-	

Zila Parishad and Panchayat Samiti : The three tier system of Panchayati Raj Act with the provision of Zila Parishad, Panchayat Samiti and Gram Panchayat was introduced in Himachal Pradesh from mid nineties with a view to promote development of democratic institutions and to secure greater measure of participation by the people in developmental plans in local and government affairs by decentralisation of powers and functions. The jurisdiction of Zila Parishad and Panchayat Samitis corresponds to the district and C. D. blocks boundaries respectively except that of urban bodies which are not covered by them.

A separate ward is demarcated keeping in view of area, population and number of Gram Panchayats under the jurisdiction of each C. D. blocks and district. Reserve wards for ladies, Scheduled Castes or Scheduled Tribes are also carved out according to population and in rotation. The elected members of the Zila Parishad elects its President and Vice President and Chairman of its committee from amongst the elected members by casting ballot vote or voice vote. The term of office of the executive body and the members is five year. The functions of Chief Executive Officer to Zila Parishad have been delegated to Deputy Commissioner of the district by the State Government. The Parishad is also assisted by the various departments and the head of these departments at the district level are officers of class I and II services under the State Government. The Panchayat Samitis have an Chairman and Deputy Chairman elected from amongst elected members at the block level. The Block Development Officer works as Secretary to the Panchayat Samiti. The term of office of the members is five years. The Executive authority for the purpose of carrying out the provisions of the Himachal Pradesh Zila Parishad and Panchayat Samiti Act vests in the Chief Executive officer and Block Development Officers. The Deputy Chief Executive Officer generally in the rank of Additional Deputy Commissioner or Additional District Magistrate works as a Secretary of the general body meetings of the Zila Parishad.

Urban Local Bodies : The statutory urban local bodies are Cantonment Boards, Municipal Councils, Municipal Corporations and Nagar Panchayats. The urban local bodies elect a councilor from each of the wards and his term is five years. The President of the Municipal Council and Nagar Panchayat and the Mayor of the Corporation as also their Deputy are elected from amongst the elected councillors. The Chairmen of various committees are also elected from amongst the elected councillors. Although for day-to-day administration, the Executive Officer is responsible in Municipal Council and Secretary in Nagar Panchayat, he works under the administrative control of the President of Municipal Council or Nagar Panchayat. However, the Sub Divisional Magistrate of the area under whose jurisdiction urban local body falls is the controlling authority of Municipal Council or Nagar Panchayat. In Corporation, an I.A.S. or a senior H.A.S. officer is deputed by the State Government as Municipal Commissioner who is responsible for the day-to-day administration and the executive authority lies with him.

District Highlights – 2011 Census

- Mandi is the second largest district in terms of population.
- Mandi has 3th rank in terms of sex-ratio in the state.
- Mandi has 7th rank in terms of literacy among all the district of state. The literacy rate of the district is 81.5 per cent in comparison to state average of 82.8 per cent.
- Mandi tahsil has the highest rural population while Sandhol sub-tahsil has lowest rural population in the district.
- Lad Bharol tahsil has the highest sex-ratio while Bali Chowki sub-tahsil has the lowest sex-ratio in the district.

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in

place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The

term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

District Primary Census Abstract
