SECTION - I

Introduction

Shimla district of Himachal Pradesh, lies between the longitude 77.00" and 78.19" east and latitude 30.45" and 31.44" north, has its headquarters at Shimla city. It is surrounded by Mandi and Kullu in the north, Kinnaur in the east, Uttarakhand in the south, Sirmaur in the west. The elevation of the district ranges from 300 metres (984 ft) to 6,000 metres (19,685 ft). Shimla is nestled amongst the lofty Shivalik Ranges. Himachal Pradesh Secretariat is situated at Chota Shimla in Shimla City of Himachal Pradesh.

The Secretariat campus has mainly two buildings namely Ellerslie, Armsdale and Yojna Bhawan. Shimla had been the capital of India since Britishers' time and also of Punjab State before reorganisation. At the time of Britishers' the entire British Empire in subcontinent used to be run during summers from the Ellerslie building of the Himachal Pradesh Secretariat. The Ellerslie building is also having historical importance for famous "Shimla Samjhauta" signed between India and Pakistan in 1972. Ellerslie building is very old which has derived its name from the castle of the same name that belonged to Scottish nationalist, Sir William Wallace.

Front View of Ellerslie Building.

It was constructed after dismantling an old building that housed the Military Department of Punjab Government till 1886. Lt. Col. H.E.S. Abbott who designed the building to accommodate the whole of the Punjab Secretariat, sought permission for construction from the then Secretary of the Municipal Committee Major W.P. Larion. The permission was granted on 28th June, 1899. Built during 1901-02, at a cost of Rs. 3,47,824/-, the building has 4.66 Acres area of its complex. The inside of Ellerslie is made of stones quarried from Sanjauli and Raj Bhawan and struck together using lime mortar. The brickwork too has lime mortar cementing. The H.P. Secretariat occupied it in the summer of 1967. Dr. Y .S. Parmar was the first Chief Minister and Major M .C. Sharma the 12th Chief Secretary of the State respectively. In July 1972, the “Summit Hall” where the Cabinet Meetings are held these days was renovated and given this name on the basis of initial summit meetings for Shimla Agreement held therein between India and Pakistan. The offices of the Chief Minister and the Chief Secretary were extended during 1990s. This building with sub-basement, basement and three floors, has around 153 rooms and three meeting halls and one summit hall. The main kitchen is outside the building connected through a staircase with the main pantry and dining room. Reception hall building and press blocks are adjacent to this building and more than 60 years old.

The Armsdale building is around 20 years old. The building is six storied with more than 190 rooms. Besides, it also houses, library, conference hall, dispensary, banks and canteen. Yojna Bhawan is adjacent to this building which has been constructed around 10 years ago. It has around 40 rooms.

SECTION - II

Hazard, Vulnerability and Risk Analysis

A. Hazard Analysis

The Himalayas where the Himachal Pradesh is situated are the youngest mountain range in the world and these mountains are ever growing. Shimla falls in Zone-IV, as per the Seismic Zoning map of India. This Zone is very High damage risk zone. Due to its location Himachal Pradesh Secretariat which is the seat of power of Himachal Pradesh is prone to disasters both Natural and Man Made. Due its location HP Secretariat is prone to the following natural and man-made hazards:

Natural Hazards	Man-made Hazards
➤ Earthquake ➤ Building collapse ➤ Landslide ➤ Heavy rains/Cloud Burst ➤ Heavy snow	➤ Fire ➤ Stampede ➤ Terrorist attack ➤ Demonstrations ➤ Strikes ➤ Road Accident

i) Natural Hazards

Earthquake:- Due to its location, the HP Secretariat Complex is prone to earthquake hazard. Being in the high damage risk zone, the area can attract intensity of VIII in the MSK Scale.

Building Collapse: - The Ellerslie building is very old and new buildings have been constructed much prior to the current building codes which were revised after the 2001 Bhuj earthquake. Hence due to earthquake shaking or due to ground failure the possibility of building collapse can not be ruled out for one or the other reason.

Landslide: - Being hilly area landslide can also affect the complex. Parking area of Armsdale building which rests mainly on the retaining wall can suffer damage due to landslide triggered by geological activities.

Heavy Rains/Cloud Burst: - Heavy rains/cloud burst have become order of the day can also affect the area mainly during rainy season.

Heavy snowfall: - Though snowfall in Shimla is decreasing every year yet heavy snowfall can not be ruled out in future as has happened in the year 1992 when the whole city became standstill for about one week. Climate change is also making the weather pattern very erratic. Mild snowfall this winter severely affected the movement of vehicles in the town causing a lot of hardships to the general public including the officials working in the Secretariat. It called for putting in place contingency plan to deal with such situations.

ii) Man-made Hazards

Fire Accident: - Fire accidents can also happen due to short circuit or due to negligence. There is history of such accidents in both the buildings. Ellerslie building is more vulnerable to fire hazard as majority of its building material consists of wood. The new complex doesn't have fire alarm system in place which makes it vulnerable to fire hazards. The location of the canteen facilities inside the complex is also critical.

Stampede: - Stampede can happen due to any kind of rumour or mass hysteria or due to fire incident or terrorist attack.

Terrorist Attack/Hostage Crisis: - Though Himachal Pradesh is peaceful State but terrorist attack can also not be ruled out and it can happen in the form of hostage crisis, bomb blast or firing. The location of the complex makes it an easy target.

Demonstrations/Strikes: - The H.P. Secretariat is the seat of power of Himachal Pradesh, therefore various sections of society come around the Secretariat making demonstrations or strikes. There is hardly any holding area in the complex and allowing such activities is fraught with danger. Such incidents make the movement of traffic very difficult and provides an opportunity for the anti social elements.

Road Accidents:- Road Accidents is also possible due to the fact that the two building of H.P. Secretariat are located on the main circular road of the town. The main road is overburdened/overcrowded with the vehicle of visitors and Government functionaries working in/visiting the Secretariat.

B. Vulnerability Analysis

The Secretariat being the nerve centre of Governance for the State houses the office of Chief Minister, Minister, Chief Secretary and Secretaries. Around 1770 personnel are working in this office. Besides, large number of people visit the office every day. Ellerslie building is very old and basically a wooden structure. The new buildings have been constructed much prior to the revision of buildings codes which was after the 2001 Bhuj earthquake. The complex houses large number of vehicles. There are hardly any open spaces which can act as holding area. The situation is further compounded by lack of preparedness to deal with exigencies. The staff working in the Secretariat are ignorant about the dos and don'ts of various hazards. They are neither trained in handling fire fighting equipments nor trained in basic SAR and MFA techniques. The disaster management plan is not in place to deal with various emergencies which may arise. The vulnerable analysis of the Secretariat is discussed in the following table:-

Hazards	Time of occurrence	Impact	Vulnerable area
Earthquake	Anytime	Loss of life, damage to Buildings, fire, landslide, building collapse etc.	Entire campus
Building collapse due to terrorist attack or otherwise	Anytime	Loss of life, Loss of infrastructure	Armsdale and Ellerslie
Landslide	Rainy Season	Loss of life and property.	Armsdale Parking Area and backyard of Armsdale & Yojna Bhawan
Stampede	Anytime	Loss of life	Armsdale and Ellerslie
Road Accident	Anytime	Loss of life	In front of Gate No. 1
Terrorist Attack	Day time	Loss of life	In both the buildings and parking area, mainly gate No. 1.
Fire	Anytime	Loss of life and property and important record.	Ellerslie building is made of wood and is more vulnerable but entire complex is prone to this hazard.

SECTION – III

Capacity Analysis

Fire Fighting/Fire Alarm System in the Secretariat

Ellerslie Building

Fire fighting and fire alarm system is available only in the Ellerslie building and there is no such provision in the Armsdale building. The work of fire fighting system was initiated – provision of wet riser system in Armsdale building- but was held up for want of sufficient funds. One person in each shift is deployed in the Ellerslie building round the clock to monitor the fire alarm system. In case of emergency, single person can only intimate the origin of such incident but cannot solely extinguish the fire.

Fire Fighting System:-

1. Ring Main System for fire fighting system is in operation. Total of 7 Nos Fire hydrants in the outer periphery of Ellerslie building. The water supply to 6 Nos fire hydrants is through gravity from fire tank of approximately 50,000 ltrs. Near Raj Bhawan. One hydrant is through pump in outer ring.
2. Wet riser system inside the building in operation. 3 Fire hydrants on each floor. The water supply from rain water harvesting tank of capacity 80,000 ltrs approximately. The pressure in pipe line maintained at 7 kg/cum through Jockey pump. Electric pump and diesel pump available for pressure make up in case of fire. One fire brigade inlet to wet riser system has also been provided.
3. 33 Set of 4 no's sand buckets are available on all possible places inside the building.
4. Fire extinguishers of water Co2 73 Nos. 9.0 kg and CO2 59 Nos 4.5/6.0 Kg available to deal with Class A, B & C fires However clean agent fire extinguishers are required for fire in VVIP rooms/computer server room/EPABX for avoiding any damage to computer system/EPABX system and Important files in VVIP rooms.

Fire Alarm System:-

Fire alarm system with public address system available in the building. Smoke detectors, Response Indicators, Manual Call Point and speakers are provided on all floors. However smoke detector not installed inside the ceiling to detect any fire arising from inside the ceiling. The proposal for providing smoke detector inside the false ceiling should be made.

Lighting Arrestor System:-

The lightening arrestor system in the building is not in working condition. The early emission lightening arrestor is required for protection of this Heritage building. Funds to the tune of 6.0 lacs is required for providing the system.

Protection against surge:-

Protection against surge is required for the safety of sensitive equipments like Compute servers, EPABX system, and other electric system by providing suitable surge protection devices on main supply and distribution system.

Requirement

The person deployed to monitor the fire alarm system should be provided with telephone facility to communicate with the control room, fire brigade, police, security personnel of the Secretariat and other higher authorities. Communication is also required to be established with the persons available in the pump house for proper operation of pumps simultaneously. The list of authorities responsible for response with contact details is required to be made available with the persons for communication of information to them.

ARMSDALE BUILDING

Fire Fighting system:-

1. Ring Main System for firefighting system in operation. Total of 8 Fire hydrants in the outer periphery of Armsdale building. The water supply to fire hydrants is through gravity from MC Tank of approximately 2,00,000 litres. Near Mansfield lodge. The connection to the ring main provided from 4" pipe line near exit gate of Armsdale Building. Connection from 6" main line is required for proper pressure as there is no storage tank of Armsdale building. Funds to the tune of Rs. 2.0 Lac is required to complete the work. One Fire Brigade outlet has been provided on ring main in front of Gate No.1.
2. Work for wet riser system was taken in hand due to priority and important nature of building. Pipe work inside the building is complete and work is held up due to non availability of approval and funds from SAD. Funds to the tune of Rs. 30.90 lacs required to complete the work.
3. Fire Extinguishers of water CO2 35 Nos. 9.0 Kg and CO2 62 Nos 3.0 Kg available to deal with Class A,B, and C fires. However, clean agent fire extinguishers are required for fire in VVIP rooms/computer serverroom for avoiding any damage to computer system and important files in VVIP rooms.

Fire Alarm System:-

No fire alarm system exists in this building. Fire alarm system is a must for early detection of fire specially when the building is six stories and is of such important nature. Funds to the tune of Rs. 15.0 lac approximately required to complete the work.

Lighting Arrestor System:-

The lightening arrestor system in the building is in proper working condition.

Protection Against Surge:-

Protection against surge is required for the safety of sensitive equipments like Computer servers, EPABX system and other electric system by providing suitable surge protection devices on main supply and distribution system.

Water Availability

A water tank with a capacity of around 50,000 litres exist behind the Armsdale building for fire fighting system.

SECTION - IV

Mitigation Plan

The hazards cannot be prevented but they can be prevented from turning into disasters with mitigation and preparedness. In order to mitigate the worst effects of hazard the strategy is suggested for the HP Secretariat Complex comprising of both structural and non-structural measures:-

i) Structural Measures:-

- (i) Smoke detectors to be installed in Armsdale and Yojna Bhawan.
- (ii) Complete Fire Fighting system to be put in place in the above two buildings.
- (iii) Additional parking place to be created to meet the current and future parking requirements.
- (iv) Provision of alternate main route/road by-passing H.P. Secretariat.
- (v) Provision of Barricade/Checking at suitable places.
- (vi) Rain water harvesting in both the buildings.
- (vii) Public address system centrally controlled for the entire complex.
- (viii) Installation of CCTV cameras in critical locations
- (ix) Having state of the Art Control Room.
- (x) Safety Audit of existing buildings.
- (xi) Some open space away from the Secretariat Complex should be notified for demonstrations etc.

ii) Non-structural Measures:-

- (i) Regular upkeep and maintenance of emergency exits.
- (ii) Putting up signage within and outside the complex specifying the entries and exists.
- (iii) Evacuation and contingency plan to be put in place.
- (iv) IEC on awareness
- (v) Training and sensitisation of all the staff vis-à-vis hazards at all levels- Officers, officials and watch and ward staff.
- (vi) Training on handling fire fighting equipments.
- (vii) Training on swift action and first aid.
- (viii) Training on evacuation.
- (ix) Regular and periodic Mock Drills to test the efficiency of plan.
- (x) Regular and periodic upgradation of Disaster Management plan.

SECTION – V

Preparedness Plan

All hazards can't be eliminated despite taking prevention and mitigation measure. The risk which can't be prevented or mitigated must have preparedness and contingency plan to deal with. The preparedness measures which are discussed in the succeeding paragraphs are suggested for the HP Secretariat:-

i) Planning:- Meticulous and careful planning for each type of hazard is required. The action plan needs to be clearly laid down and known to all the stakeholders. The planning needs to be tested through mock drills.

ii) Evacuation Plan:- Around 1770 personnel are working in the Secretariat. The building are multi-stories and multiple exists. Large number of visitors do visit the complex every day. Hence in the event of any emergency the evacuation plan for the complex needs to defined clearly and known to all. The emergency doors and exit direction would be clearly marked and pre-defined for all the occupants working in the complex. Separate evacuation plans needs to be worked out for all the three complexes:-

- a) Ellerslie:
- b) Armsdale:
- c) Yojna Bhawan:

iii) Training and Capacity Building:- In order to improve the capacity of personnel working in the Secretariat, training on different aspects of disaster management would be conducted as per the detail given below:-

- a) Training of all employees through IEC- Do's and Don'ts vis a vis various hazards. (All Categories of Staff)
- b) Training on mock drill and evacuation (All staff)
- c) Training in handling of fire equipments. (All Categories of Staff)
- d) Training in Search and Rescue and Medical First Aid. (Selected staff)
- e) Training to handle control room and communication equipments (Selected Staff only)

Training would be imparted to all the personnel working in the Secretariat. To begin with training of chowkidars, security personnels, safai karamcharis and employees working during the odd hours would be conducted.

iv) Constitution of Teams/Committees:- Following committees/teams have been constituted to assist the SAD in the event of any type of unforeseen incident/disaster:-

1. Disaster Management Core Committee:-

S.No.	Name	Designation	Contact Nos.
1.	Sh. Gopal Sharma	Addl. Secretary (SA)	2880655
2.	Additional Supdt.of Police, City, Shimla-1		2803212
3.	Advisor, Planning Deptt. Shimla-2		2621698
4.	Smt.Sumti Negi	Dy.Secy.(SA)	2880814
5.	Sh. Roop Singh Verma	Dy.Secy.(Ayur)	2880673
6.	Divisional Fire Officer, Shimla.		2657087
7.	A.E. PWD (Civil) HP. Sectt.		2880568
8.	A.E. PWD (Elect.) HP. Sectt.		2880498
9.	Sh. Munish Sharma	Sr. Asstt. Personnel-IV,HP.Sectt.	2880828
10.	Sh. Rajinder Singh	Resident Superintendent	2880502

Role and functions of Committee:-

1. To draft Secretariat Disaster Management Plan.
2. To update the Secretariat Disaster Management Plan regularly. (At least annually).
3. To arrange and conduct Mock Drills.
4. To arrange training courses for the staff.
5. To coordinate all the actions in disaster response.

2. Awareness Generation, Warning & Information Dissemination Team

1.	<u>Sh. Surinder Thakur</u>	<u>Section Officer, GAD –A</u>	<u>2880423</u>
2.	Sh. Mahesh Kumar	Section Officer, Tourism	2880573
3.	Sh. Ramesh Gupta	Section Officer, Finance-C	2880413
4.	Sh. Laxmi Nand Kashyap	Section Officer, GAD-D	2880426

Role and functions of Committee:-

To carry out IEC on Disaster Management by various means. (Do's & Don'ts vis-a vis various hazards).

3. Fire Alarm Team :

1	Sh. Rajinder Singh	Resident Supdt, Control Room	<u>2880502</u>
2.	Sh. Umesh	Sr.Assistant, -do-	<u>2880459</u>
3.	Sh. Ran Bahadur Singh	Jr. Assistant -do-	<u>2880459</u>
4.	J.E. PWD(Elec), Ellerslie Building		<u>2880489</u>
5.	J.E. PWD(Elec), Armsdale Building		<u>2880777</u>

Role and functions of Committee:-

To alert the Secretariat staff in all the buildings.

4. **Search, Rescue & Evacuation Team:**

1	Jaideep Negi	OSD, Library	2620916
2	Sh. Chetan Verma	Section Officer, R&I-I	2880453
3	Sh. Hem Singh Thakur	Section Officer, R&I-II	2880454
4	Sh. Ram Singh Ranot	Section Officer, Inds.-A	2880436
5	Sh. :Parkasha Nand	Section Officer, Health –B	2880430
6	Sh. D.S. Manthan	Section Officer, Horticulture	2880434
7	Sh. Ramesh Verma	Section Officer, SAD-II	2880450
8	Sh. Bakshi Ram	Section Officer, Record Section	2880457
9	Sh. Rajinder Singh	Section Officer, RPG	2880490
10	Sh. T.C. Chauhan	R.O., Planning Deptt.	2620977
11	Sh. Desh Raj	ARO, Planning Deptt.	2880887
12	Sh. Pradeep Sharma	ARO, Planning Deptt.	2880889
13	Smt. Saroj Negi	Law Officer	2880569
14	Sh. Surinder Kumar	Law Officer	2880587
15	Sh. B.S.Dutta	Supdt., R&I-I	2880503
16	Smt. Indra Sharma	Supdt., LEP	2880444
17	Sh. Nand Lal	Supdt., Transport	2880478
18	Sh. Rajesh Kumar	Supdt., Home-G	2880564
19	Sh. Rama Nand	Supdt., Vigilance	2880481
20	Sh. Mohan Lal Bhardwaj	Supdt., GAD-C	2880425
21	Sh. Mast Ram Kaushal	Ex. Cadre Supdt., Pers. Accts.	2880447
22	Sh. Raj Kumar Guleria	Ex. Cadre Supdt., YSS	2880483
23	Sh. Beli Ram Sharma	Ex. Cadre Supdt., R&I-I	2880459
24	Sh. Jeet Ram	Sr. Asstt., Agri-B.	2880314
25	Sh. Jeet Ram	Sr. Asstt., Fin-A	2880411
26	Sh. Pradeep Singh	Sr. Asstt., Rev-A.	2880467
27	Sh. Praveen Gupta	Sr. Asstt., Edu-A	2880408
28	Sh. M.D. Sharma	Sr. Asstt., Forest –A	2880420
29	Sh. Anand Kishore Sharma	Sr. Asstt., Health-A	2880429
30	Sh. Balwant Singh Thakur	Sr. Asstt., CM-A	2880499
31	Sh. Sanjay Kumar	Sr. Asstt., GAD-D	2880426
32	Sh. Lej Ram Saini	Sr. Asstt., Estate Office	2880816
33	Smt. Paramjeet	Jr. Asstt., Small Savings Deptt.	2880557
34	Sh. Paldan Negi	Restorer, Record Section	2880457
35	Sh. Muni Lal Negi	Head Gate Keeper	2880567
36	Sh. Jai Krishan	Clerk, Control Room	2880459

Role and functions of Committee:-

1. Search of affected areas and evacuation of injured from the said area.
2. Ensure the availability of teams for search and rescue.
3. Making inventory of search and rescue equipments and ensure their availability during emergencies.

4. To provide keys of emergency exists and make arrangement for opening of all emergency exists and other doors.
5. To ensure that the staff use only the emergency exist allotted to them.
6. To ensure that the buildings are evacuated at the earliest on alarm or during emergencies.

5. First Aid Team:-

1.	Medical Officer/InchargeH.P. Sectt. Dispensary		2880485
2.	All Para medical staff working in H.P. Sectt. Dispensary		2880585
3.	Sh.Manmohan JassaI	Section Officer, IPH-B	2880465
4.	Sh. Madan Kaushal	Section Officer, GAD-C	2880425
5.	Sh. Jeet Singh Raghava	Sr. Law Officer	2880569
6.	Sh.Param Jeet Thakur	Supdt., Home-A	2880431
7.	Sh. Sant Ram Sharma	Supdt., Health-A	2880429
8.	Smt. Sarika Gupta	Sr. Asstt., GAD-B	2880424

Role and functions of Committee:-

1. Providing of first aid to the injured.
2. To identify the members of first aid team in each floor.
3. To ensure adequate supply of first aid kits.

7. Fire Fighting/Fire Safety Team;

1	Sh. Jai Singh Verma	Section Officer, Fin. Pension	2880543
2	Sh. Arjun Singh Chauhan	Dy. Director, Planning Deptt.	2880561
3	Sh. K.D. Kalta	Asstt. Director, Hosp.&Protocol	2626192
4	Sh. R.C. Jassal	Section Officer, Pers-I	2880445
5	Sh. Santokh Zinta	Section Officer, PWD-B	2880464
6	Sh. Med Ram Sharma	Section Officer, Rev-B	2880468
7	Sh. Ram Rattan	Section Officer, Ind-B	2880437
8	Sh. Rajinder Negi	Section Officer, Fin-A	2880411
9	Sh. Rakesh Sharma	Section Officer, Edu-A	2880408
10	Sh. Mangal Singh	Section Officer, MPP & Power	2880469
11	Sh. Kartar Singh	Section Officer, Ayurveda	2880504
12	Sh. Pritam Singh	Section Officer, Health-A	2880429
13	Sh. P.R. Negi	Section Officer, Pers. Accts.	2880447
14	Sh. Gauri Dutt	Section Officer, Edu-D	2880480
15	Sh. N.S. Bhandari	Section Officer, Vigilance	2880481
16	Sh. Saligram Sharma	Section Officer, YSS	2880483
17	Sh. Chander Sen Negi	Section Officer, Home-F	2880476
18	Sh. Harish Kumar Gautam	Chief Librarian	2880528
19	Sh. Satyadev Sharma	Law Officer	2880327
20	Sh. Surinder Singh	Law Officer	2880587

21	Sh. K.B. Jain	Supdt., Small Savings Deptt.	2880557
22	Sh. Brij Lal	Supdt., CM-B	2880405
23	Sh. Yashpal Kanwar	Supdt., R&I-I	2880503
24	Sh. Om Prakesh	Supdt., I&PR	2880593
25	Sh. Nanak Chand Rana	Supdt., Record Section	2880457
26	Sh. Ritu Raj	Supdt., Sainik Welfare Deptt.	2880427
27	Sh. Subhas Chand Sharma	Supdt., Planning Deptt.	2880840
28	Sh. Tilak Raj Thakur	PPO, Planning Deptt.	2880515
29	Sh. Baldev Singh	Ex. Cadre, Supdt., GAD-D	2880426
30	Sh. Pradeep Sharma	Ex. Cadre, Supdt., GAD-C	2880425
31	Sh. Dhani Ram Panwar	Sr. Asstt., Estate Office	2880831
32	02 Electricians of PWD	Posted in Ellerslie Building	2880489
33	02 Electricians of PWD	Posted in Armsdale Building	2880777

Role and functions of Committee:-

1. Use of equipments during emergency and to impart training to others for use of fire safety equipment.
2. To contain fire locally.
3. To inform the fire department in case it cannot be contained locally.

8. Space & Transport Management Team :-

1.	Sh. Dinesh Gautam	Section Officer, Pers-IV	2880828
2.	Sh. Chand Sharma	Section Officer, Forest-A	2880420
3.	Sh. Ugar Sen Negi	Sr. Law Officer, Law Deptt.	2880817
4.	SHO/Incharge, Chhota Shimla Police Station		2620954
5.	Sh. M.R. Shardia	Supdt., Animal Husbandry	2880403
6.	Sh. Daya Ram Sharma	Supdt., GAD-A	2880423
7.	Sh. Ramesh Negi	Supdt., Finance-F	2880416
8.	Sh. Surinder Singh Rana	Supdt. Ex-cadre, R&I-II	2880827

Role and functions of Committee:-

1. Management of space for assembling of persons and parking area for vehicles etc.
2. Allotment/earmarking of space as stated above well in advance.
3. To ensure that the allotment of space is adhered to by all concerned during mock drills and during emergencies.
4. Transportation of injured.
5. Making available ambulances.
6. Identifying parking places for ambulances and movement of fire tenders etc.

7. Media Management Team:-

1.	Director, Information & Public Relation or representative		
2.	Sh. Kanti Parsad Sharma	Section Officer, NES	2880542

3.	Sh.Deepak Thapa	Section Officer,Tech.Edu.	2880477
4.	Sh. Parmod Chauhan	Section Officer, Rev-A	2880467

Role and functions of Committee:-

1. Preparing press releases.
2. Briefing to the press about the incidents, rescue work and loss of property etc.

v) Role of District Administration

The District Disaster Management Authority (DDMA) would extend necessary assistance to and coordinate with the SAD in any emergent situation. The DDMA would coordinate the overall response of district administration including health, police, fire, civil defence and home guards, red cross, municipal corporation, volunteers organisations etc. The SOPs of the District Disaster Management Plan would be the guiding principles for response.

vi) Mock-Drill:- Mock Drills would be conducted:-

- a) Once in six months to test the plan.
- b) To internalise the response and for better coordination and improving the Disaster Management Plan.

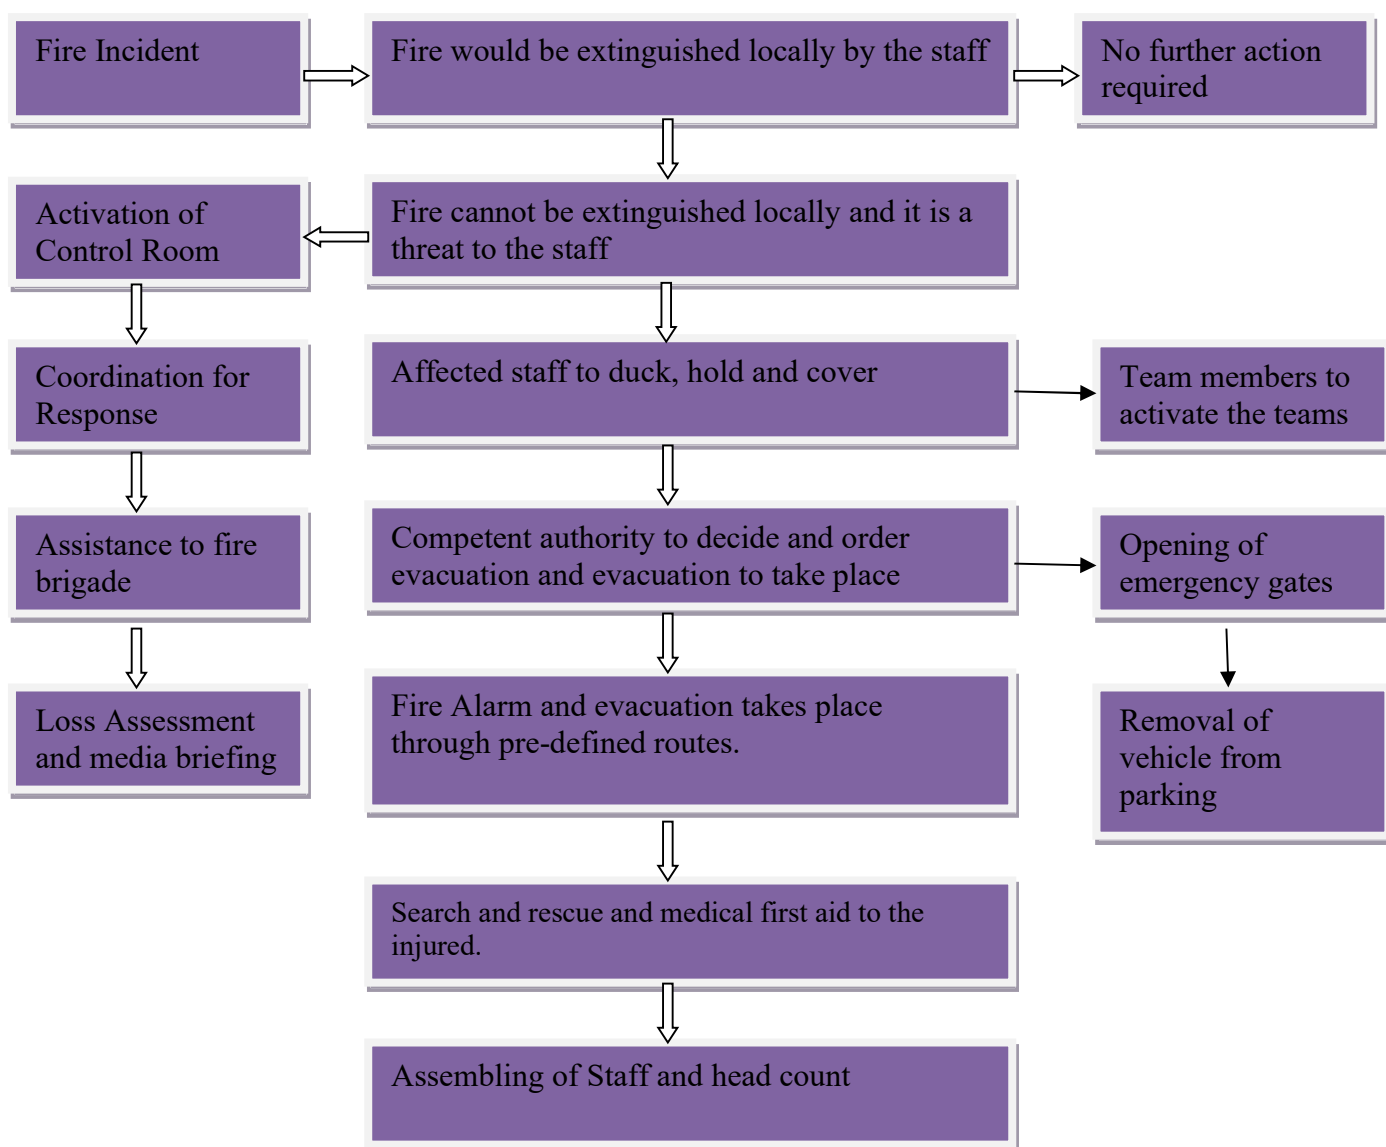

The mock drills can coincide with the expiry and refilling dates of the fire fighting equipment so that they can be put to use and employees get hands on training to operate them.

SECTION – VI

Response Plan

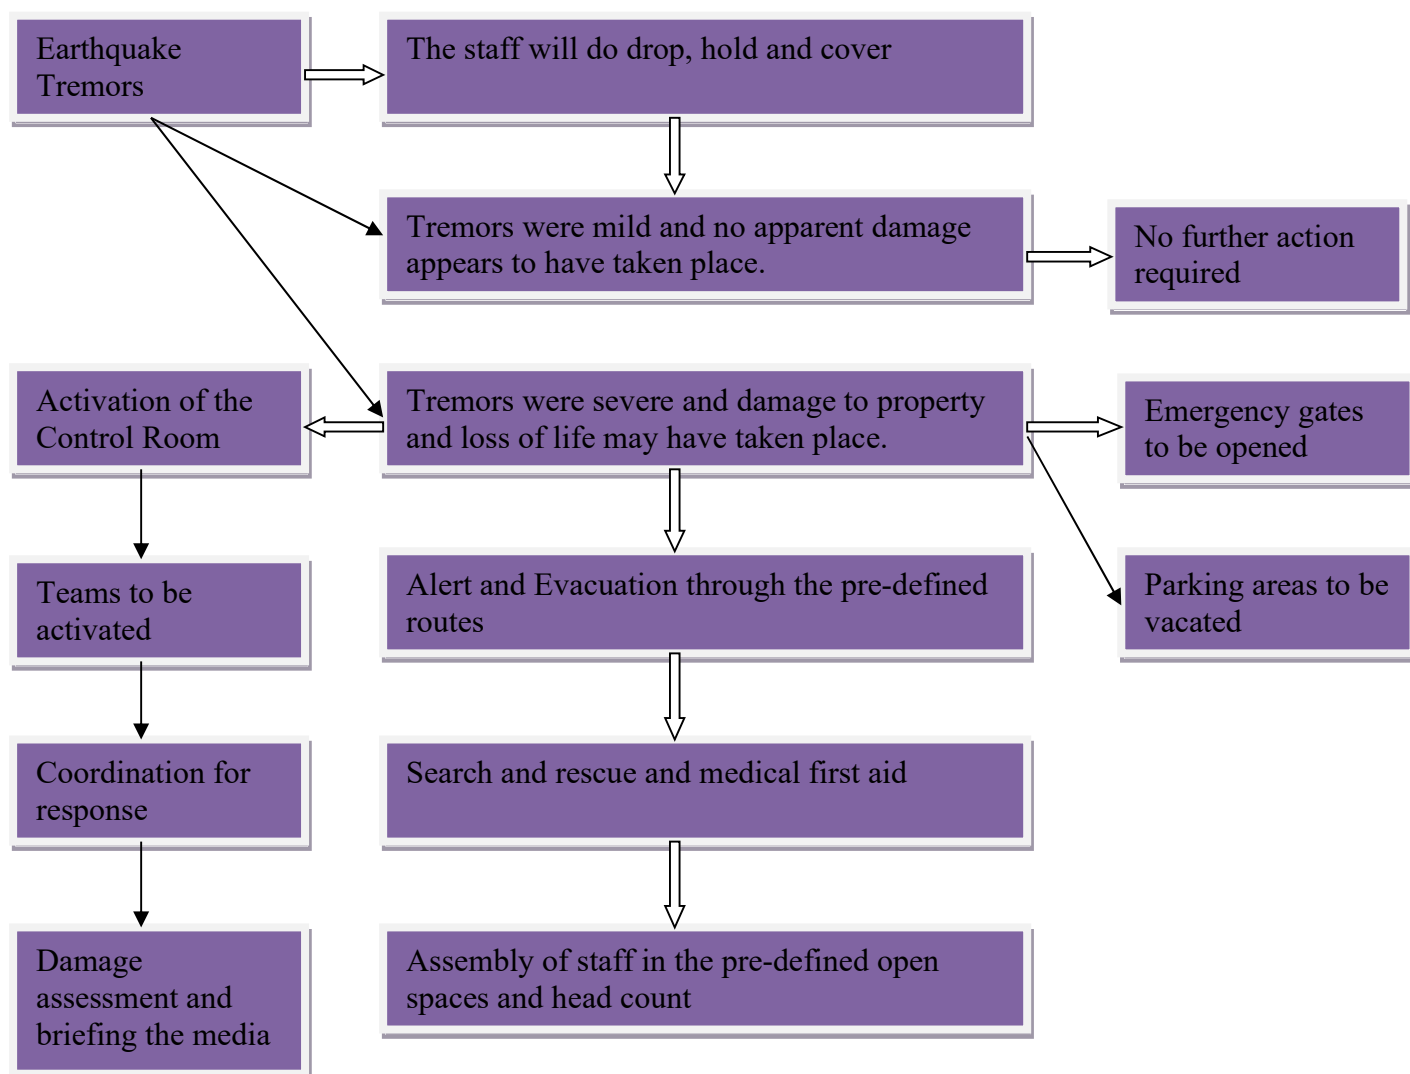

The response is a multi-agency action and in order it to be effective and quick the guidelines and standard operating procedures have to be laid down in advance. Timely and correct response is must to minimise damage to property and loss of life. The response plan will be different for office and non-office hours. The response plan for HP Secretariat for fire and earthquake is detailed below:-

- I) Response Plan during Office Hours:-** Illustration of response plan for office hours for fire will be as under:-

During Off Hours: During the off hours the staff posted will try to put off the fire and if the fire is beyond their control the Secretariat Control Room would immediately intimate the fire brigade, police, electricity department and senior officers of the Government. Efforts would also be made to contact various team members so that they can also be called for help.

II) Illustrative response plan for earthquake during office hours is as under:-

Standard Operating Procedures for Police

a) Preparedness Plan during Fire in H.P. Secretariat

Communication

- (1) Firstly Guard Incharge H.P. Secretariat will inform T-1 and T-1 will inform the following in given order.
 - (i) PS East Shimla
 - (ii) All Senior Police Officers
- (2) Deployment of Police Personnel with hand held Walky Talky Set at:-
 - (i) Mall Road Nigam Vihar Bifurcation near Wine Shop at Shimla.
 - (ii) Road leading to Kusumpti at Rajive Chowk.
 - (iii) Raj Bhawan-Sanjauli bifurcation 100 mts away from Vishal Mega Mart.
 - (iv) Both gates of Armsdale Buildings.
 - (v) Back side of the Armsdale.

Traffic:-

- (i) Both gates of the Armsdale Building will be kept open.
- (ii) Vehicles parked inside Armsdale building will be shifted and parked towards Mall Road and Vishal Mega Mart side.
- (iii) Vehicles coming from ISBT side shall be immediately stopped at liquor shop towards Nigam Vihar at Chota Shimla Chowk and after that diverted from Talland Chowk to towards Khalini.
- (iv) Vehicles coming from Kusumpti at Rajiv Chowk to Sanjauli & H.P. Secretariat will be stopped immediately below Rajiv Chowk, Chota Shimla.
- (v) Vehicles coming from Sanjauli will be stopped at Raj Bhawan-Sanjauli bifurcation 100 mts away from Vishal Mega Mart.
- (vi) Both roads one from Oak over to Armsdale and Raj Bhawan to Armsdale will be kept free from traffic for the movement of Fire Tenders and Ambulance.
- (vii) Keeping all roads clear leading to IGMCI.

Law & Order and Rescue Operation:-

- (i) Whole fire area will be cordoned immediately by PS East.
- (ii) Send the QRTs in effected areas with required equipments to effected area stationed at PS East.
- (iii) Carry out research and rescue operations.
- (iv) Keeping watch and protect the public property.
- (v) Law & Order will be maintained by the PS East.

b) Preparedness Plan during Terrorist Attack in H.P. Secretariat

Communication

- (1) Firstly Guard Incharge H.P. Secretariat will inform T-1 and T-1 will inform the following in given order.
 - (i) PS East Shimla
 - (ii) All Senior Police Officers
- (2) Deployment of Police Personnel with hand held Walky Talky Set at:-
 - i) Mall Road Nigam Vihar Bifurcation near Wine Shop at Shimla.
 - ii) Road leading to Kusumpti at Rajiv Chowk.
 - iii) Raj Bhawan-Sanjauli bifurcation 100 mts away from Vishal Mega Mart.
 - iv) Both gates of Armsdale Buildings.
 - v) Back side of the Armsdale.

Traffic:-

- (i) Both gates of the Armsdale Building will be kept open.
- (ii) Vehicles parked inside Armsdale building will be shifted and parked towards Mall Road and Vishal Mega Mart side.
- (iii) Vehicles coming from ISBT side shall be immediately stopped at liquor shop towards Nigam Vihar at Chota Shimla Chowk and after that diverted from Talland Chowk to towards Khalini.
- (iv) Vehicles coming from Kusumpti at Rajiv Chowk to Sanjauli & H.P. Secretariat will be stopped immediately below Rajiv Chowk, Chota Shimla.
- (v) Vehicles coming from Sanjauli will be stopped at Raj Bhawan-Sanjauli bifurcation 100 mts away from Vishal Mega Mart.
- (vi) Both roads one from Oak over to Armsdale and Raj Bhawan to Armsdale will be kept free from traffic for the movement of Fire Tenders and Ambulance.
- (vii) Keeping all roads clear leading to IGMCI.

Note: These all points firstly immediately manned by the PS East and take over by the traffic staff as early as possible. If the operation takes long time then traffic will be diverted from the alternative routes.

Law & Order and Rescue Operation:-

- (i) Whole fire area will be cordoned immediately by PS East.
- (ii) Send the QRTs in effected areas with required equipments to effected area stationed at PS East.
- (iii) Carry out research and rescue operations.
- (iv) Send the commandos inside the building from back side or from possible entry point of the building.
- (v) Law & Order will be maintained by the PS East.
- (vi) Set up a team who will talk with hostee.

c) Preparedness Plan during Hostage Crisis in H.P. Secretariat

Communication:

- (1) Firstly Guard Incharge H.P. Secretariat will inform T-1 and T-1 will inform the following in given order.
 - i. PS East Shimla
 - ii. All Senior Police Officers
- (2) Deployment of Police Personnel with hand held Walky Talky Set at:-
 - (i) Mall Road Nigam Vihar Bifurcation near Wine Shop at Shimla.
 - (ii) Road leading to Kusumpti at Rajive Chowk.
 - (iii) Raj Bhawan-Sanjauli bifurcation 100 mts away from Vishal Mega Mart.
 - (iv) Both gates of Armsdale Buildings.
 - (v) Back side of the Armsdale.

Traffic:-

- (i) Both gates of the Armsdale Building will be kept open.
- (ii) Vehicles parked inside Armsdale building will be shifted and parked towards Mall Road and Vishal Mega Mart side.
- (iii) Vehicles coming from ISBT side shall be immediately stopped at liquor shop towards Nigam Vihar at Chota Shimla Chowk and after that diverted from Talland Chowk to towards Khalini.
- (iv) Vehicles coming from Kusumpti at Rajiv Chowk to Sanjauli & H.P. Secretariat will be stopped immediately below Rajiv Chowk, Chota Shimla.
- (v) Vehicles coming from Sanjauli will be stopped at Raj Bhawan-Sanjauli bifurcation 100 mts away from Vishal Mega Mart.
- (vi) Both roads one from Oak over to Armsdale and Raj Bhawan to Armsdale will be kept free from traffic for the movement of Fire Tenders and Ambulance.
- (vii) Keeping all roads clear leading to IGMCI.

Note: These all points firstly immediately manned by the PS East and take over by the traffic staff as early as possible. If the operation takes long time then traffic will be diverted from the alternative routes.

Law & Order and Rescue Operation:-

- (i) Whole fire area will be cordoned immediately by PS East.
- (ii) Send the QRTs in effected areas with required equipments to effected area stationed at PS East.
- (iii) Carry out research and rescue operations.
- (iv) Send the commandos inside the building from back side or from possible entry point of the building.
- (v) Law & Order will be maintained by the PS East.
- (vi) Set up a team who will talk with hostee.

SECTION – VII

Evacuation Plan of the Secretariat Complex

The evacuation in the Secretariat would take place as per the pre-defined routes/gates. A copy of the plan would be pasted at some conspicuous place in all the rooms of the Secretariat.

Evacuation Plan for Armsadale Building

6 th Floor Phase-I Shri Hem Singh Thakur, SO(R&I-II) Exit Gate No-3	6 th Floor Phase-II including NIC Shri Ramesh Verma, SO, SAD-II Exit Gate No. 4 Mobile No. 94184-50949	
5 th Floor Room No. 501-518 Shri Nand Lal, Supdt. IPH-B Exit Gate No-3	5 th Floor Room No. 519-525 Shri Balwant Singh, Sr Asstt. PWD-A Exit Gate No. 4 Mobile No. 94592-79001	5 th Floor Room No. 526-532 Shri Prakasha Nand , SO Health-B Emergency Exit Mobile No. 94184-55573
4 th Floor Room No. 401-418 Shri Praveen Gupta, Sr. Asstt. Education-A, Exit Gate No.3	4 th Floor Room No. 419-425 Shri Mast Ram Kaushal, Supdt. Personnel Account, Exit Gate No-4	4 th Floor Room No. 426-432 Shri MD Sharma, Sr. Asstt. Forest-A, Emergency Exit
3 rd Floor Room No. 301-318 Shri Ram Singh Ranout, SO(Ind-A), Exit Gate No.3	3 rd Floor Room No. 319-325 Shri Jeet Ram, Sr. Asstt. Finance-A, Exit Gate No-4 Mobile No. 98517-69963	3 rd Floor Room No. 326-332 Shri Rama Nand, Supdt. PWD-B, Emergency Exit
2 nd Floor Room No. 201-218 Shri Jeet Ram, Sr.Asstt. Agr-B, Exit Gate No.3	2 nd Floor Room No. 219-225 Shri D.S Mahantan, SO(Hort.), Exit Gate No-4 Mobile No. 94180-31361	2 nd Floor Room No. 226-232 Smt. Indra Sharma, Supdt, Emergency Exit
1 st Floor Room No. 101-110 Shri Peadeep Singh, Sr. Asstt, Rev-A, Exit Gate No.3	1 st Floor Room No. 111-123 Shri Muni Lal Negi, Head Gate Keeper, Exit Gate No.4	1 st Floor Library Wing, Shri Jaideep Negi, OSD, Library, Emergency Exit Mobile No. 94180-40271

Ground Floor, Phase-I
(Telephone Exchange, Central Registry,
Biometric Cell, PWD Elect Wing, State Bank
of Patiala, Dispensary) Exit Gate No.3

Ground Floor, Phase-II(Tourism
Canteen, COC, Ayurvedic Dispensary),
Gate No.4

Evacuation Plan for Ellerslie Building

3rd Floor, Room No 325-340
Smt. Saroj Negi, Law Officer,
Exit Gate No. 1 or 2
Mobile No. 84184-55516

3rd Floor, Room No 301-324
Smt. Surinder Kumar, Law Officer,
Exit Gate No. 1 or 2
Mobile No. 94188-94829

2nd Floor, Room No 201-218
Shri Raj Kumar Guleria, Supdt. YSS Section,
Exit Gate No.1 or Ground Floor Emergency
Exit No. 3 & 4 adjoining to Tourism Canteen
GF

2nd Floor, Room No 219-232
Shri Jai Krishan, Clerk, Control Room,
Exit Gate No. 1 or Ground Floor Emergency
Exit No.5 adjoining to Summit Hall.

1st Floor, Room No. 101-105,
Shri Sanjay Kumar, Sr. Asstt.
GAD-D ,
Exit Gate No. 1

1st Floor, Room No. 106-118,
Shri Beli Ram Sharma, Sr. Asstt.
R&I-I, Emergency Exit No 3 & 4
adjoining to Tourism Canteen GF
Mobile No. 94184-55897

1st Floor, Room No. 119-134,
Shri B.S Dutta, Supdt. R&I-I,
Emergency Exit No. 5 adjoining
to Summit Hall in GF.
Mobile No. 94184-71300

Ground Floor
(Room No. G-1 to G-2 Emergency
Exit No.6),(Room No. G-3 to G-8
Emergency Exit No.4), Shri
Bhaskar Thakur, SO, R&I-I
Mobile No. 94181-09559

Ground Floor,
Room No, G-9 to G-18, Shri M.L
Bhardwaj, Supdt. GAD-C,
Emergency Exit No.3 & 4 GF
adjoining to Tourism Canteen

Ground Floor,
Room No, G-19 to G-34, Shri
Bakshi Ram, SO, Record,
Emergency Exit No.5 adjoining to
Summit Hall in GF

Basement
Shri Paldan Negi, Restorer
Emergency Exit No. 1 & 2 in Basement

Sub-Basement
Shri Rajinder Thakur, SO, RPG, Exit Via LAC
Branch towards Below Reception and to
main road or via outside water tank towards
PWD Elect. Office and out.

Press Block, Shri Lej Ram Saini, Sr. Asstt.
Estate Office, Exit Via LAC Branch towards
Below Reception and to main road or via
outside water tank towards PWD Elect.
Office and out
Mobile No. 98160-35871

Evacuation Plan for Yojna Bhawan

1st Floor, Shri T.C. Chauhan, RO(Planning),
Exit Gate No.4 Armsdale Building or Ground
Floor Exit of Yojna Bhawan

2nd Floor, Smt. Paramjeet, Junior Asstt. Small
Saving, Exit Gate No.4 Armsdale Building or
Ground Floor Exit of Yojna Bhawan

3rd Floor , Shri Desh Raj, ARO(Planning), Exit
Gate No.4 Armsdale Building or Ground
Floor Exit of Yojna Bhawan

4th Floor, Shri Pradeep Sharma,
ARO(Planning), Exit Gate No.4 Armsdale
Building or Ground Floor Exit of Yojna
Bhawan

5th Floor, Shri Anand Kishore Sharma, Sr.
Asstt. Health-A, Exit Gate No. 4 Armsdale
Building or Ground Floor Exit of Yojna
Bhawan

Ground Floor, Capital Treasury, Emergency
Exit and Main exit of C.T

Earthquake Safety in the Office

Every year thousands of people receive injuries as a result of earthquakes. It is important to teach *earthquake safety in the office* to all employees. The best way to be prepared for a disaster is to have knowledge about what needs to be done if one should occur. A good way to keep everyone calm and collected during a natural disaster would be to start up a relief team. This is a few people that have been trained not only in earthquake safety but first aid and group communication as well. They will be able to help others when needed and lead people that may be frightened. It is always a good idea to have an evacuation plan that the entire office knows.

Earthquake Safety in the Office Tips

You cannot prevent an earthquake from occurring but you can do your best to be prepared if one does happen while you are at work. There are several ways to make the office a safer place during an earthquake. A few minutes of earthquake safety in the office preparation could actually save the lives of the people working in the building with you.

- Make sure all shelves are secured to the walls and floors to prevent them from falling on to people in an earthquake.
- Have an *earthquake safety* kit ready for emergencies. This should include a first aid kits, flashlights, batteries, a portable radio and water.
- Make sure the building is routinely inspected to be sure it is up to current earthquake safety standards.
- Have an evacuation plan ready and practice it so everyone knows what it is. Find a safe place to meet after the earthquake is over. Take a roll call to make sure everyone is present at the time.

- During the earthquake you should get under your desk to prevent anything from falling on you or you. If there is no desk around find a door way and stand in it until the quake is over.

Earthquake Safety in the office Hazards

Here is a list of potentially hazardous items during an earthquake. The best way to promote *earthquake safety in the office* is to have a team of employees that are designated safety monitors check for all hazardous items.

- Bookshelves
- Wall Mounted Shelves
- Heavy objects hang on walls such as paintings and fire extinguishers.
- Hanging light fixtures such as ceiling fans
- Filing cabinets
- Water coolers
- Computers, printers, faxes and all other office equipment

All of these items should be reinforced to make sure they are properly secured and will not fall during the earthquake. All Electrical office equipment can be held to the desk safely by placing double sided velcro stripes on them and the table they are placed on. This will help to keep them from flying off the desk and causing injury.

Since all of you work in area that has high natural disaster potential and it is very important that all employees are properly trained in **earthquake safety in the office**. Teaching people how to prepare for an earthquake and how to react when one is occurring is the best way to prevent injuries and save lives. *Earthquake safety training Will help keep everyone calm during an earthquake.*

Office Fire Safety Tips

If you work in an office building there are basic steps you should take to help ensure your safety and survival if you should ever be caught in a fire or other critical situation and you needed to evacuate the building. Every building has unique characteristics including design, construction, condition and use. As a result, these fire safety tips highlight only the basics of emergency evacuation. The State Safety Program recommends that everyone study and apply these basic tips.

What should you know before an emergency occurs?

- Understand the building emergency evacuation plan.
- Identify and practice the way to at least two escape routes from your workstation to the designated gathering place.
- Count and remember how many desks or cubicles and doors are between your workstation and the two nearest exits, you may need to escape in the dark.
- Know where the fire and emergency reporting stations are and how to use them.
- Recognize the sights and sounds of fire and emergency evacuation alarms.
- Document who to contact and how to contact them at the time of an emergency.
- Report blocked exits and damaged or nonfunctioning building safety systems.

What should you do in an emergency?

- Listen carefully for instructions over the building emergency public address system.
- Evacuate immediately, quickly and calmly, following posted evacuation instructions and the building emergency evacuation plan.
- Move directly to the nearest fire and smoke free exit stairwell. If the nearest stairwell is obstructed by smoke or fire, use your alternate escape route. Be aware that the only available exit route may contain limited amounts of smoke or fire.

- Crawl low under smoke to breathe cleaner air if there is a fire.
- Test doors for heat before opening them by placing the back of your hand against the door. Do not open a hot door, find an alternate exit route. Keep fire doors closed to slow the spread of smoke and fire.
- Avoid using elevators when evacuating a burning building.
- Report to the designated gathering place and make your presence known.
- Never re-enter the building until directed by authorities.

If trapped during an emergency, what should you do?

- Stay calm so you can take steps to protect yourself.
- Retreat to a place with an outside window remote from the fire, smoke or emergency situation and telephone for help if possible.
- Stuff clothing, towels or papers in cracks around doors to prevent smoke from entering your space.
- Remain where rescuers can see you and wave a bright-colored cloth or other conspicuous object to attract attention.
- Open a window if possible, but be prepared to close it should smoke enter your space. Avoid breaking windows.
