MOTIF

Chamba Town

Chamba an ancient town of Himachal Pradesh is the headquarters of district Chamba which was also the capital of the erstwhile state of Chamba. Located at an altitude of 996 metres above the mean sea level the town is situated on the banks of the Ravi River at its confluence with the Sal River. As the historical records date the history of the Chamba region to the Kolian tribes in 2nd century BC but the state of Chamba was formally founded about the middle of the 6th century AD by Meru Varman. Brahampura which is considered to be the present Bharmaur village was founded by him and made it a capital of the State. In 920 AD Raja Sahil Varman shifted the capital of his kingdom from Bharmaur to this place on the request of his daughter Champavati and named as Chamba after his daughter. Another legend is that Chamba town might have derived its name from the Champa trees which are found in and around the town. Chamba town has numerous heritage monuments like 10th century Champavati temple, Sita Ram Temple, Bansi Gopal Temple, Kharura Mohalla and Hari Rai Temple, the 11th century Sui Mata Temple and Chmunda Devi Temple. Built during 10th century the Lakshmi Narayan group of temples complex is the famous heritage and religious site of the town. Built by Raja Umed Singh between 1747-65 Akhand Chandi Palace overlooking the Chaugan, which has since been converted to a government college, adds to a panoramic view of the town. Bhuri Singh Museum built during 1908 is the main attraction to archaeological lovers visiting the Chamba town. At the last but not the least the Chaugan, which is the heart of the town and the nucleus of all socio- economic and cultural activities of Chamba town, still holds the place of prominence. Chaugan a terraced grass green field measuring about 800 metres in length and 80 metres in width is exceptionally large for a hill station is used as playground for all types of sports and matches, picnics and promenade especially during the mid-summer months. During the annual “Minjar Fair” the entire Chaugan becomes a flea market.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System (PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sh. Balbir Tegta, Director of Census Operations Himachal Pradesh. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

Preface

The Census is the biggest source of comprehensive data on demography, economic activity, literacy and education, housing and household amenities, urbanization, fertility, mortality, Scheduled Caste and Schedule Tribes, language, religion and migration at village, town and ward level. District Census Hand Book (DCHB) is series of such Census publication and is the most important district level publication which provides reliable data at grass root level for the purpose of planning, administrative requirements as well as of academic development in socio-demographic field. The DCHB contains the salient results on the data gathered at the actual enumeration of head-count and in addition contain a wealth of other non-census information in respect of each village and town of the district.

Following the Census tradition, the 2011 series of the District Census Handbooks is also comprised of two parts. Part-A contains Village and Town Directory data which provides information on infrastructural amenities and land use data at village level. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. Now DCHB 2011 will also present the newly added amenities which have been discussed in the foreword of this volume along with the information pertaining to name and location of villages, area, population, number of households, important civic amenities/ facilities available in villages like educational, medical, drinking water, post, telegraph and telephone, commercial and co-operative banks, agricultural & non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town by distance, power supply, news paper/magazine and most important commodity manufactured in the villages. Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district. C.D. block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans.

Part-B contains village and town-wise Primary Census Abstract (PCA) along with Housing amenities data which provides information on area, number of households, sex-wise total population, child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i.e. cultivators, agricultural labourers, workers in household industries, other workers and special tables on Housing data in respect of each village and town of the district.

Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages, conditions of housing, assets available with households and demographic profile of population at Sub-District/C.D. Block level which are of much utility for demarcation of areas of surplus and deficit to reorient the planning process.

The District Census Handbook is a joint venture of the Government of Himachal Pradesh and the Census organisation of the Government of India. The design of 2011 District Census Handbooks is evolved centrally by the Registrar

General and Census Commissioner, India and accordingly these books have been prepared at Directorate level. The data so supplied by the field level officers have been cross checked with the data obtained from various departments and an attempt had been made to reconcile the discrepancies to make it more reliable. I am grateful to all Heads of Departments of the State Government, officers and staff engaged in the conduct of 2011 Census for their co-operation to accomplish this task.

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring. I owe special thanks to Dr. C. Chandramouli, I.A.S., the Registrar General and Census Commissioner, India for his enlightened guidance and encouragement. I am also thankful to Shri Deepak Rastogi, Additional Registrar General of India, Dr. A.P. Singh, Deputy Registrar General (Map), Shri P.K. Banerjee, Deputy Registrar General (C & T), Shri A.K. Samal, Additional Director, Shri M.S. Thapa, Additional Director, Dr. Pratibha Kumari, Assistant Registrar General (SS) and Shri A.K. Arora, Joint Director for providing technical guidance and finalising this report.

The 2011 Census Operations in Himachal Pradesh were carried out under the able guidance and the dynamic supervision of Shri Balbir Tegta, I.A.S., the then Director of Census Operations. I owe my deep sense of gratitude to him.

The data presented in the District Census Handbook required a concerted team work of officers and staff members of this Directorate who were involved whole heartedly at various stages of its planning, supervision, field work, and computerization, preparation of manuscript, maps and printing. I express my appreciation for the painstaking and dedicated services rendered by all of them. Special mention is made of Shri R.K. Ram, former Joint Director, Shri Ashish Chauhan, Assistant Director, Shri R.S. Negi, Assistant Director and Shri Ramesh Kumar Sharma, Statistical Investigator Gr.-II (Rtd.), Shri Narender Kumar Sharma, Sr. Compiler, Shri Ratan Kumar Lalmani, Statistical Investigator Gr.-II, Shri Anil Kumar Maurya, Compiler, Shri Ramesh Kumar, Compiler and Smt. Sunita Rani Compiler. Primary Census Abstract (PCA) included in this publication was scrutinized by Census Section under the supervision of Shri Narpat Ram, Statistical Investigator Gr.-I, Shri Mohar Singh Chauhan, Statistical Investigator Gr.-I, Shri Ramesh Chand Chandel, Statistical Investigator Gr.-II, Kumari Archana Nahar, Statistical Investigator Gr.-II, Shri Anil Thakur, Sr. Compiler, Shri Rajender Singh Chandel, Sr. Compiler and Shri Bhikam Ram, Compiler. Maps appearing in this publication are prepared by Map Section under the guidance of Smt. Veena Thakur, Research Officer. The whole manuscript of the District Census Handbook is edited and finalised by me. I express my appreciation for the dedicated services rendered by them and all other my colleagues in the Directorate associated with this project.

I hope this volume will readily comes to the expectation of the data users.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the district

Prior to the merger of the princely States after the independence the area comprising the district was known as Chamba State. Chamba State has a very old history of its own. The name of this State is found in the Vansavali (genealogical role of the Rajas). The available epigraphical records and copper plate title deeds also throw much light on the old history of the State. Since the State was sheltered by its snow clad mountain barriers, it escaped the destruction of monuments of old civilization at the hands of the foreign invaders. As the history reveals Chamba State was founded about the middle of the 6th century A.D. Meru Varman is said to have been the founder of the ruling family of the State. He was a Suraj-Vansi Rajput and is said to have migrated from Ayodhya alongwith his family. He is stated to have penetrated into the upper valley through the outer hills and is said to have conquered the territory from the local petty chiefs. Brahampura which is considered to be the present Brahmaur village was founded by him and he made it capital of the State. It is also stated that the original State was very small in size and was confined in the valley of the Ravi from below Barabanghal with its tributaries the Budhil and the Tundahen as far down as Chhatrari. The Meru's rule was only nominal and it is said that after having founded the State he made it over to his son Jaistambh and himself retired by detaching from the worldly affairs Jaistambh was succeeded by Mahastambh.

Subsequent rulers were Adi Varman, Deva Varman, Mandara, Kantara, Pragalbha, Ajya Varman, Mushuna Varman, Hamsa Varman, Sara Varman, Sainya Varman and Sahila Varman. Sahila Varman who ruled around 920 A.D. was the last among the Brahampura Rajas. He conquered the lower Ravi valley and shifted the capital from Brahampura to the present Chamba town. He was visited by 84 *Yogis* who after being highly pleased by the Raja's hospitality promised him ten sons. In due course the promise was fulfilled and in addition, one daughter was also born who was named Champavati. The Raja accompanied by one of the *Yogis* named Charpatnath, the queen and the princess Champavati after conquering the lower portion of the Ravi valley halted on the plateau on which the present Chamba town is situated. Champavati revealed her liking to the place and asked her father Sahila Varman to found a town at the place and make it the capital of his State. The town was subsequently founded around 930 A.D. and named as Champa after his daughter. Another legend is that Chamba might have derived its name from the the Champa trees which are found in and around the town. Right from the founding of the town in 930 A.D. it has uninterruptedly been the seat of the government. The Raja who ruled the Chamba state after Sahila Varman and had Chamba town as their capital were as under:-

Yugakar Varman (A.D. 940) : Not much is known about this Raja except a copper plate deed bearing his name which is still in existence. This plate is the oldest discovered. He is believed to have erected the temple of Gauri Shankar in Chamba near the Lakshmi Narain temple.

Vidagdha Varman (A.D. 960) : A copper plate deed granted in the 4th year of his reign is available which mentions his father Yugakar and his mother Bhogamati Devi.

Dodaka Varman (A.D. 980) : The name appears as Dogdha in a stone inscription. Other Rajas who ruled Chamba after Dodaka Varman were Vichitar Varman, Dhairya Varman, Salavahana Varman (1040 A.D.), Soma varman (1060 A.D.), Asata Varman (1080 A.D.), Jasata Varman (1105 A.D.), Dhala Varman (1118 A.D.), Uday Varman (1120 A.D.), Ajita Varman, Daityari Varman, Prithi Varman, Lalita Varman (1143 A.D.), Vijaya Varman (1175 A.D.), Raja Varman, Sara Varman, Kirti Varman, Ajita Varman, Madana Varman, Narakanajar Varman, Asha Varman, Jimut Varman, Vairasi Varman (1330 A.D.), Manikya Varman (1370 A.D.), Bhot Varman (1397 A.D.), Sangram Varman (1442 A.D.), Anand Varman (1475 A.D.), Ganesha Varman and Partap Singh Varman (1559 A.D.) Partap Singh Varman undertook the task of building and repairing a number of temples including the Lakshmi Narain temple and he defeated the Katoch forces and captured a sizeable territory including Guler. Partap Singh Varman was contemporary with Akbar and Chamba might have become subject and tributary to the Mughal empire. Todar Mal, the Finance Minister of Akbar subdued Chamba and other states of Kangra group and Chamba was compelled to surrender Rihlu and the territory to the east of that province as also the areas of Chari and Gharoh. Except these there was no interference on the part of the Mughal empire in the affairs of the internal administration of the Hill States.

Partap Singh's successors were Vir Vahnu (1586 A.D.), Balabadhra (1589 A.D.), Janardan (1613 A.D.), Prithvi Singh (1641 A.D.), Chatar Singh (1664 A.D.), Udai Singh (1690 A.D.), Ugar Singh (1720 A.D.), Dalel Singh (1735 A.D.), Umed Singh (1748 A.D.). During Umed Singh's reign the territory of the state was enlarged to the south of the Dhauladhar up to the border of Mandi. The fort of Pathiyar near Palampur was also garrisoned by his troops and Bir Bangahal was also under his influence. The Khan chandi portion of the palace was also erected by him and a palace at Nada was also built. This place was named as Rajnagar. He was succeeded by Raj Singh (1764 A.D.) and Jit Singh (1794 A.D.).

Sri Singh (1844 A.D.) : It was during his reign that Chamba state, came under the influence of British regime. The state was attached politically to Jalandhar Division. Subsequently it was transferred to Amritsar Division in 1862 and finally to Lahore Division. The Raja was married to a Suket princess and during his minority the economy of the state was completely shattered because of mismanagement and extravagance. The Raja, therefore, asked for the services of an officer from the British Government and Major Blair Reid was appointed Superintendent of the State in January, 1863. Major Reid carried out important and far reaching reforms. Post office, primary school, state hospital and a residency were instituted. Reforms were carried out in the administration of forests. The important places were linked with roads and income from revenue was augmented. Raja Sri died in 1870 and was succeeded by his brother Gopal Singh.

Gopal Singh (1870 A.D.) : Raja Gopal Singh like his brother Sri Singh had the assistance of a political officer. The reforms initiated by Raja Sri Singh were pushed on by Gopal Singh. Several new roads were constructed and efforts were made to beautify the town. The primary school at Chamba was raised to middle standard. The people who had earlier been dependent on orthodox methods of treating ailments were more attracted towards the state hospital. He, later on, abdicated in favour of his eldest son Sham Singh and spent the remaining years of his life at Manjir until his death in March, 1895.

Sham Singh (1873 A.D.) : He was installed as Raja by General Reynell Taler the then Commissioner of Amritsar on the 7th October, 1873. Mian Avtar Singh was appointed as his Wazir. Settlement operations of land were carried out. Col. Blair Reid retired in March, 1877 and was succeeded by Mr. R.T. Burny under whose administration the communication system was further improved. Chamba-Brahmaur, Chamba-Chuari Khas and Chamba-Khajiar roads were built. Mr. R.T. Burney was succeeded by Capt. C.H.T. Marshall who geared up the developmental works in the state. Sham Singh Hospital was expanded with facilities for treating in-patients with 40 beds. The hospital was also fully equipped with all necessary medical and surgical appliances. In 1881 a dispensary was opened at Tissa. Leper asylum started by the "Mission to Lepers" in 1876 was taken over by the state in 1881. The palace was renovated and a number of new houses were built. Sheetla bridge over the Ravi damaged by the floods in 1894 was replaced by a suspension bridge of iron at the cost of nearly a lakh of rupees. A net work of Post offices in the interior of the state was started. The judicial department adapted to local conditions was reorganized on the British pattern. Police force was increased to maintain law and order. Buildings and roads were maintained by the Public Works Department. Education was fostered by opening new schools and promising pupils were offered scholarships for study within and outside the state. A small military force consisting of 300 infantry and 30 cavalry with 4 guns was formed and barracks were erected in the neighbourhood of the town. The state was also visited by Sir Mackworth Young, Lt. Governor of Punjab in 1901 and by Lady and Viceroy Curzon in 1900. Because of his prolonged illness Sham Singh abdicated in favour of his brother Mian Bhuri Singh in 1904.

Bhuri Singh (1904-1919 A.D.) : Before his installation as Raja, Bhuri Singh had been associated with the administration as Wazir for seven years and he discharged his duties with great ability. The developmental works started during the reign of Sham Singh were carried through by Bhuri Singh. Roads in the vicinity of Chamba town were widened. In 1906 a new Dak Bungalow was built in the town. Apart from this a commodious guest house was constructed in the town and another one in the suburb of Dharog. A public reading room and Library was opened. The Middle school was upgraded to a High School in 1905 and the famous Bhuri Singh Museum was inaugurated in 1908. A power house was installed on river Sal in the vicinity of the town and the town was electrified in 1910 in addition to the completion of water supply. Raja Bhuri Singh died in 1919 and was succeeded by his elder son Ram Singh.

Ram Singh (1919-1935 AD): Soon after his accession, the Raja gave a great fillip to the education. As many as fifteen new village schools were opened. Physical education was also introduced. On 1st November, 1921 the state came under the direct control of the Government of India in the Political Department. A large portion of road from Chamba to Nurpur was realigned and completed upto the state border, Chamba-Brahmaur road which was completed upto the twentieth mile was carried on to Kiani with a suspension bridge over the Ravi. Drainage system was provided in the Chamba town to improve sanitation. To overcome water scarcity during summer a big tank was constructed. A new power house was started. Raja Ram Singh died on the 7th December, 1935 at Lahore and was succeeded by Raja Lakshman Singh.

Lakshman Singh (1935-1948 A.D.): At the time of his installation, Raja Lakshman Singh was minor and as such the state remained under council of administration consisting of three members, including a President till the Raja came of age in 1945. Major Toulmin was the first President of the council. During his reign the existing projects were carried through and a cart road joining Chamba with the plains was also completed. On the 8th March, 1948 the state merged with the Indian Union and was assigned the status of a separate district in Himachal Pradesh.

Chamba State was merged to form a district of Himachal Pradesh on the 15th April, 1948. The number of inhabited villages were increased from 66 in 1951 to 1,123 in 1961. Upto 1951 Census the lowest revenue unit was a Pargana. Each Pargana of the past comprised of a number of revenue villages. In 1951, a regular settlement was conducted in the district and Parganas were broken up and each village came to be recognized as a separate revenue village. The settlement was started in Bhattiyat and Chamba tehsils and later on, in the entire district. Assent reports in respect of each tehsil were completed by the end of October, 1958.

In 1961 Census, the district had been divided into 3 tehsils and 2 sub-tehsils. The district comprised of 1,696 revenue villages. Of these, 572 were uninhabited, 1,123 inhabited villages. One village was merged in Chamba Town. 5 villages were transferred from Chamba tehsil to Chaurah tehsil during 1961 Census vide Notification No. R-22-822/57, dated the 29th November, 1957.

As compared to 1961 Census, the jurisdiction of the district had undergone change on the reorganization of Punjab on the linguistic pattern on the 1st November, 1966, as a result 14.3 sq. kms. of area comprising of Dalhousie, M.C. Dalhousie Cantonment Board and Bakloh Cantonment Board became part of the district. The district constituted of four tehsils and one sub-tehsil and has in all 1,696 villages (including 570 uninhabited villages), two towns and one urban agglomeration comprising of two towns viz Dalhousie M.C. and Dalhousie C.B.

In 1974-75, 118 villages of Pangi Tehsil were transferred to Lahul Tehsil and subsequently included in the newly formed Udaipur sub-tehsil of Lahul & Spiti district. Two sub-tehsils viz. Saluni and Sihunta were created during the decade of 1971-81 vide notification No. GAD(G1)-6(F)-12/77-GAC-1 dated 24th January, 1980 and No. 3-20/73-GAC, dated 29th April, 1980. 258 villages transferred from Chaurah tehsil to newly formed Saluni sub-tehsil and 93 villages transferred from Bhattiyat tehsil to newly formed Sihunta sub-tehsil. Chuari Khas Khas was declared as a Notified Area Committee during 1981 Census by the State Govt.

No interdistrict jurisdictional changes took place during the decade 1981-91. However, there have been some internal changes in the district after 1981. Two new sub-tehsils namely Holi and Bhalai were created vide Notification No. 3-20/73-GAC(Part II) dated 27.5.84 and GAB-1A(1)2/87 dated 16.1.90. 140 villages transferred from Brahmaur tehsil to newly formed Holi sub-tehsil and 80 villages transferred from Saluni tehsil to newly formed Bhalai sub-tehsil. Total number of patwar circles has increased from 146 to 183. In view of the effective development in the tribal areas, single line administration was introduced. In April, 1986 Pangi was put under the charge of an officer of rank of Resident Commissioner and in April, 1988 Brahmaur was put under the charge of Deputy Commissioner, Chamba.

In 2001 census the total number of villages was 1591 and 5 towns in the district. No jurisdictional changes were found during 2011 census thus Chamba district is having the same number of villages and towns as was in 2001 census.

Administrative set up

Chamba district is a part of the Northern Himachal Pradesh. It lies between 32°10' and 33°13' north latitudes and 75°48' and 76°53' east longitudes. The district is bounded on the north and west by Jammu and Kashmir State, on the south-west by Punjab state, on the south and south-east by Kangra district whereas Lahul & Spiti district encloses it from east. Chamba district comprises of 7 tehsils and 3 sub-tehsils and has 7 Community Development blocks with headquarters at Chamba, Mehla, Brahmaur, Bhattiyat, Chuari Khas, Tisa, Saluni and Kilar. The names of C.D. blocks are also the same except in case of Chuari Khas and Kilar which are headquarters of Bhattiyat and Pangi C.D. blocks respectively. The district has six sub-divisions headed by the Sub-Divisional Officers (C). Pangi and Dalhousie sub-divisions each has its jurisdiction over a single tehsil of the same name while Chaurah sub-division comprises 3 tehsils of Saluni, Bhalai and Chaurah. Bhattiyat sub-division extends over Sihunta sub-tehsil and Bhattiyat tehsil. Chamba sub-division has tehsil of Chamba and its urban area while Brahmaur is comprised of Holi sub-tehsil and Brahmaur tehsil.

The general administration of district is looked after by the Deputy Commissioner and is assisted by Additional Deputy Commissioner and Asstt. Commissioner besides other district officers. Law and order in the district is maintained by Superintendent of Police. District has also one A.S.P. and D.S.P. Head of sub-division is Sub-Divisional Officer (C) whereas at tehsil level, Tehsildar and Naib-Tehsildar are posted. Incharge of sub-tehsil is Naib-Tehsildar who is assisted by Kanungo. In all during 2011 census there are 1,591 villages in the district. There are 5 urban units in the district namely Dalhousie (C.B.), Dalhousie (M.Cl.), Bakloh (C.B.), Chuari Khas (N.P.) and Chamba (M.Cl.). The district has shown no jurisdictional changes during 2001-2011.

Zila Parishad : With a view to promote development of democratic institutions and to secure greater measure of participation by the people in development plans in local and government affairs by decentralisation of powers and functions, Zila Parishad and Panchayat Samitis (C.D. block) have been established in the districts of Himachal Pradesh in the year 1994 under the Himachal Pradesh Zila Parishad and Panchayat Samitis Act of 1994. The jurisdiction of the Zila Parishad and Panchayat Samitis (C.D. blocks) corresponds to the district and C.D. block boundaries excluding the statutory urban areas.

The Zila Parishad elect its President and Vice-President and Chairman of committees from amongst the elected councillors. The term of office of the councillors is five years. An officer in the senior scale of I.A.S. is deputed by

the State Government as Chief Executive Officer to the Zila Parishad. The Parishad is also assisted by various departments and the heads of those department at the district level are officers of class I or II service under the State Government. At the Block level, the Panchayat Samitis (C.D. blocks) have an elected Chairman and Deputy Chairman. The Block Development Officer works as Secretary to the Panchayat Samitis (C.D. blocks). The executive authority for the purpose of carrying out the provisions of Himachal Pradesh Zila Parishad and Panchayat Samitis (C.D. blocks) Act vest in the Chief Executive Officer and the Block Development Officers. The Deputy Chief Executive Officer works as a Secretary of the general body of the Zila Parishad.

Urban Local Bodies : The statutory urban local bodies are Cantonment Board Municipal Corporation, Municipal Councils and Nagar Panchayats. The urban local bodies elect a Councilor from each of the wards and his term is 5 years. The President of the Municipal Council or the Mayor of the Corporation have also their Deputy, are elected from amongst elected Councillors and their term is for one year. The Chairman of various committees are also elected from amongst the elected councillors with a term of one year. Although for day to day administration the Executive Officer/Secretary is responsible in Municipal Council and Nagar Panchayat, he works under administrative control of the President of Municipal Council and Nagar Panchayat. In the Corporation, an I.A.S. or a senior H.A.S. officer is deputed by the State Government as Municipal Commissioner who is responsible for day to day administration and the executive authority lies in him.

District Highlights of 2011 Census

- Chamba district occupies the 7th rank among the districts in terms of population.
- Chamba district has improved its rank from 6th in 2001 census to 4th in 2011 census in terms of sex ratio among the districts of the state with 986 females per 1,000 males as compared to 972 females per 1,000 males of state average.
- Chamba district stands 5th in terms of its working force having total workers of 294,035 persons against 3,559,422 working persons of the state.
- Chamba district stands at 7th positions in terms of decadal population growth (2001-2011) of 12.6 per cent persons in comparison to state decadal population growth of 12.9 per cent persons.
- In terms of density of population per sq.km., Chamba district with 80 persons per sq.km. stands at 9th rank in the state.
- Chamba district occupies 8th rank among the districts of the state in terms of literate population. It has a literate population of 323,842 persons.
- Chamba district holds the 1st rank in terms of scheduled tribe population in the state. It has reported 135,500 persons as scheduled tribe. Pangi and Bharmour tehsils along with Holi sub- tehsil constitute the tribal area of the district.
- The economy of Chamba district is mainly depends on agriculture. It has returned 196,665 persons as cultivators and holds the 5th position among the districts of the state.
- Chamba district is known for its exquisite natural beauty which attracts large number of tourists from the plains round the year. Sub-Himalayan range of mountains full of diverse flora and fauna make Chamba district as a whole an exhilarating experience.

- Chamba district has an important place on the tourist map of the state with famous tourist places like Chamba town, Khajjiar, Dalhousie and Bharmour.
- Chamba is famous for its novelties known as “Chamba Chappal”, “Chamba Rumal”, “Chamba Paintings”, “Chamba Chuk” along with age old temples and Bhuri Singh museum. The temples erected by the rulers of Chamba more than thousand years ago are still continue to be under worship.
- Mani Mahesh a abode of lord Shiva is an important place of pilgrimage in Chamba district. It is located at the height of 5,656 meters above the mean sea level attracts pilgrims not only from the state itself but also from other states like Jammu and Kashmir and Panjab.
- Chamba is also known for its traditional fair called Minjar Fair. The splendid carnival of Minjar Fair commencing from the last Sunday of July every year and lasting for seven days being celebrated with marked enthusiasm.
- Chamba has a prominent place in its heritage culture. The people of Chamba used to undertake various activities like Metal Craft, Embroidery, Wood Carving, Stone Carving and Painting etc.
- Chamba district has many distinguished personalities who have received National Awards for their excellent work in their field. Smt. Maheshi Devi, Smt. Kamla Nayyar and Smt. Lalita Waqil has achieved National Award in the field of Chamba Rumal. S/Sh. Parkash Chand, Sohan Singh and Hakam Singh in the field of Metal Craft and Sh. Vijay Sharma and Mohd. Latif has won the National Award in the field of Chamba Painting and Wood Carving respectively.
- Chamba district has also a name in Hydro Power Generation. Baira Siul, Chamera-I and Chamera –II are the projects situated in the district.
- All the in-habited villages of the district enjoy the facility of electricity and potable drinking water.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the

existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
